Monthly Equity Market Insight

EQUITY UPDATE

- Indian markets did well despite concerns about aggressive rate hikes by the US Fed and US recession. The Nifty Index surged 3.5% in August. It was up by 9% in July.
- · Mid-cap and small-cap indices outperformed large-cap indices, and were up by 5.6% and 5.9% respectively.
- All sectoral indices closed positive, except for IT.

BSE Power, Capital Goods and Consumer Durables indices gained around 15%, 8% and 8% respectively.

 Globally, France, Germany and US (SPX) were down by 5%, 4.8% and 4.2% while Russia, Brazil and Philippines were up by 11.4%, 6.2% and 4.2% respectively.

Global Macros

- In its recently concluded meeting at Jackson Hole, the US Fed commentary was around bringing down inflation to intended levels and has signalled further rate increases to induce a slowdown in US economic activity and demand in order to curb inflation and inflation expectations. It is likely to appear that the US Fed finds US economy activity to be still quite strong and consumer demand and labor market conditions to be well above the levels required to bring down inflation to its intended 2% level.
- The US 10-Year bond hardened 50bps to 3.20%, The yield curve was inverted for 2nd straight month with US 2-Year bond at 3.5%.
- Dated Brent crude spot price declined to US\$96.5/bbl from US\$108/bbl and future prices declined to US\$96.5/bbl from US\$110/bbl.

- Domestic Macros Monetary policy: RBI raised the repo rate by 50 bps to 5.4% to tame inflation. As per RBI "Consumer price inflation (CPI) has eased from its April level of 7.79%, but it remains uncomfortably high".
- Inflation/policy: India's CPI inflation, eased to a 5-month low 6.71% in the month of July down from 7.01% in June. India's WPI inflation eased to 13.93% in July which had spiked to 15.18% during the month of June.
- Currency: INR largely remained stable in the range of Rs. 79-80 against Dollar.
- GST Collection: Rose by 28% to Rs. 1.43 lakh crore in August. GST collection has remained over the Rs 1.4-lakh-crore mark for the sixth straight month in August.

Regulatory, policy and market developments.

- Equity trading trends: FIIs remained buyers for the 2nd consecutive month. They bought US\$5.8 bn (vs \$780mn in July 2022) worth of Indian equities in the secondary market, while DIIs sold US\$889 mn. (till Aug 30).
- Monsoon: Rains have been 6% above normal for the country, but states such as UP, Bihar have reported deficit rainfall of over 40% of the LPA (Long Period Average). The total kharif acreage was 1.3% lower than the same period last year.

1QFY23 earnings review: Broadly in-line barring few misses.

Nifty earnings estimates: Have seen 2-3% cut post the 1QFY23 results. Globally driven stocks accounted for 60% of the cuts. Domestic companies' estimates were more resilient. IT margins, cement saw earnings cuts. Margin outlook has improved across the board. Banks & Consumer companies' estimates were raised.

Key positives

- Banks: Saw strong YoY earnings growth as loan growth rose 4% QoQ to 18%, NII (Net Interest Income) was +15% and fee income +32% on low base. NBFC earnings also remained strong. Credit quality & credit cost trends are at cyclically low levels.
- Cap-good companies: Reported strong P&L and order-flow growth on pickup in private corporate capex.
- Auto OEM: Results were mixed on margins, though commentary was positive with ASPs already at/near record and supply chain & cost pressures reducing.
- Consumer discretionary: Companies saw upgrades, largely topline led, on reopening / pent-up demand dynamics.

Key negatives.

- IT companies: Saw 1-6% earnings downgrade, as margins declined 1-3% QoQ; revenues not an issue though and hiring still strong at 50k+ for top-4 companies.
- Pharma US: Generics price erosion of 10%+ and high base of COVID led to broadly below expectation results. RM and logistics costs pressure seen easing.
- Metal companies: Saw strong margin performance of their outside India business helping overall numbers.
- Cement: Unit EBITDA was down in double digits YoY on high energy cost inflation, mitigating volumes/pricing impact.
- Consumer durables: Result saw strong topline; but input cost variations still driving margin issues.
- Staples volume: Trend weak but not much cuts as margin outlook improved now.

