EQUITY UPDATE

- The Nifty Index gained 5.4% in October and was up by 2% during 2022, despite domestic and global headwinds.
- Mid-cap and small-cap indices underperformed large-cap indices and were up by 2.5% and 2.6% respectively. Almost all sectoral indices closed higher than the previous month.
- Globally, US Dow Jones (+14%), Germany (+9%) and France (+9%) were the top gainers, while Hong Kong (-15%), Shanghai (-4%) and Taiwan (-3.5%) were the top losers.

Global Macros

- Central banks across the globe continued to hike interest rates. Central banks remain concerned about second-order effects if high inflation is allowed to linger on for a long time.
- Markets expect Fed to hike rates by 75bps for the 4th consecutive time during its next monetary policy meet and thereafter start to moderate the pace of rate hikes.
- The US 10-year bond yield expanded 22bps during the month to end at 4.05%.
- Dated Brent crude spot price increased to US\$93.3/bbl from US\$86.2/bbl and future prices increased to US\$94.8/bbl from US\$88/bbl.

Domestic Macros

- Growth:** The IMF sharply lowered India's economic growth forecast to 6.8% in its latest World Economic Outlook, compared to 7.4% it had estimated earlier in July, citing the impact of external headwinds and weaker than expected 2Q growth.
- Inflation/policy:** India's CPI inflation accelerated to a 5-month high of 7.30% in September due to surging food prices, staying well above the RBI's upper tolerance band for ninth month. India's WPI inflation fell to an 18-month low in September to 10.7%.
- Currency:** The INR, in October, breached historic lows of 83, albeit briefly, amid a surge in US Dollar strength following a hawkish FOMC (Federal Open Market Committee) and hawkish comments by FOMC members, a strong labour market report, and an upside surprise in September inflation. Overall, the INR has depreciated by 0.72% in October.
- GST Collection:** GST revenue collected in the month of October 2022 was at ₹1,51,718 crore, the second highest monthly collection ever, next only to collection in April 2022. 3-year CAGR growth in GST collections stood at an impressive rate of 14%. The strong growth in GST collections was helped by high WPI inflation and formalization which may have masked modest volume growth.

Regulatory, policy and market developments

- Equity trading trends:** FPIs sold US\$927 million (till October 28) worth of Indian equities in the secondary market, while DIIs bought US\$1.1 billion (till October 31).
- Monsoon:** Rainfall this monsoon season in India was about 7% more than normal but an uneven distribution of rains meaning several regions received deficient rainfall while others have seen normal-to-surplus overall showers during the season.

2QFY23 Interim Earnings Update: In-line Quarter

- The 2QFY23 corporate earnings so far have been in-line led by Banks, Autos and IT. The aggregate performance was adversely impacted by a sharp drag from global commodities.
- Profits of the 32 Nifty companies declared results so far dipped 1.8% YoY, led by three global commodity companies. Excluding these, profits would have grown by 24.8% YoY. Excluding BFSI, Nifty profits would have decreased by 14.4% YoY.
- 1) Technology: Better than expected quarter for IT companies despite the challenging macro environment and continued supply headwinds.
- 2) Banks: Growth momentum has remained strong over 2QFY23 propelled by a pick-up in the corporate segment (primarily working capital loans), while growth in retail, business banking, and the SME segments continued to remain healthy.

- 3) Automobiles: The initial flush of results was encouraging from an OEM (Original Equipment Manufacturer) perspective. OEMs' performance was largely in line/above estimates, driven by strong volume growth, favourable commodity and currency.
- 4) Consumer: Urban and discretionary demand is holding up well but rural demand remains weak with no clear recovery in sight over the next few months. Margins were under pressure owing to high cost inventory, as per management commentaries margin will normalise in 2HFY23.

