EQUITY UPDATE

- Volatility continued during the month, BSE-30 and Nifty-50 indices settled with a loss of 2.6% and 3% in May.
- High inflation, uncertainty around the Russia-Ukraine war, surging Covid cases in China (impact on global supply chain) and probability of aggressive rate hike by the US Fed were the key factors influencing the market.
- Mid-cap and small-cap indices underperformed large-cap and were down by 5% and 8% respectively.
- Autos and FMCG indices were the only sectors that ended in the green. Metals, power and consumer durables indices declined by 16%, 12% and 11% respectively.
- The S&P 500 Index was flat while Nasdaq was down around 3.5%.

Global Macros

- The 10 Yr US G-Sec cooled off by around 13 bps to 2.85% while Indian 10 Yr G-Sec moved more than 25bps to close at 7.39%.
- The United States Federal Reserve raised its benchmark interest rate by 50 bps, minutes of May FOMC meeting signalled 50 bps rate hikes in next meetings.
- Dated Brent crude spot price increased to US\$120/bbl from US\$106.6/bbl and future prices increased to US\$122.8/bbl from US\$109.3/bbl.

Domestic Macros

- Inflation/policy:** CPI inflation surged to 8-year high of 7.79% in April 2022, persisting above RBI's target for the 4th straight month. Food inflation surged to 17 months high of 8.38%. WPI inflation surged to record high for 2011-12 series at 15.1% in April 2022.
- Currency:** Rupee depreciated to lows of Rs. 77.83/US\$ in mid-May (from highs of 76.26 on May 5th) on account of strengthening of the US Dollar on the back of a hawkish US Fed. Since this low, however, the Rupee has recovered but remained above the 77.50-mark even as elevated crude oil prices (amid supply concerns from geo-political conflicts and demand pick up from a gradual opening up in China) weigh on the currency. As on May 31st, the Rupee has recovered by 0.3% to around Rs77.5/US\$ from the lows witnessed in mid-May.
- Trade Deficit:** Trade deficit in April came in at US\$20.1 bn, rising from US\$18.5 bn in March. Trade deficit was US\$193 bn in FY22 (US\$100 bn in FY21 and US\$161 bn in FY20).

Regulatory, policy and market developments

- Equity trading trends:** FPIs sold US\$5.7 bn (till May 27) worth of Indian equities in the secondary market while DIIs bought US\$6.3 bn (till May 30).
- RBI off-cycle MPC:** The RBI MPC in an off-cycle meet increased policy repo rate by 40bps to 4.4% and CRR by 50bps to 4.5%, to curb inflation. Despite the rate increase, the RBI would maintain its 'accommodative' stance, citing strong economy.
- GST Collection:** GST collections remained healthy at INR1.4 lakh crore in May on the back of improving economic activities. This comes after the highest collection of INR1.6 lakh crore that was reported in the month of April 2022.
- Monsoon:** IMD raises monsoon forecast to 103% of long period average vs 99% earlier as La Nina conditions are now expected to prevail during entire monsoon season.

4QFY22 results - Inline, aggregate corporate 'profit to GDP' ratio reaching 4.5% in FY22.

- Corporate earnings for 4QFY22 came in line despite headwinds like sharp commodity inflation and omicron impacting first half of the quarter. The Nifty universe posted in-line sales/EBITDA/PBT/PAT growth at 30%/15%/25%/25% YoY, respectively.
- There was a wide divergence between sectors adversely affected by rising raw material prices (Autos, Cement, Consumer Staples and Durables, Specialty Chemicals) and those not directly impacted/benefitted by rising prices (BFSI, Metals, O&G and Technology)
- BFSI, Commodities (Metals & O&G) and IT accounted for 90% of incremental earnings YoY, with BFSI contributing more than 50% of the incremental growth
- Management commentaries indicated concerns around sharp commodity inflation impacting demand in rural pockets as they continue to pass on

inflation via price hikes so as to protect margins. Impact of this on demand will need to be observed in the next few quarters.

- Nifty consensus earnings for FY23/24 saw limited downgrade of 0.2%/0.4% during the result season. Real test of inflation will play out in 1HFY23.