Outlook

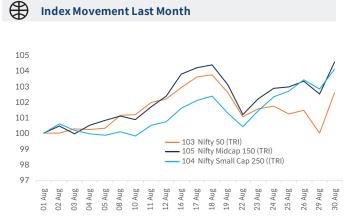

- Indian markets have been resilient in 2022: Indian markets, have fully recovered post the correction witnessed due to Russia-Ukraine war and have outperformed global markets during 2022 as medium-long term domestic outlook remains positive (cyclical recovery in many sectors, China+1). Domestic flows remain strong and now FIIs have turned positive post correction in commodities.
- Urban demand remains robust while rural is under stress: It was evident from 1QFY23 results that the economy is witnessing "K-shaped" recovery in demand. Demand has largely been inelastic in Urban pockets while rural demand has been weak owing to sharp inflation. Expectations are there for a gradual recovery in rural demand post a normal monsoon, full economic recovery led by re-opening and moderation in inflation.
- Commodity correction drives a respite to inflation and consumption outlook: Global slowdown and normalisation of supply chains has led to a sharp correction in commodities (metals, crude, palm oil, cotton, wheat etc) which will improve margins for consumption companies over the next 2-3 quarters. A 4th consecutive normal monsoon can also help cool off food inflation.
- High frequency growth indicators for 2QFY23 indicate that demand o Strong manufacturing and services (Purchasing Managers'
 - Index-manufacturing at 56.2) along with strong GST collections.
 - As per latest RBI data, system credit growth at 15.3% for the 0 fortnight ended 12th August 2022 was the best in the past three vears.
 - Monsoon progress across the country continues to be normal so far, which is positive for rural demand.
- Key things to watch out are: (a) Oil price trend, (b) pace of rate hikes by central banks, (c) pace of economic recovery, (d) Russia-Ukraine war and its impact on global supply chain, (e) COVID lockdowns being lifted in China and (f) monsoons.
- Over the medium term: we continue to remain constructive on equities and believe India is on the cusp of achieving robust growth over the next few years. Higher capex provisioning and benefits from PLI (potentially can add 1.5% to GDP over the next 5 years) should potentially revive overall capital expenditure across the sectors, boost employment as well as credit growth.
- Valuation: The valuations of the broad market have become a lot more reasonable after the recent correction. The Nifty-50 Index valuation of 17.5x FY24 EPS appears reasonable in the context of FY20-24 Nifty EPS CAGR of ~20%.
- Recommendation: We would advise investors not to time the market and invest in equities for the long term within their earmarked asset allocation in a disciplined way (based on one's risk profile). The staggered investments through SIPs (Systematic Investment Plan) or STPs (Systematic Transfer Plan) could be considered for investment in equities.

Source: Bloomberg, as on 31st Aug, 2022, For all the above data

We would suggest you may invest in a disciplined way in equities for long term, within the earmarked asset allocation (based on individual risk profile). In the current market scenario, staggered investments through SIP (Systematic Investment Plan) & STP (Systematic Transfer Plan), may be one of the best ways to invest in equities.

Monthly Debt Market Insight

DEBT UPDATE

Global Macros

• US unemployment rate unexpectedly rose to a six-month high of 3.7%, the first increase since January, suggesting some easing in the tight labor market. Nonfarm payrolls increased 315,000 last month following a revised 526,000 advance in July.

• China's gross domestic product may grow an average 4.5% over this decade, according to a new forecast by Oxford Economics. The working age population is likely to continue shrinking according to the forecast. China's productivity growth has already slowed but may remain high relative to other emerging economies.

• Similar slowdown trends are visible elsewhere. Purchasing managers indexes for Taiwan fell to 42.7 from 44.6 in July -- its lowest since May 2020 -- while South Korea's fell to 47.6 from 49.8 -- its lowest since July 2020 -- according to S&P Global. Japan's reading weakened to 51.5 from 52.1.

Domestic Macros

• India's real gross domestic product (GDP) increased by 13.5% for Q1-FY23. This was marginally lower than the general expectation of 15%.

• Trade deficit in August narrowed to US\$28.7 bn from record highs in July due to a fall in oil imports. August exports at US\$33 bn contracted by 1.1% yoy while also declining sequentially by 9%. Net exports created a drag on growth in Q1-FY23. The exports grew by 14.7% on-year while imports grew by 37.2% during the said quarter.

