	<ul style="list-style-type: none"> • The Scheme may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board. • The Scheme shall not invest in foreign securities. • The scheme shall not invest in credit default swaps. <p>The Debt Securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed, unrated among others, as permitted by regulation.</p> <p>Subject to SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive consideration only. In the event of deviations, portfolio rebalancing will be carried out within 30 calendar days. Where the portfolio is not rebalanced within 30 calendar days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.</p>
<i>Investment Strategy</i>	<p>The Scheme will primarily invest in securities issued by corporate (both private sector and public sectors) including banks and financial institutions rated AA+ and above across maturities / yield curve. The Scheme shall endeavour to develop a well-diversified portfolio of debt (including securitised debt) and other instruments. It will look for opportunities from credit spreads among the range of available corporate bonds. The aim of the Investment Manager will be to allocate the assets of the Scheme amongst various fixed income instruments (debt / money market) with the objective of optimizing returns. The actual percentage of investment in various fixed income instruments and the general maturity range for the portfolio will be determined from time to time basis the prevailing macro-economic environment (including interest rates and inflation), market conditions, general liquidity, and fund manager views.</p> <p>The Scheme may also invest in the schemes of Mutual Funds. The Scheme may also invest in the hybrid securities viz. units of REITs and InvITs for diversification and subject to necessary stipulations by SEBI from time to time.</p> <p>Though every endeavor will be made to achieve the objective of the Scheme, the AMC / Sponsors / Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.</p> <p>For detailed investment strategy, refer SID.</p>
<i>Risk Profile of the Scheme</i>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document (SID) carefully for details on risk factors before investment.</p> <p>The Scheme is subjected to risk factors associated with risks associated with Debt & Money Market Instruments, Risks Associated with Derivatives, Risks associated with segregated portfolio, Risk Associated with Securitized Debt, Risk Associated with structured obligations and credit enhancement, Risk Factors Associated with Investments in REITs and InvITS, Risk associated with Securities Lending, Risk associated with short selling, Risks Associated with Repo in Corporate Debt, Risks associated with investing in Tri-Party Repo through CCIL (TREPS).</p>

Risk Control measures	<p>Concentration Risk The AMC will mitigate this risk by investing in sufficiently large number of issuers spread across the sectors so as to maintain optimum diversification and keep issuer/sector specific concentration risk relatively low.</p> <p>Liquidity Risk The Schemes will invest in debt instruments and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The Schemes will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.</p> <p>Credit Risk - The fund has a rigorous credit research process. There is a regulatory and internal cap on exposure to each issuer. This ensures a diversified portfolio and reduced credit risk in the portfolio.</p>																												
Plans and Options	<p>The Scheme will have Regular Plan and Direct Plan** with a common portfolio and separate NAVs. Investors should indicate the Plan for which the subscription is made by indicating the choice in the application form.</p> <p>Each of the above Regular and Direct Plan under the scheme will have the following Options/Sub-options: (1) Growth Option and Income Distribution cum capital withdrawal option (IDCW). The Income Distribution cum capital withdrawal option shall have 2 sub options: (a) Payout of Income Distribution cum capital withdrawal option (“Payout of IDCW”) (b) Reinvestment of Income Distribution cum capital withdrawal option (“Reinvestment of IDCW”).</p> <p>Amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.</p> <p>The default option for the unitholders will be Regular Plan - Growth Option if he is routing his investments through a distributor and Direct Plan – Growth option if he is a direct investor.</p> <p>If the unit holders selects IDCW option but does not specify the sub-option then the default sub-option shall be Reinvestment of IDCW.</p> <p>Investors subscribing under Direct Plan of the Scheme will have to indicate “Direct Plan” against the Scheme name in the application form i.e. “Mirae Asset Great Consumer Fund - Direct Plan”. Comparison with similar existing schemes of Mirae Asset Mutual Fund:

The below table shows the differentiation of the Scheme with the existing debt schemes of Mirae Asset Mutual Fund:

Scheme Name	Investment Objective	Asset Allocation Pattern				Investment Strategy	AUM as on September 30, 2021 (as in crores)	No. of folios as on September 30, 2021
Mirae Asset Cash Management Fund	The investment objective of the scheme is to generate consistent returns with a high level of liquidity in a judicious portfolio mix comprising of money market and debt instruments. The Scheme does not guarantee any returns.	Types of Instruments	Indicative allocation (% of total assets)		Risk Profile	The fund will be managed according to the investment objective to generate consistent returns with a high level of liquidity in a judicious portfolio mix comprising of money market and debt instruments. The intention is to offer returns at lower level of risk while maintaining the liquidity profile. The investment team will primarily use a bottom up approach with an importance to top down overlay to assess the quality of the security/instrument (including the financial health of the issuer) as well as the liquidity of the security and the impact of various macroeconomic policy changes such as monetary policy changes etc.	3,825.08	53,388

Mirae Asset Dynamic Bond Fund	The objective of the Scheme is to generate optimal returns through active management of a portfolio of debt and money market instruments. However, there is no assurance that the investment objective of the Scheme will be realized and the Scheme does not assure or guarantee any returns.	Types of Instruments	Indicative allocation (% of total assets)		Risk Profile	The Scheme will invest across debt securities and money market instruments. The investment strategy of this scheme aims to optimize risk adjusted returns through an active management of the portfolio. The Scheme is a medium to long-term investment option that provides the flexibility to respond to continuously changing market scenario by actively managing its portfolio in line with the evolving interest rate scenario. During periods when interest rates are expected to decline, the duration of the portfolio may be increased and during periods when interest rates are expected to harden, duration of the portfolio may be decreased. Similarly, when spreads on corporate bonds are expected to contract, proportion of corporate bonds in portfolio may be increased and vice-versa. The objective of this active management is to thereby improve on returns as compared to a less active portfolio. The interest rate risk/duration risk of the scheme may change substantially depending upon the outlook on interest rates and other factors like steepness of yield curve and bond spreads.	138.88	5,607

The Scheme seeks to generate returns through investments in a range of debt and money market instruments with Macaulay duration of the portfolio between 1 year to 3 years. The fund will be managed according to the investment objective, thereby seeking to generate reasonable returns commensurate with low risk. The Scheme may also invest in securities issued by corporate (both private sector and public sectors) including banks and financial institutions and Money Market Instruments across maturities / yield curve and ratings. The fund may also invest in government securities across maturities / yield curve. The fund may also look for opportunities from credit spreads among the range of available debt & money market instruments. The investment strategy of this scheme aims to optimize risk adjusted returns. The Scheme has a short term duration investment option that provides the flexibility to respond to continuously changing market scenario by managing its portfolio in line with current yield curve.	675.58	16,938

Mirae Asset Savings Fund	The investment objective of the scheme is to seek to generate returns with a portfolio comprising of debt and money market instruments, such that the Macaulay duration of the portfolio is between 6 months - 12 months. The Scheme does not guarantee any returns.	Types of Instruments	Indicative allocation		Risk Profile	This scheme is meant for investors to deploy their funds for a short period of time where the Macaulay duration of the portfolio is between 6-12 months. The fund will be managed according to the investment objective, thereby seek to generate reasonable returns commensurate with low risk. The scheme will invest in money market and other debt securities and shall maintain high liquidity for the purpose of meeting the liquidity requirements of the investors. The credit quality of the portfolio will be maintained and monitored using in-house research capabilities as well as inputs from external sources such as independent credit rating agencies. The investment team will primarily use a top down approach for taking interest rate view, sector allocation along with a bottom up approach for security/instrument selection. The bottom up approach will assess the quality of security/instrument (including the financial health of the issuer) as well as the liquidity of the security.	989.85	32,038