Key sectoral highlights

- Technology:** IT companies reported healthy revenue growth (2.3% QoQ) in a seasonally weak quarter. However, unlike last few quarters, growth failed to surprise positively. Deal intake continues to be strong for all the companies. Commentary suggests that the robust demand environment is expected to continue in FY23. EBIT margins contracted 80bp QoQ due to the ongoing supply-side challenges.
 - Banking:** Banks reported a decent 4QFY22 earnings fuelled by healthy recovery in loan growth and controlled provisions. NBFCs saw healthy momentum in new business with continued improvement in asset quality driven by recovery in economic activities.
 - Consumer:** Discretionary companies (Paints, Apparel, Quick Service Restaurant (QSR) Liquor, etc.) delivered strong double-digit topline growth while most of the staples companies saw single-digit growth due to weak volume growth. Urban demand has outperformed rural demand. Margins were under pressure for most companies owing to sharp inflation.
 - Cement:** Demand was muted in Jan-22 (weak infra spend and rural demand), albeit saw recovery from mid-Feb onwards. Concurrently sustained cost inflation (P&F, freight, packing costs) and inadequate price hikes impacted EBITDA/t on yoy basis.
 - Automobiles:** PV demand remained strong in 4QFY22 with easing chip supplies. 2 wheelers retail demand contracted 15-20%. Medium & Heavy Commercial vehicles (M&HCV) demand maintained its growth momentum and spiked on high base of last year. Commodity cost inflation slowed in 4QFY22, with raw material cost (as a % of sales; ex TTMT (Tata Motors) contracting 60bp QoQ. The EBITDA margin (ex-TTMT) improved 110bp QoQ to 11.3%, benefitted by operating leverage.
- #### Outlook
- Indian markets, while declined have outperformed** global markets during 2022 as medium-long term domestic outlook remains promising (cyclical recovery in many sectors, China+1) and domestic flows continue to support FI selling.
 - Inflation remains the key macro parameter** which will drive global equity markets in the near term. Indian Govt recently announced few measures (Excise duty cut in Petrol & Diesel, export duties on steel) to control inflation coupled with on-going rate hikes undertaken by RBI (+40bps in May 2022; more expected). Global crude oil and food supply remains tight and prices can continue to be volatile.
 - 1QFY23 will be the first quarter of no covid restriction on movement since the onset of the pandemic in 2020.** High-frequency indicators for the quarter so far indicate robust economic recovery, which should gather momentum going forward.
 - Key things to watch** out are (a) Oil price trend, (b) pace of rate hikes by central banks, (c) pace of economic recovery, (d) Russia-Ukraine war and its impact on global supply chain, (e) COVID lockdowns being lifted in China and (f) monsoons.

- Over the medium term,** we continue to remain constructive on equities and believe India is on the cusp of achieving robust growth over the next few years. Higher capex provisioning and benefits from PLI (potentially can add 1.5% to GDP over the next 5 years) should potentially revive overall capital expenditure across the sectors, boost employment as well as credit growth.

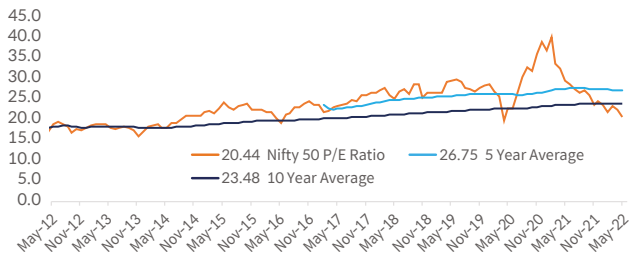

- Valuation:** The valuations of the broad market have become a lot more reasonable after the recent correction. The Nifty-50 Index trades reasonably at 19x 1-year forward net profits compared to a 12-month peak of 23x.

- Recommendation:** We would advise investors not to time the market and invest in equities for the long term within their earmarked asset allocation in a disciplined way (based on one's risk profile). The staggered investments through SIP (Systematic Investment Plan) and STP (Systematic Transfer Plan) would remain the best ways to invest in equities.

Source: Bloomberg, as on 31st May, 2022. For all the above data

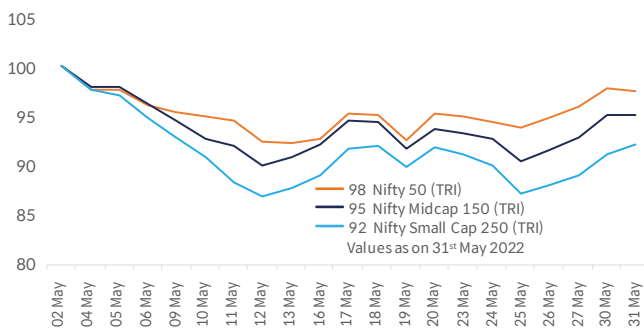

We would suggest you may invest in a disciplined way in equities for long term, within the earmarked asset allocation (based on individual risk profile). In the current market scenario, staggered investments through SIP (Systematic Investment Plan) & STP (Systematic Transfer Plan), may be one of the best ways to invest in equities.

DEBT UPDATE

Market Movement

The month of May had started with the realization that inflation is now no longer transient. The full impact of global geopolitical crisis, its impact on global commodity prices and supply disruptions can be seen in the resulting inflation trend. The global action moved from managing growth to tackling inflation. Therefore, at the start of the month, the Reserve Bank of India made a surprise announcement of a repo rate hike. It unanimously decided to increase interest rates by 40 bps to 4.40%, from a record low 4%, signaling an intensified battle against inflation. To continue with their aim of absorbing liquidity in the system, the panel also increased the CRR requirement by 50 bps to 4.5% (withdrawal of 870 billion rupees from the system).

Key developments during the month

- RBI announced an unanticipated interest rate hike of 40 bps.
- the United States Federal Reserve raised its benchmark interest rate by 50 bps and signals of further hikes in the future.
- Steps by Indian government to control the inflation by cutting excise duty on petrol and diesel by Rs. 8 per litre and Rs. 6 per litre, respectively.
- The government announced a hefty export duty on steel products and raw materials and also lowered import duty on key raw materials for steel production.
- Curbs on the export of sugar beyond 10 mn tons.
- Moody's cut India's CY2022 GDP growth forecast to 8.8% from 9.1% earlier.