• The expenditure side pick up led by private consumption, while Gross Fixed Capital Formation(GFCF) improved further. However, government consumption was dismal

• Moody's Investors Service on Tuesday retained India's sovereign credit rating of Baa3 with a stable outlook. Global headwinds including the Russia-Ukraine conflict, higher inflation, and the tightening financial condition are unlikely to derail the country's ongoing recovery from the pandemic in 2022 and 2023, the ratings agency said.

Commentary on Events

• The shock of the Russia-Ukraine war is getting replaced by growing concerns of a global economic slowdown. For domestic financial markets, this has brought a mix of positive news (falling commodity prices) and negative news (strengthening dollar). Reserve Bank of India (RBI) has been steady on rate hikes and withdrawal of excess liquidity and tightening bias continues as inflation remains above the upper tolerance band of 6%.

• The central bank is complementing rate hikes with withdrawal of excess liquidity. Systemic liquidity, while remaining in surplus, has reduced to the lowest level since August 2019. The RBI's increased sales of G-secs under open market operations and variable rate reverse repo operations drove the liquidity reduction. Liquidity also decreased as bank credit grew (14.5% vs 12.1%) at a faster pace than deposits (9.1% vs 8.3%). The RBI's sales of US dollars to prevent excess rupee depreciation is likely to have contributed to reducing rupee liquidity as well.

Source: Kotak Research, Bloomberg and Investing.com as of Sept 03, 2022 for all above data

• Despite that, the domestic economy seems to be on path of growth normalisation. This regardless of the multiple risks it faces from rising tide of global uncertainties. Global growth is already moderating on account of calibrated rate hike programme by much of the global central banks. The already high commodity prices, especially of crude oil, had already acted as a drag on Indian growth. Now with most of the global economies moderating sharply, the exports led demand for key sectors has come down. This has begun to reflect on our growth prospects.

• Though there are some fresh risks on the horizon. While overall monsoon has been normal, the weather pattern over key rice growing areas has been deficient. This is likely to strain food prices and harden RBI's resolve to counter inflation. This all indicates that the RBI will operate in a tight band of managing domestic interest rates in line with global rates and also depress domestic inflationary trends.

• In this backdrop, the domestic bond yields were on easing trend in August month - driven by falling commodity prices, moderating domestic inflation and easing US Treasury yields. Yield on the benchmark 10-year government security (G-sec) fell 12 basis points (bps) on-month to average 7.18% in Aug.

Outlook

Yield curve has flattened already significantly, with 1-10 year spread narrowing from 198 bps on May 3(just before the firs rate hike) to 98 bps at Aug month-end.

Yields at the shorter end may continue to firm up given strong credit pick up seen in recent month and ongoing liquidity normalization. For up to 1-year Investment horizon, ultra-short duration fund seems appropriately positioned.

Longer end may likely remain range bound, comforted by recent correction in global commodity prices; and analyst expectation of inflation having peaked (both globally and domestically). We expect 10-year bond yield to be in 7.10-7.30% range in the near term.

The curve remains pretty flat from 5 year onwards. Resultantly, 5 year maturity may seem attractive from the current view point.. Investor may look at locking-in yields from long term investment prospective in a target maturity fund to sail through the current volatility.

How to read a Mutual Fund Factsheet?

Know how your money is managed

The benefits of investing in mutual funds are well known. However, buying them on face value is not enough. Investors should know how their money is managed. They should research as much as possible on a scheme's strategy, performance, risks involved and how the money is invested. Many investors shy away from this exercise as they consider it cumbersome. To make life easy for investors, mutual funds disclose a fund factsheet which details the quintessential information required before investing.

The factsheet is a concise document with a plethora of information about how the fund is managed; it is disclosed on a monthly basis. This article tries to decode the factsheet and explains how investors should use it for making investment decisions.

Five things to look out for in mutual fund factsheets

Basic information

The factsheet provides all the general information on the fund – its objective or philosophy, options (growth or dividend), plans (direct and regular), net asset value (NAV) of each plan, minimum investment amount, systematic features (SIP, SWP, STP) and assets under management (AUM) data.

