Since Inception returns calculated on NAV of Rs. 10/-.
Inception date (deemed to be the date of allotment): 04.04.2008. Data based on NAV as on 29.07.2011. Since Inception date: 4th April 08 (deemed to be date of allotment). The calculations of returns shall assume reinvestment of all the payouts at the then prevailing NAV. SIP calculations for 1 year, 3 years and since inception based on NAVs as on 10th day of every month. SIP Returns is calculated using XIRR function. Returns on SIP and Benchmark are annualized and cumulative investment return for cash flows resulting out of uniform and regular monthly subscriptions have been worked out on “Excel” spreadsheet function known as XIRR. The past performance may not necessarily be an indication of future results and may not necessarily provide basis for comparison with other investments.

The above image is for illustration purpose only & the ranking/ratings are assigned by these agencies either by website announcements or by issuing a certification document. For detailed ranking methodology, scheme features & risk factors, please see overleaf.
1. Flexible Investment Approach

- MAIOF has complete flexibility to invest in stocks across sectors and market caps.
- This enables the fund to shift its investments to sectors which are expected to do well in the future thereby capturing the upswing early.
- The fund can also move out of sectors which are not performing well enough.

2. Portfolio Construction

- MAIOF adopts a dual strategy of investing in core (60% - 70%) and strategic (30% - 40%) portfolio allocations.
- This distinct strategy offers the possibility to target long-term capital appreciation and at the same time capture short-term opportunities.

3. Robust Investment Portfolio

- MAIOF's portfolio is focused on businesses which are better positioned to meet the current macro challenges such as:
  - Scale of size
  - Need little capital to grow / maintain cash flow
  - Superior management
  - Available at decent discount to industry / market valuation

Ratings/Classifications:

Value Research: Mirae Asset India Opportunities Fund - Regular: Growth, has been rated "★★★★★" (5 star) by Value Research in the Open Ended Equity category. Large & Mid-cap category & rated among Top 10% of funds out of 61 funds for the 3 year period ending on June 30, 2011. The fund has been assigned 'above average' on risk grade and 'high' on returns grade. Value Research Fund Rating is a composite measure of historical risk-adjusted returns. In case of equity funds, this rating is based on the average monthly returns for the last 3 and 5-year period. The rating does not take into consideration any entry or exit load. Value Research ratings do not rate an equity fund with less than 3-year performance track record. Further, each category must have a minimum of 10 funds for it to be rated and a fund with less than Rs.5 crs of average AUM in the past six months is not eligible for rating. Five stars indicate that a fund is in the top 10% of the category in terms of historical risk-adjusted returns. The Value Research ratings are published in Mutual Fund Insight and Monthly Mutual Fund Performance Report. These ratings are subject to change every month. The ratings are based on primary data provided by the fund and Value Research does not guarantee the accuracy. Publisher: Value Research India Private Limited, Morningstar India Private Limited.

Morningstar Risk: Mirae Asset India Opportunities Fund - Regular has been rated "★★★★★" (5 star) in the Morningstar® Category: India CE Large Cap category, with Morningstar® Category Index: ISL S&P/CNX Nifty PR INR. There were 135 funds (which completed 3 years of performance) considered in this category for the rating exercise for the 3 year period ended June 30, 2011. The Morningstar fund rating methodology is based on a fund's risk-adjusted return within a given Morningstar® category. Morningstar ratings are calculated every month for the 3 year, 5 year, and 10 year period. Within each rating period, the top 10% funds receive a five star rating, the next 22.5% earn a four star rating, the next 35% get three stars, the next 22.5% receive two stars, and the bottom 10% get one star. Morningstar ratings are not intended to be independent research or to serve as a recommendation to an investor. Morningstar does not guarantee the accuracy.