Global Debt update

There was conflicting data points coming out of the global debt markets. The Institute of International Finance in the World Economic Forum talked about how global debt has passed \$300 trillion in 2021. This includes borrowing by governments, businesses and households, and the International Monetary Fund warns that it is at dangerously high levels. COVID-19 led to unprecedented borrowing and now the war in Ukraine is pushing global debt even higher.

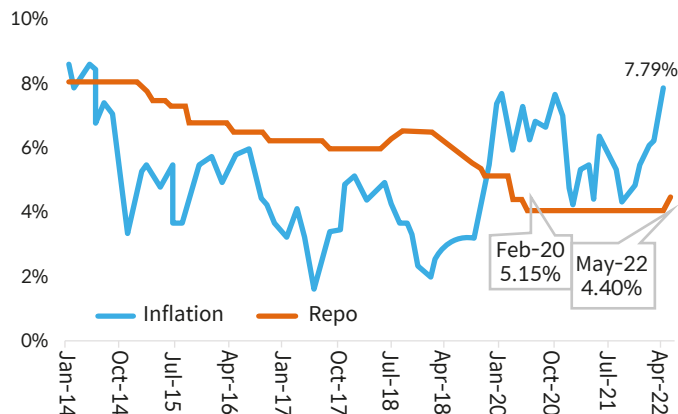

On the other hand, with the increase in interest rates across major geographies, Global investment-grade debt has returned almost 1 per cent in May 2022, the first monthly gain since July 2021, while US Treasuries are heading for their best month since November 2021. The rising yields made institutional investors across the globe bullish on long term bonds. The rally in bonds has already pushed U.S. 10-year yields down to 2.84% from a three-year high of 3.20% in early May. Yields on similar-maturity German bunds have dropped to 1.06% from a peak of 1.19% three weeks ago.

Global Macros

Central banks – Earlier the toss up for central banks was to ensure enough liquidity during lockdowns to avoid recession. This easy money supply and war induced supply constraints have led to inflation. Now the toss up is to move towards policy normalization to control inflation but not to induce a recession. Historically, central banks look for price stability over growth thereby making interest hikes imperative which leads to elevated recession risks.

Developed markets – With the May commentary from the US Federal Reserve, rates hike @50bps in every meeting is expected till September 2022 along with balance sheet reduction moves expected with sale of market backed securities based on inflation numbers. Canada and European Central Bank are expected to take similar stance of increased rate hikes to be in line to tackle inflation in their geographies.

Emerging markets – India and others countries like Malaysia, Brazil, Mexico with increasing inflation will have an upwards bias to increase interest rates while also trying to protect local currency against the US Dollar and rising US interest rates. The exception is China which is continuing a loose monetary policy with rate cuts which is an indication of the COVID impact on the economy. Russia also increased its repo rate from 10.5% to 20% at start of the conflict and has now cut it to 14%, indicating their changing contours of their conflict with Ukraine.

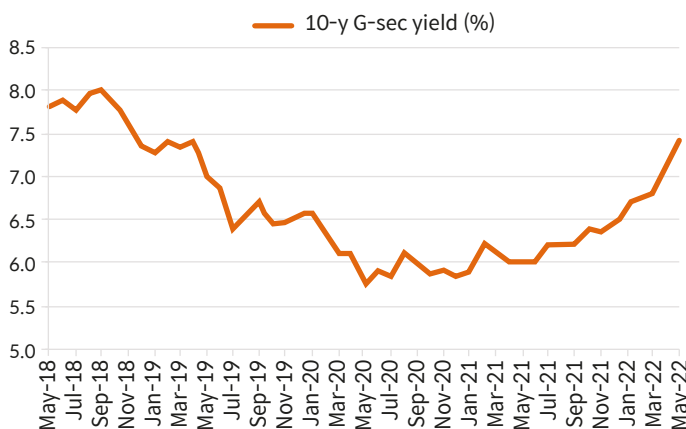

Policy Rate	Post Policy	Pre-policy
Repo rate	4.40%	4.00%
Standing Deposit Facility	4.15%	3.75%
Marginal Standing Facility	4.65%	4.35%
Bank Rate	4.65%	4.25%
CRR	4.50%	4.00%

Source: Bloomberg, CRISIL

The impact therefore was seen in hardening in yields and the last two months has seen a uptick in yields as follows;

10-Year G-Sec movement	Start	End	Increase during the month
April 22	6.90%	7.14%	3.49%
May 22	7.12%	7.42%	4.14%

Source: ccilindia.com

Source: Bloomberg, CRISIL add past performance disclaimer

	Eurozone	US	China
PMI	54.5 (55.5)	57.5 (59.2)	49.6 (47.4)
Unemployment	6.8% (6.8%)	3.6% (3.6%)	6.1% (5.8%)
CPI (YoY)	8.1% (7.4%)	8.3% (8.5%)	2.1% (1.5%)
Retail Sales	0.8% (5.2%)	8.19% (7.34%)	-11.1% (-3.5%)

Note: Latest released data (Previously released data)

Domestic Macros

GDP Growth – Latest National Statistical Office data puts India’s real gross domestic product (GDP) growth at 8.7% for last financial year (FY), slightly lower than the last estimate of 8.9%.