It is important to know about the fund's exit load, as it gets deducted from total gains if the investor exits during a specific period after investment. It is a small penalty charged on prevailing NAV to discourage premature redemption. Different schemes have different exit loads, while few such as Overnight funds generally do not have exit load. Some funds have a fixed exit load and some have a tiered structure. For instance, a fund may have nil exit load if the investor withdraws up to 10% of units per year. For units more than 10%, it charges 3% for exit before 12 months, 2% for exit before 24 months, 1% for exit before 36 months and nil after that.

Investors should look out for the fund's product labeling and riskometer. Product labeling underlines product suitability for investors. It tells about ideal investment time frame required to benefit from the fund and where it invests. Riskometer is a presentation that helps investors measure the risk associated with the fund. It presents six levels of risks - low, Low to Moderate, moderate, moderately High, High and Very High. Since an equity fund typically has high risk involved, needle of the scale points towards moderately high /high, suggesting the fund is meant for investors with a high risk-taking appetite. Examples of equity and liquid funds are listed below:

Equity Fund

| Product Labeling | This product is suitable for investors who are seeking: Growth of capital in the long term Investment predominantly in equity and equity-related instruments | Hoderate High |
|------------------|--|--|
| | | Investors understand that their principal will be at Moderately High Risk |

Debt Fund

| | | Riskometer |
|------------------|---|--|
| Product Labeling | This product is suitable for investors who are seeking: Optimal returns in the short term Investment in portfolio of short duration money market and debt instruments | Juine Hoderate High |
| | | Investors understand that their principal will be at Low Risk |

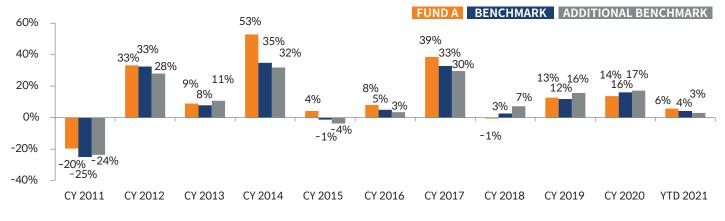

The data used is for illustration purpose only.

Riskometer

Performance aspects

Although the past performance does not guarantee future trend, investors can get a broad idea on how a fund may perform in future. This section looks at the fund's performance (lump sum as well as SIP) across time frames and compares it with the fund's benchmark and a

market benchmark. Many fund houses provide graphical representation of calendar year performance of funds along with standard SEBI prescribed performance tables.

The data used is for illustration purpose only.

Performance Report

| Period | | Returns (CAGR %) | | | Value of ₹10000 invested (in ₹) | | |
|-------------------------------|------------------|----------------------|---------------------------|------------------|---------------------------------|---------------------------|--|

Fund manager details

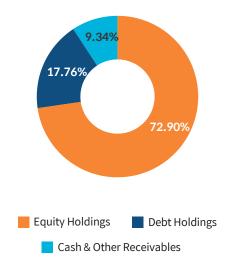

In an investment voyage, mutual fund is the ship and fund manager is the sailor. Success of the voyage depends on the manager's expertise. Hence, it is imperative to know the fund manager well.

Portfolio aspects

Key portfolio attributes to look for in equity/ hybrid funds

🕞 Asset allocation

It highlights the exposure to different asset classes - equity, debt and cash - in a portfolio.

The factsheet provides information on the manager's experience and qualification. You can find out their track record by reviewing the performance of all schemes managed by them.

Company and sector allocation

It informs investors about a fund's concentration level in sectors and stocks. An aggressive fund manager may have high concentration among fewer companies and sectors, which may not be appropriate for investors seeking diversification. Investors should check whether the fund has taken higher-than-prudent exposure to risker sectors or low quality stocks.

| Portfolio Top 10 holdings | % Allocation | Allocation - Top 10 Sectors | | | | | |
|------------------------------------|--------------|-----------------------------|--|--|--|--|--|
| Equity Shares | | Banks 26.51% | | | | | |
| HDFC Bank Ltd | 7.05% | Auto 7.62% | | | | | |

| | | 0% 10% 20% 30% 40% | | | | | |

The data used is for illustration purpose only.

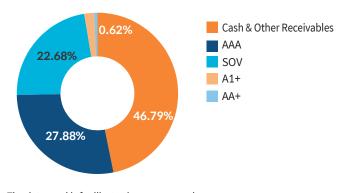

Key portfolio attributes to look for in debt funds

<u>Credit quality profile</u>

A debt fund's holdings are classified according to its credit ratings such as AAA, AA+, A1+ (given by credit rating agencies), etc.

