

Learn Cyber Security the Best Way!

Attention Required

Follow this basic protocol for Domain spoofing

- ✓ Do take a close look at the URL. See if there are any unusual characters that don't belong
- ✓ Do use password manager, software based to autofill login credentials don't work on spoofed websites
- ✓ Do bookmark important websites. So you don't end up clicking on wrong links.
- ✗ Don't click on links from unknown or suspicious sources.
- ✗ Don't visit sites if the padlock is missing from the website address bar