Supply side – The Gross Value Added in the Indian economy rose 8.1% in FY 2022 (down from previous estimate of 8.3%), compared with a 4.8% contraction in fiscal 2021. This indicates the rebound happening in the economy as we came out of lockdown.

Imports – As things were improving, a commodity & energy constraint induced a higher import bill which leads to pressure on the INR USD equation exacerbated by rising US interest rate.

Crude & fiscal impact – By consensus estimates, an average price of USD 120 per barrel of crude translates to an additional burden of USD 70 Bn on the Indian economy in FY23 above FY22. This is an additional burden of 1.9% of GDP and heightened borrowings.

On the fiscal, by provisional estimates, in FY 2022, gross tax revenue was higher by Rs.1.9 lac crs due to increase in direct & indirect tax revenues. However, this was offset by higher subsidies esp. fertilizer subsidies of Rs. 1.29 lac crs. In FY 2023, there are risks of fiscal slippages due to excise cuts in crude, custom duty cuts, revenue expenditure on food & fertilizer subsidies. Some estimates peg gross fiscal

Yields - Yields across the segment jumped up post the RBI surprise rate hike and remained volatile post that in range of 25 bps. Yield on the 10-year G-sec opened May at 7.14 % and closed at 7.42%, jump of 28 bps. Market is taking in the further rate hike expectation on account of RBI commentary and raising inflation. Corporate bond moved in same line as G-sec. But, with SDL yields saw some contraction due to lower than announced borrowing. Money market segment remained volatile and with almost 90-100 bps hike in 3- and 6-months papers.

Market Outlook

In US, market seems to suggest that inflation might have peaked and may begin to ease in coming months, both due to incoming favorable base effect and recent slight softening of major commodity prices recently. Combined with expected slowdown in growth momentum, section of analysts has started to discuss possibilities of US Fed slowing down in rate hikes pace beyond the next 2 hikes, as guided for by US Fed presently. Accordingly, US 10Y treasury yields eased to about 2.75% from recent high of about 3.20%. However, gap between inflation and Fed target still remains very wide and possibility of renewed apprehension of continued rate hikes remain.

RBI has also indicated an urgency to return to pre-covid levels on policy rates and is therefore expected to hike rates again at June policy meeting. Market will expect further hikes down the road in progression towards normalization of monetary policy. Incremental liquidity withdrawing measures are also expected. Borrowing calendar remains rather heavy. Benchmark 10Y govt bond yields have found strong resistance in 7.40-7.50% zone and that is expected to hold. Yields curve may flatten further from near side with short term rates inching up more in response to expected rate hike and liquidity normalization measures.

Past Performance May or May not sustain in future

How to read a Mutual Fund Factsheet?

Know how your money is managed

The benefits of investing in mutual funds are well known. However, buying them on face value is not enough. Investors should know how their money is managed. They should research as much as possible on a scheme's strategy, performance, risks involved and how the money is invested. Many investors shy away from this exercise as they consider it cumbersome. To make life easy for investors, mutual funds disclose a fund factsheet which details the quintessential information required before investing.

The factsheet is a concise document with a plethora of information about how the fund is managed; it is disclosed on a monthly basis. This article tries to decode the factsheet and explains how investors should use it for making investment decisions.

Five things to look out for in mutual fund factsheets

Basic information

The factsheet provides all the general information on the fund – its objective or philosophy, options (growth or dividend), plans (direct and regular), net asset value (NAV) of each plan, minimum investment amount, systematic features (SIP, SWP, STP) and assets under management (AUM) data.

It is important to know about the fund's exit load, as it gets deducted from total gains if the investor exits during a specific period after investment. It is a small penalty charged on prevailing NAV to discourage premature redemption. Different schemes have different exit loads, while few such as Overnight funds generally do not have exit load. Some funds have a fixed exit load and some have a tiered structure. For instance, a fund may have nil exit load if the investor withdraws up to 10% of units per year. For units more than 10%, it charges 3% for exit before 12 months, 2% for exit before 24 months, 1% for exit before 36 months and nil after that.

Investors should look out for the fund's product labeling and riskometer. Product labeling underlines product suitability for investors. It tells about ideal investment time frame required to benefit from the fund and where it invests. Riskometer is a presentation that helps investors measure the risk associated with the fund. It presents six levels of risks - low, Low to Moderate, moderate, moderately High, High and Very High. Since an equity fund typically has high risk involved, needle of the scale points towards moderately high /high, suggesting the fund is meant for investors with a high risk-taking appetite. Examples of equity and liquid funds are listed below:

Equity Fund

Product Labeling

This product is suitable for investors who are seeking:

- Growth of capital in the long term
- Investment predominantly in equity and equity-related instruments

Debt Fund

Product Labeling

This product is suitable for investors who are seeking:

- Optimal returns in the short term
- Investment in portfolio of short duration money market and debt instruments

The data used is for illustration purpose only.