Funds with higher exposure to AAA (top rated long-term debt) and A1+ (top rated short-term debt) have lower credit risk and higher credit quality.

Conservative investors should check whether the fund manager in order to boost performance is taking undue exposure to lower rated debt papers as they typically trade at higher yields but are exposed to high credit and liquidity risk vis-à-vis top rated papers.

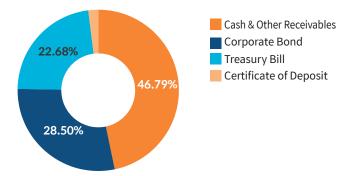

The data used is for illustration purpose only.

It highlights allocation to various debt instruments such as commercial papers (CPs), certificate of deposits (CDs), NCDs and bonds, gilts and cash equivalents.

Investors in shorter maturity debt funds such as liquid, ultra short term, short- term debt funds should check whether higher proportion has been allocated to shorter maturity instruments such as CPs and CDs. As long-term debt instruments such as gilts and bonds are typically more sensitive to interest rate changes compared with CPs and CDs, higher exposure to former instruments by liquid or ultra-short term may result in high risk.

The data used is for illustration purpose only.

2022-23 Tax Reckoner

Snapshot of Tax rates specific to Mutual Funds

The rates are applicable for the financial year 2022-23 as per Finance Act, 2021

Income-tax implications on income in respect of units of Mutual Fund

| Type of Investor | Withholding tax rate |
|------------------|----------------------|
| Resident*** | 10%* |
| NRI | 20%** |

* Tax not deductible if dividend income in respect of units of a mutual fund is below Rs. 5,000 in a financial year.

** The base tax is to be further increased by surcharge at the rate of:

· 37% on base tax where specified income exceeds Rs. 5 crore;

• 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;

• 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and

 \bullet 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore

Specified income - Total income excluding income under the provisions of section 111A and 112A of the Income-tax Act, 1961 ('the Act')

Further, "Health and Education Cess" is to be levied at 4% on aggregate of base tax and surcharge

*** As per section 139AA of the Income tax Act, 1961 ('the Act') read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to PAN – Aadhaar not being linked on or before 30 June 2021, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act.

CAPITAL GAINS TAXATION

| | Individual/ HUF ^{\$1} | Domestic Company ^{®!} | NRI ^{\$} | | | | | | |
|--|---|-------------------------------------|---|--|--|--|--|--|--|
| Equity Oriented Schemes • Long Term Capital Gains (units held for more than 12 months) • Short Term Capital Gains (units held for 12 months or less | | | | | | | | | |
| Long term capital gains | 10%* | 10%* | 10%* | | | | | | |
| Short term capital gains | 15% | 15% | 15% | | | | | | |
| • Long Term Capital Gains (un | Other Than Equity its held for more than 36 months | | its held for 36 months or less | | | | | | |
| Long term capital gains | 20% ^{&} | 20% ^{&} | Listed - 20% [®] Unlisted - 10%** | | | | | | |
| Short term capital gains | 30%^ | 30% / 25%^^ / 22% ^^^ / 15% ^^^^ | 30% [^] | | | | | | |

| Tax Deducted at Source (Applicable to NRI Investors)* | | | | | | | |
|---|--|--|--|--|--|--|--|
| | Short term capital gains ^s Long term ca | | | | | | |
| Equity oriented schemes | 15% | 10%* | | | | | |
| Other than equity oriented schemes | 30%^ | 10%** (for unlisted) & 20% ^{&} (for lis | | | | | |

* Income-tax at the rate of 10% (without indexation benefit and foreign exchange fluctuation) to be levied on long-term capital gains exceeding Rs. 1 lakh provided transfer of such units is subject

to Securities Transaction Tax ('STT').

\$ Surcharge to be levied at:

• 37% on base tax where specified income exceeds Rs. 5 crore;

• 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;

• 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and

• 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

Specified income - Total income excluding income by way of dividend or income under the provisions of section 111A and 112A of the Act.

Further, Health and Education Cess to be levied at the rate of 4% on aggregate of base tax and surcharge.

