The scheme may invest in the units of ETF through the exchange on which the ETF is listed, through the asset management company which is managing the ETF, through authorized participant, market marker or any other available counterparty.

The features of underlying ETF in which the Scheme shall invest are as under:

Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

However, during volatile market conditions, the fund manager has the flexibility to churn the portfolio actively to optimize returns keeping in mind the cost associated with it.