Performance aspects

Although the past performance does not guarantee future trend, investors can get a broad idea on how a fund may perform in future. This section looks at the fund's performance (lump sum as well as SIP) across time frames and compares it with the fund's benchmark and a

market benchmark. Many fund houses provide graphical representation of calendar year performance of funds along with standard SEBI prescribed performance tables.

The data used is for illustration purpose only.

Performance Report

Fund manager details

In an investment voyage, mutual fund is the ship and fund manager is the sailor. Success of the voyage depends on the manager's expertise. Hence, it is imperative to know the fund manager well.

The factsheet provides information on the manager's experience and qualification. You can find out their track record by reviewing the performance of all schemes managed by them.

Portfolio aspects

Key portfolio attributes to look for in equity/ hybrid funds

Asset allocation

It highlights the exposure to different asset classes - equity, debt and cash - in a portfolio.

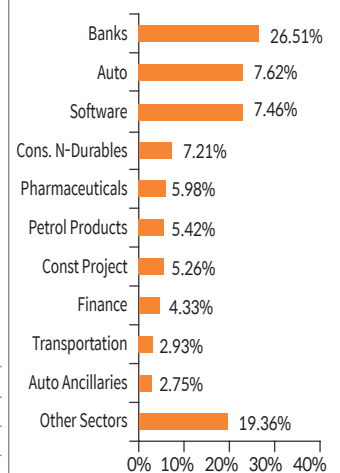

Company and sector allocation

It informs investors about a fund's concentration level in sectors and stocks. An aggressive fund manager may have high concentration among fewer companies and sectors, which may not be appropriate for investors seeking diversification. Investors should check whether the fund has taken higher-than-prudent exposure to riskier sectors or low quality stocks.

Portfolio Top 10 holdings % Allocation

Company	% Allocation
Equity Shares	
HDFC Bank Ltd	7.05%
ICICI Bank Ltd	6.34%
Larsen & Toubro Ltd	3.96%
IndusInd Bank Ltd	3.81%
State Bank of India	3.79%
HDFC Ltd	3.72%
Maruti Suzuki India Ltd	3.38%
Infosys Ltd	3.17%
Kotak Mahindra Bank Ltd	2.93%
ITC Ltd	2.91%
Other Equities	53.77%
Equity Holding Total	94.83%
Cash & Other Receivables	5.17%
Total	100.00%

Allocation - Top 10 Sectors

The data used is for illustration purpose only.

Key portfolio attributes to look for in debt funds

Credit quality profile

A debt fund's holdings are classified according to its credit ratings such as AAA, AA+, A1+ (given by credit rating agencies), etc.

Funds with higher exposure to AAA (top rated long-term debt) and A1+ (top rated short-term debt) have lower credit risk and higher credit quality.

Conservative investors should check whether the fund manager in order to boost performance is taking undue exposure to lower rated debt papers as they typically trade at higher yields but are exposed to high credit and liquidity risk vis-à-vis top rated papers.

The data used is for illustration purpose only.

Instrument break-up

It highlights allocation to various debt instruments such as commercial papers (CPs), certificate of deposits (CDs), NCDs and bonds, gilts and cash equivalents.

Investors in shorter maturity debt funds such as liquid, ultra short term, short-term debt funds should check whether higher proportion has been allocated to shorter maturity instruments such as CPs and CDs. As long-term debt instruments such as gilts and bonds are typically more sensitive to interest rate changes compared with CPs and CDs, higher exposure to former instruments by liquid or ultra-short term may result in high risk.

The data used is for illustration purpose only.

2022-23

Tax Reckoner

Snapshot of Tax rates specific to Mutual Funds

The rates are applicable for the financial year 2022-23 as per Finance Act, 2021

Income-tax implications on income in respect of units of Mutual Fund

Type of Investor	Withholding tax rate
Resident***	10%*
NRI	20%**

* Tax not deductible if dividend income in respect of units of a mutual fund is below Rs. 5,000 in a financial year.

** The base tax is to be further increased by surcharge at the rate of:

- 37% on base tax where specified income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore

Specified income – Total income excluding income under the provisions of section 111A and 112A of the Income-tax Act, 1961 ('the Act')

Further, "Health and Education Cess" is to be levied at 4% on aggregate of base tax and surcharge

*** As per section 139AA of the Income tax Act, 1961 ('the Act') read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to PAN – Aadhaar not being linked on or before 30 June 2021, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act.

CAPITAL GAINS TAXATION

	Individual/ HUF ^{§1}	Domestic Company ^{§1}	NRI [§]
Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 12 months) • Short Term Capital Gains (units held for 12 months or less)			
Long term capital gains	10%*	10%*	10%*
Short term capital gains	15%	15%	15%
Other Than Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 36 months) • Short Term Capital Gains (units held for 36 months or less)			
Long term capital gains	20% [§]	20% [§]	Listed - 20% [§] Unlisted - 10%**
Short term capital gains	30% [^]	30% / 25% ^{^^} / 22% ^{^^^} / 15% ^{^^^^}	30% [^]

Tax Deducted at Source (Applicable to NRI Investors)[§]		
	Short term capital gains [§]	Long term capital gains [§]
Equity oriented schemes	15%	10%*
Other than equity oriented schemes	30% [^]	10%** (for unlisted) & 20% [§] (for listed)

* Income-tax at the rate of 10% (without indexation benefit and foreign exchange fluctuation) to be levied on long-term capital gains exceeding Rs. 1 lakh provided transfer of such units is subject to Securities Transaction Tax ("STT").