@ Surcharge at 7% on base tax is applicable where total income of domestic corporate unit holders exceeds Rs 1 crore but does not exceed 10 crores and at 12% where total income exceeds 10 crores. However, surcharge at flat rate of 10 percent to be levied on base tax for the companies opting for lower rate of tax of 22%/15%. Further, "Health and Education Cess" to be levied at the rate of 4% on aggregate of base tax and surcharge.

Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at the time of redemption of units in case of NRI investors. & After providing indexation.

** Without indexation.

^ Assuming the investor falls into highest tax bracket.

^^ If total turnover or gross receipts in the financial year 2019-20 does not exceed Rs. 400 crores.

^^^ This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

^^^^ This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

Further, the domestic companies are subject to minimum alternate tax (except for those who opt for lower rate of tax of 22%/15%) not specified in above tax rates.

Transfer of units upon consolidation of mutual fund schemes of two or more schemes of equity oriented fund or two or more schemes of a fund other than equity oriented fund in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Transfer of units upon consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Relaxation to non-residents from deduction of tax at higher rate in the absence of PAN subject to them providing specified information and documents.

The Finance Act, 2021 introduced section 206AB (applicable from 1 July 2021) stating that tax to be deducted at twice the applicable rate in case of payments to specified person (except non-resident not having permanent establishment in India) who have not filed return of income for past two assessment years for which time limit for filing return has expired and the aggregate of tax deducted at source in his case is Rs. 50,000 or more in each of these two years. Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Bonus Stripping: The loss due to sale of original units in the schemes, where bonus units are issued, will not be available for set off; if original units are: (A) bought within three months prior to the record date fixed for allotment of bonus units; and (B) sold within nine months after the record date fixed for allotment of bonus units. However, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such unsold bonus units.

1. Income Tax Rates

Option A

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

| Total Income | Tax Rates |
|--|-----------|
| Up to Rs. 2,50,000 ^{(a)(b)} | NIL |
| Rs. 2,50,001 to Rs. 5,00,000 ^{(d)(e)} | 5% |
| Rs. 5,00,001 to Rs. 1,000,000 ^(d) | 20% |
| Rs. 10,00,001 and above ^{(c)(d)} | 30% |

- (a) In case of a resident individual of the age of 60 years or above but below 80 years, the basic exemption limit is Rs. 300,000.
- (b) In case of a resident individual of age of 80 years or above, the basic exemption limit is Rs 500,000.
- (c) Rate of surcharge
- 37% on base tax where specified income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore
- \bullet 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore. Specified income – Total income excluding income under the provisions of section 111A and 112A of the Act. Marginal relief for such person is available.
- (d) Health and Education cess @ 4% on aggregate of base tax and surcharge.
- (e) Individuals having total income not exceeding Rs. 500,000 can avail rebate of lower of actual tax liability or Rs. 12,500.

Option B

The Finance Act, 2021 has proposed New Personal Tax Regime: Total Income

| Total Income | Tax Rates |
|--------------------------------|-----------|
| Up to Rs. 2,50,000 | NIL |
| Rs. 2,50,001 to Rs. 5,00,000 | 5% |
| Rs. 5,00,001 to Rs. 7,50,000 | 10% |
| Rs. 7,50,000 to Rs. 10,00,000 | 15% |
| Rs. 10,00,001 to Rs. 12,50,000 | 20% |
| Rs. 12,50,001 to Rs. 15,00,000 | 25% |
| Rs. 15,00,001 and above | 30% |

For adopting Option B, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. The aforesaid regime is optional. Accordingly, Individuals and HUFs have the option to be taxed under either of the options. Option B once exercised can be changed in subsequent years (not applicable for business income).

2. Securities Transaction Tax (STT)

STT is levied on the value of taxable securities transactions as under:

| Transaction | Rates | Payable by |
|---|--------|----------------------|
| Purchase/ Sale of equity shares (delivery based) | 0.1% | Purchaser/ Seller |
| Purchase of units of equity oriented mutual fund | NIL | Purchaser |
| Sale of units of equity oriented mutual fund (delivery based) | 0.001% | Seller |
| Sale of equity shares, units of business trust, units of equity oriented mutual fund (non-delivery based) | 0.025% | Seller |
| Sale of an option in securities | 0.05% | Seller |
| Sale of an option in securities, where option is exercised | 0.125% | Purchaser |
| Sale of an futures in securities | 0.01% | Seller |
| Sale of units of an equity oriented fund to the Mutual Fund | 0.001% | Seller |
| Sale of unlisted equity shares and units of business trust under an initial offer | 0.2% | Seller |

3. Special rates for non-residents as per domestic provisions

(1) The following incomes in the case of non-resident are taxed at special rates on gross basis:

| Transaction | Rates(a) |
|---|----------|
| Dividend | 20% |
| Interest received on loans given in foreign currency to Indian concern or Government of India (not being interest referred to in section 194LB or section 194LC) | 20% |
| Income received in respect of units purchased in foreign currency of specified Mutual Funds / UTI | 20% |
| Royalty or fees for technical services ^(b) | 10% |
| Interest income from a notified infrastructure debt fund, specified loan agreement, specified long term bonds, rupee denominated bonds(c) and business trust | 5% |
| Interest on FCCB, Dividend on GDRs | 10% |

- (a) These rates will be further increased by applicable surcharge and health and education cess.
- (b) In case the non-resident has a Permanent Establishment (PE) in India and the royalty/ fees for technical services paid is effectively connected with such PE, the same is taxable at 40% (plus applicable surcharge and health and education cess) on net basis.
- (c) Interest payable to a non-resident in respect of monies borrowed by any Indian company or business trust from a source outside India by way of issue of rupee denominated bond during the period 17 September 2018 to 31 March 2019 is exempt from tax.
- (2) Tax on non-resident sportsmen or sports association on specified income @20% plus applicable surcharge and health and education cess.

4. Capital Gains rates applicable to unit holders as per domestic provisions

| Transaction | Short term capital gains(a) | Long term capital gains(a)(b) |
|--|--|----------------------------------|
| Sale transactions of equity shares/ unit of an equity oriented fund which attract STT | 15% | 10%* |
| Sale transaction other than mentioned above: | | |
| Individuals (resident and non-residents) | Progressive slab rates | 20% / 10% ^(b) |
| Firms | 30% | |
| Resident companies | 30%/25% ^(d) /22%/15% ^(f) | |
| Overseas financial organizations specified in section115AB | 40% (corporate) 30% (non corporate) | 10% |
| FIIs | 30% | 10% |
| Foreign companies other than ones mentioned above | 40% | 20% / 10% ^(c) |
| Local authority | 30% | 20% / 10% |
| Co-operative society rates | Progressive slab or 20% ^(g) | |

* Income-tax at the rate of 10% to be levied on long-term capital gains exceeding Rs. 1 lakh (without indexation benefit and foreign exchange fluctuation)

- (a) These rates will further increase by applicable surcharge & health and education cess.
- (b) Income-tax rate of 20% with indexation and 10% without indexation.
- (c) Long term capital gains arising to a non-resident from transfer of unlisted securities or shares of a company, not being a company in which the public are substantially interested, subject to 10 per cent tax (without benefit of indexation and foreign currency fluctuation).
- (d) If total turnover or gross receipts in the financial year 2018-19 does not exceed Rs. 400 crores.
- (e) This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.
- (f) This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.
- (g) Co-operative societies have the option to be taxed at progressive slab rates or 20% subject to fulfillment of certain conditions as provided in section 115BAD.

5. Personal Income-tax Scenario

* For purpose of tax calculation under Option A, ad hoc deduction of INR 150,000 has been claimed. The ad hoc deduction is only illustrative in nature. Basis actual deduction, the tax amount will vary.

** For purpose of tax calculation under Option B, no exemption/ deductions have been claimed.

*** NIL tax on account of rebate under section 87A.

If the said taxable income includes capital gains under section 111A and section 112A of the Act, then enhanced surcharge of 37% and 25% would not be applicable and accordingly effective tax rate would be lower.