§ Surcharge to be levied at:

- 37% on base tax where specified income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

Specified income – Total income excluding income by way of dividend or income under the provisions of section 111A and 112A of the Act.

Further, Health and Education Cess to be levied at the rate of 4% on aggregate of base tax and surcharge.

@ Surcharge at 7% on base tax is applicable where total income of domestic corporate unit holders exceeds Rs 1 crore but does not exceed 10 crores and at 12% where total income exceeds 10 crores. However, surcharge at flat rate of 10 percent to be levied on base tax for the companies opting for lower rate of tax of 22%/15%. Further, "Health and Education Cess" to be levied at the rate of 4% on aggregate of base tax and surcharge.

Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at the time of redemption of units in case of NRI investors.

& After providing indexation.

** Without indexation.

[^] Assuming the investor falls into highest tax bracket.

^{^^} If total turnover or gross receipts in the financial year 2019-20 does not exceed Rs. 400 crores.

^{^^^} This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

^{^^^^} This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

Further, the domestic companies are subject to minimum alternate tax (except for those who opt for lower rate of tax of 22%/15%) not specified in above tax rates.

Transfer of units upon consolidation of mutual fund schemes of two or more schemes of equity oriented fund or two or more schemes of a fund other than equity oriented fund in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Transfer of units upon consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Relaxation to non-residents from deduction of tax at higher rate in the absence of PAN subject to them providing specified information and documents.

The Finance Act, 2021 introduced section 206AB (applicable from 1 July 2021) stating that tax to be deducted at twice the applicable rate in case of payments to specified person (except non-resident not having permanent establishment in India) who have not filed return of income for past two assessment years for which time limit for filing return has expired and the aggregate of tax deducted at source in his case is Rs. 50,000 or more in each of these two years. Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Bonus Stripping: The loss due to sale of original units in the schemes, where bonus units are issued, will not be available for set off; if original units are: (A) bought within three months prior to the record date fixed for allotment of bonus units; and (B) sold within nine months after the record date fixed for allotment of bonus units. However, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such unsold bonus units.

1. Income Tax Rates

Option A

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

Total Income	Tax Rates
Up to Rs. 2,50,000 ^{(a)(b)}	NIL
Rs. 2,50,001 to Rs. 5,00,000 ^{(d)(e)}	5%
Rs. 5,00,001 to Rs. 1,00,00,000 ^(d)	20%
Rs. 10,00,001 and above ^{(c)(d)}	30%

(a) In case of a resident individual of the age of 60 years or above but below 80 years, the basic exemption limit is Rs. 300,000.

(b) In case of a resident individual of age of 80 years or above, the basic exemption limit is Rs 500,000.

(c) Rate of surcharge

- 37% on base tax where specified income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore. Specified income – Total income excluding income under the provisions of section 111A and 112A of the Act. Marginal relief for such person is available.

(d) Health and Education cess @ 4% on aggregate of base tax and surcharge.

(e) Individuals having total income not exceeding Rs. 500,000 can avail rebate of lower of actual tax liability or Rs. 12,500.

Option B

The Finance Act, 2021 has proposed New Personal Tax Regime: Total Income

Total Income	Tax Rates
Up to Rs. 2,50,000	NIL
Rs. 2,50,001 to Rs. 5,00,000	5%
Rs. 5,00,001 to Rs. 7,50,000	10%
Rs. 7,50,000 to Rs. 10,00,000	15%
Rs. 10,00,001 to Rs. 12,50,000	20%
Rs. 12,50,001 to Rs. 15,00,000	25%
Rs. 15,00,001 and above	30%

For adopting Option B, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. The aforesaid regime is optional. Accordingly, Individuals and HUFs have the option to be taxed under either of the options. Option B once exercised can be changed in subsequent years (not applicable for business income).

2. Securities Transaction Tax (STT)

STT is levied on the value of taxable securities transactions as under:

Transaction	Rates	Payable by
Purchase/ Sale of equity shares (delivery based)	0.1%	Purchaser/ Seller
Purchase of units of equity oriented mutual fund	NIL	Purchaser
Sale of units of equity oriented mutual fund (delivery based)	0.001%	Seller
Sale of equity shares, units of business trust, units of equity oriented mutual fund (non-delivery based)	0.025%	Seller
Sale of an option in securities	0.05%	Seller
Sale of an option in securities, where option is exercised	0.125%	Purchaser
Sale of an futures in securities	0.01%	Seller
Sale of units of an equity oriented fund to the Mutual Fund	0.001%	Seller
Sale of unlisted equity shares and units of business trust under an initial offer	0.2%	Seller

3. Special rates for non-residents as per domestic provisions

(1) The following incomes in the case of non-resident are taxed at special rates on gross basis:

Transaction	Rates(a)
Dividend	20%
Interest received on loans given in foreign currency to Indian concern or Government of India (not being interest referred to in section 194LB or section 194LC)	20%
Income received in respect of units purchased in foreign currency of specified Mutual Funds / UTI	20%
Royalty or fees for technical services ^(b)	10%
Interest income from a notified infrastructure debt fund, specified loan agreement, specified long term bonds, rupee denominated bonds(c) and business trust	5%
Interest on FCCB, Dividend on GDRs	10%

(a) These rates will be further increased by applicable surcharge and health and education cess.

(b) In case the non-resident has a Permanent Establishment (PE) in India and the royalty/ fees for technical services paid is effectively connected with such PE, the same is taxable at 40% (plus applicable surcharge and health and education cess) on net basis.

(c) Interest payable to a non-resident in respect of monies borrowed by any Indian company or business trust from a source outside India by way of issue of rupee denominated bond during the period 17 September 2018 to 31 March 2019 is exempt from tax.

(2) Tax on non-resident sportsmen or sports association on specified income @20% plus applicable surcharge and health and education cess.

4. Capital Gains rates applicable to unit holders as per domestic provisions

Transaction	Short term capital gains(a)	Long term capital gains(a)(b)
Sale transactions of equity shares/ unit of an equity oriented fund which attract STT	15%	10%*
Sale transaction other than mentioned above:		
Individuals (resident and non-residents)	Progressive slab rates	20% / 10% ^(b)
Firms	30%	
Resident companies	30%/25% ^(d) /22%/15% ^(f)	
Overseas financial organizations specified in section 115AB	40% (corporate) 30% (non corporate)	10%
FIIIs	30%	10%
Foreign companies other than ones mentioned above	40%	20% / 10% ^(c)
Local authority	30%	20% / 10%
Co-operative society rates	Progressive slab or 20% ^(g)	

* Income-tax at the rate of 10% to be levied on long-term capital gains exceeding Rs. 1 lakh (without indexation benefit and foreign exchange fluctuation)

(a) These rates will further increase by applicable surcharge & health and education cess.

(b) Income-tax rate of 20% with indexation and 10% without indexation.

(c) Long term capital gains arising to a non-resident from transfer of unlisted securities or shares of a company, not being a company in which the public are substantially interested, subject to 10 per cent tax (without benefit of indexation and foreign currency fluctuation).

(d) If total turnover or gross receipts in the financial year 2018-19 does not exceed Rs. 400 crores.

(e) This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

(f) This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

(g) Co-operative societies have the option to be taxed at progressive slab rates or 20% subject to fulfillment of certain conditions as provided in section 115BAD.

5. Personal Income-tax Scenario

Individual	Total Income								
	475,000	825,000	1,000,000	1,200,000	1,500,000	5,650,000	11,150,000	21,150,000 #	51,150,000 #

Resident senior citizen (age 80 years and above)	Total Income								
	475,000	825,000	1,000,000	1,200,000	1,500,000	5,650,000	11,150,000	21,150,000 #	51,150,000 #
Tax in FY 2022-23 (Option A)*	NIL***	36,400	72,800	119,600	213,200	1,658,800	3,707,600	7,930,000	21,514,480
Tax in FY 2022-23 (Option B)**	NIL***	50,700	78,000	119,600	195,000	1,638,780	3,686,670	7,907,250	21,489,546
Additional Tax burden/ (Savings) in Option B	-	14,300	5,200	-	(18,200)	(20,020)	(20,930)	(22,750)	(24,934)
Additional Tax burden/ (Savings) (%) in Option B	-	39.29%	7.14%	-	(8.54%)	(1.21%)	(0.56%)	(0.29%)	(0.12%)

* For purpose of tax calculation under Option A, ad hoc deduction of INR 150,000 has been claimed. The ad hoc deduction is only illustrative in nature. Basis actual deduction, the tax amount will vary.

** For purpose of tax calculation under Option B, no exemption/ deductions have been claimed.

*** NIL tax on account of rebate under section 87A.

If the said taxable income includes capital gains under section 111A and section 112A of the Act, then enhanced surcharge of 37% and 25% would not be applicable and accordingly effective tax rate would be lower.

Disclaimer: The information set out above is included for general information purposes only and does not constitute legal or tax advice. In view of the individual nature of the tax consequences, each investor is advised to consult his/her own tax consultant with respect to specific tax implications arising out of their participation in the Scheme. Income Tax benefits to the mutual fund & to unit holder is in accordance with the prevailing tax laws as certified by the mutual funds tax consultant. Any action taken by you based on the information contained herein is your responsibility alone. Mirae Asset Mutual Fund will not be liable in any manner for the consequences of such action taken by you. The information contained herein is not intended as an offer or solicitation for the purchase and sales of any schemes of Mirae Asset Mutual Fund.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

■ Sharpe Ratio:

Sharpe Ratio is a risk to reward ratio, it measures portfolio returns generated in excess to the investment in risk-free asset, for per unit of total risk taken. While, positive Sharpe ratio indicates, portfolio compensating investors with excess returns (over risk-free rate) for the commensurate risk taken; negative Sharpe ratio indicates, investors are better off investing in risk-free assets.