Disclaimer : The information set out above is included for general information purposes only and does not constitute legal or tax advice. In view of the individual nature of the tax consequences, each investor is advised to consult his/her own tax consultant with respect to specific tax implications arising out of their participation in the Scheme. Income Tax benefits to the mutual fund & to unit holder is in accordance with the prevailing tax laws as certified by the mutual funds tax consultant. Any action taken by you based on the information contained herein is your responsibility alone. Mirae Asset Mutual Fund in an offer or solicitation for the purchase and sales of any schemes of Mirae Asset Mutual Fund.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

Sharpe Ratio:

Sharpe Ratio is a risk to reward ratio, it measures portfolio returns generated in excess to the investment in risk-free asset, for per unit of total risk taken. While, positive Sharpe ratio indicates, portfolio compensating investors with excess returns (over risk-free rate) for the commensurate risk taken; negative Sharpe ratio indicates, investors are better off investing in risk-free assets.

Beta:

Beta of a portfolio is a number indicating the relation between portfolio returns with that of the market index i.e. it measure the volatility, or systematic risk, of a portfolio in comparison to the market as a whole.

Standard Deviation:

A statistical measure that defines expected volatility/risk associated with a portfolio. This explains the variation/deviation from the average returns delivered by the portfolio. A higher standard deviation means higher volatility (risk) and a lower standard deviation means lower volatility.

Risk Free Return:

The theoretical rate of return of an investment with safest (zero risk) investment in a country.

Indexation Benefit:

• I Long Term Capital Gains (holding period of over 3 years) from Debt Mutual Funds are taxed at 20% plus applicable surcharge and cess with the benefit of indexation.

- I Government notifies Cost Inflation Index (CII) for each financial year taking into consideration the prevailing inflation levels.
- | The cost of acquistion for computation of tax is adjusted for inflation using CII, there by reducing the capital gains from tax perspective.

• I An investment made into a debt fund towards the end of a financial year (say, in March 2020) and held for a little over 3 years (say, in April 2023) would be eligible for application of CII over 5 financial years, resulting in 4 indexation benefit.

Total Expense Ratio:

Total expenses charged to scheme for the month expressed as a percentage to average monthly net assets.

Tracking Error:

Tracking error indicates how closely the portfolio return is tracking the benchmark Index return. It measures the deviation between portfolio return and benchmark index return. A lower tracking error indicates portfolio closely tracking benchmark index and higher tracking error indicates portfolio returns with higher deviation from benchmark index returns.

Average Maturity:

Weighted average maturity of the securities in scheme.

Portfolio Yield (Yield To Maturity):

Weighted average yield of the securities in scheme portfolio.

Portfolio Turnover Ratio:

Portfolio Turnover Ratio is the percentage of a fund's holdings that have changed in a given year. This ratio measures the fund's trading activity, which is computed by taking the lesser of purchases or sales and dividing by average monthly net assets.

Modified Duration:

A formula that expresses the measurable change in the value of a security in response to a change in interest rates. Modified duration of portfolio can be used to anticipate the change in market value of portfolio for every change in portfolio yield.

Macaulay Duration (Duration):

Macaulay Duration (Duration) measures the price volatility of fixed income securities. It is often used in the comparison of interest rate risk between securities with different coupons and different maturities. It is defined as the weighted average time to cash flows of a bond where the weights are nothing but the present value of the cash flows themselves. It is expressed in years/days. The duration of a fixed income security is always shorter than its term to maturity, except in the case of zero coupon securities where they are the same.

Past Performance may or may not sustained in future. \$ For computation of since inception returns (%) the allotment NAV has been taken as ₹1000.00 for MACMF, MASF MAOF, & MAMMF and ₹10.00 for all other Schemes. In case, the start / end date of the concerned period is a non-business date (NBD), the NAV of the previous date is considered for computation of returns. Returns (%) for less than 1 year calculated on simple annualized basis. The calculations of returns shall assume reinvestment of all payouts at the then prevailing NAV. CAGR - Compounded Annualised Growth returns. NAV (per unit) as at the end of the period. *Standard benchmark prescribed as per the applicable SEBI circular. For MASF the returns are for Regular Saving Plan - Growth Option. Returns for others scheme are provided for Regular Plan Growth Option. Load is not computation of returns. Mirae Asset Nifty SDL Jun 2027 Index Fund, Mirae Asset Nifty Midcap 150 ETF and Mirae Asset Balanced Advantge Fund are in existence for less than 6 Month, as per SEBI regulation performance of the schemes has not been shown. ^Absolute Return (less than one year) *Pursuant to notice cum addendum dated June 24, 2022, the name of the scheme has been changed with effect from July 01, 2022.