■ Beta:

Beta of a portfolio is a number indicating the relation between portfolio returns with that of the market index i.e. it measure the volatility, or systematic risk, of a portfolio in comparison to the market as a whole.

■ Standard Deviation:

A statistical measure that defines expected volatility/risk associated with a portfolio. This explains the variation/deviation from the average returns delivered by the portfolio. A higher standard deviation means higher volatility (risk) and a lower standard deviation means lower volatility.

■ Risk Free Return:

The theoretical rate of return of an investment with safest (zero risk) investment in a country.

■ Indexation Benefit:

- | Long Term Capital Gains (holding period of over 3 years) from Debt Mutual Funds are taxed at 20% plus applicable surcharge and cess with the benefit of indexation.
- | Government notifies Cost Inflation Index (CII) for each financial year taking into consideration the prevailing inflation levels.
- | The cost of acquisition for computation of tax is adjusted for inflation using CII, there by reducing the capital gains from tax perspective.
- | An investment made into a debt fund towards the end of a financial year (say, in March 2020) and held for a little over 3 years (say, in April 2023) would be eligible for application of CII over 5 financial years, resulting in 4 indexation benefit.

■ Total Expense Ratio:

Total expenses charged to scheme for the month expressed as a percentage to average monthly net assets.

■ Tracking Error:

Tracking error indicates how closely the portfolio return is tracking the benchmark Index return. It measures the deviation between portfolio return and benchmark index return. A lower tracking error indicates portfolio closely tracking benchmark index and higher tracking error indicates portfolio returns with higher deviation from benchmark index returns.

■ Average Maturity:

Weighted average maturity of the securities in scheme.

■ Portfolio Yield (Yield To Maturity):

Weighted average yield of the securities in scheme portfolio.

■ Portfolio Turnover Ratio:

Portfolio Turnover Ratio is the percentage of a fund's holdings that have changed in a given year. This ratio measures the fund's trading activity, which is computed by taking the lesser of purchases or sales and dividing by average monthly net assets.

■ Modified Duration:

A formula that expresses the measurable change in the value of a security in response to a change in interest rates. Modified duration of portfolio can be used to anticipate the change in market value of portfolio for every change in portfolio yield.

■ Macaulay Duration (Duration):

Macaulay Duration (Duration) measures the price volatility of fixed income securities. It is often used in the comparison of interest rate risk between securities with different coupons and different maturities. It is defined as the weighted average time to cash flows of a bond where the weights are nothing but the present value of the cash flows themselves. It is expressed in years/days. The duration of a fixed income security is always shorter than its term to maturity, except in the case of zero coupon securities where they are the same.

Key Features	Mirae Asset Large Cap Fund	Mirae Asset Emerging Bluechip Fund	Mirae Asset Tax Saver Fund	Mirae Asset Focused Fund
Type of Scheme	Large Cap Fund - An open ended equity scheme predominantly investing across large cap stocks	Large & Mid Cap Fund - An open ended equity scheme investing in both large cap and mid cap stocks	ELSS - An open ended equity linked saving scheme with a statutory lock in of 3 years and tax benefit	Focused Fund - An open ended equity scheme investing in a maximum of 30 stocks intending to focus in large cap, mid cap and small cap category (i.e., Multi-cap)

\$ For computation of since inception returns (%) the allotment NAV has been taken as ₹1000.00 for MACMF, MASF MAOF, & MAMMF and ₹10.00 for all other Schemes. In case, the start/end date of the concerned period is a non-business date (NBD), the NAV of the previous date is considered for computation of returns.

Returns (%) for less than 1 year calculated on simple annualized basis.

The calculations of returns shall assume reinvestment of all payouts at the then prevailing NAV. CAGR - Compounded Annualised Growth returns. NAV (per unit) is at the end of the period.

**Standard benchmark prescribed as per the applicable SEBI circular. For MASF the returns are for Regular Savings Plan - Growth Option. Returns for others scheme are provided for Regular Plan Growth Option. Load is not considered for computation of return.

Mirae Asset Hang Seng TECH ETF, Mirae Asset Hang Seng TECH ETF Fund of Fund Mirae Asset Nifty India Manufacturing ETF, Mirae Asset Nifty India Manufacturing ETF Fund of Fund Mirae Asset Nifty SDL Jun 2027 Index Fund and Mirae Asset Nifty Midcap 150 ETF are in existence for less than 6 Month, as per SEBI regulation performance of the schemes has not been shown.

IDCW is gross IDCW. As per current Income Tax Rules, for financial year 2020-21 IDCW under equity scheme is tax free in the hands of investors, whereas for IDCW under Debt schemes applicable statutory levies, if any, needs to be adjusted by the AMC. The fiscal rules / tax laws are subject to change. For further details, please refer to the section titled "Taxation" in the Statement of Additional Information of Mirae Asset Mutual Fund. In view of the individual nature of tax consequences, each investor is advised to consult his / her professional tax advisor. For complete IDCW history details please refer to our website www.miraeassetmf.co.in

Statutory Details: Sponsor: Mirae Asset Global Investments Company Limited. Trustee: Mirae Asset Trustee Company Private Limited; Investment Manager: Mirae Asset Investment Managers (India) Private Limited.