Outlook

- Indian markets have been resilient in 2022:** Indian markets, have fully recovered post the correction witnessed due to Russia-Ukraine war and have outperformed global markets during 2022. Domestic flows have remained strong.
- Cyclical rebound is helping India:** Equity markets have faced 4 consecutive shocks in the last 2 years in the form of 1) COVID, 2) High inflation (disruption in global supply chains), 3) Geopolitics (Russia-Ukraine war) and 4) Sharp rise in interest rates. Indian economy has been able to withstand these shocks relatively better vs. other economies. This is led by a) Cyclical upturn in many sectors (Real estate, Auto, Banking, Telecom etc), b) Manufacturing tailwinds led by China+1 & PLI (Production-Linked Incentive), c) Capex recovery (India Inc. Balance Sheets have strengthened) and d) Consolidation (formalization).
- Urban demand remains robust while rural is under stress:** It was evident from 1QFY23 results that the economy is witnessing "K-shaped" recovery in demand. Demand has largely been inelastic in urban pockets while rural demand has been weak owing to sharp inflation. Expectations are there for a gradual recovery in rural demand post a normal monsoon, full economic recovery led by re-opening and moderation in inflation.
- High frequency growth indicators for 2QFY23 indicate economic stability:**
 - Strong manufacturing and services (Purchasing Managers' Index-manufacturing at 55) along with strong GST collections.
 - As per latest RBI data, system credit growth at 17.9% for the fortnight ended 7th Oct 2022 was the best in the past decade.
 - Monsoon progress across the country was above normal, which is positive for rural demand recovery.
- Commodity correction drives a respite to inflation and consumption outlook:** Global slowdown and normalisation of supply chains has led to a sharp correction in commodities (metals, crude, palm oil, cotton, wheat etc) which will improve margins for consumption companies over the next 2-3 quarters. A 4th consecutive normal monsoon can also help cool off food inflation.
- Key things to watch out are:** (a) Oil price trend, (b) pace of rate hikes by central banks, (c) pace of economic recovery, (d) Russia-Ukraine war and its impact on global supply chain and (e) COVID lockdowns being lifted in China.
- Over the medium term:** We continue to remain constructive on equities and believe India is on the cusp of achieving robust growth over the next few years. Higher capex provisioning and benefits from PLI (potentially can add 1.5% to GDP over the next 5 years) should potentially revive overall capital expenditure across the sectors, boost employment as well as credit growth.
- Valuation:** The valuations of the broad market have become a lot more reasonable after the recent correction. The Nifty-50 Index trades at ~20x 1-year forward net profits compared to a 12-month peak of 22x and 12-month low of ~17x.
- Recommendation:** We would advise investors not to time the market and invest in equities for the long term within their earmarked asset allocation in a disciplined way (based on one's risk profile). The staggered investments through SIPs (Systematic Investment Plan) or STPs (Systematic Transfer Plan) could be considered for investment in equities.

We would suggest you may invest in a disciplined way in equities for long term, within the earmarked asset allocation (based on individual risk profile). In the current market scenario, staggered investments through SIP (Systematic Investment Plan) & STP (Systematic Transfer Plan), may be one of the best ways to invest in equities.

DEBT UPDATE

Global Macros

- Much of October was spent on deciphering the further move by the US Federal Reserve (US Fed) on their stated objective of controlling inflation. Latter half of October was seen to be in anticipation of the forthcoming US Fed meeting in the first week of November. A further 75bps increase in interest rates is being expected in light of core inflation readings are higher in October. There are expectations that the Fed will pivot towards a 50bps rate hike by end of CY2022 in line with inflation trending downwards.
- The September 2022 US Inflation data was at 8.2% vs. 8.3% in August 2022. Core inflation, which excludes energy and food, rose by 0.6% month on month basis. Tighter financial conditions on the back of a more hawkish US Fed, may continue to weigh heavily on interest rate sensitive areas of the economy such as housing, manufacturing and capital markets. This may further weigh on household consumption and business investment over the coming quarters. A Fitch Ratings report on 23 countries across the globe indicated high inflation rate against the country's central bank inflation target.
- The Bank of Canada announced a 50bps rate hike, Reserve Bank of Australia announced a 25bps rate hike, both hikes being lesser than market expectations. The European Central Bank announced a 75bps rate hike as per expectations. Bank of England announced a bond buyback program to restore financial stability. These measures have been considered as an indication of signs of lower rate hikes going into 2023.
- Local country inflation has been impacted with local currencies depreciation against the US Dollar strengthening during the year. For example, from February 2022 to September 2022, the price of Brent crude oil in U.S. dollars fell nearly 6%. Yet, because of currency depreciations, almost 60% of oil-importing emerging market & developing economies saw an increase in domestic-currency oil prices during this period. Nearly 90% of these economies also saw a larger increase in wheat prices in local currency terms compared to the rise in USD. As a result, commodity-driven inflationary pressures in many countries with depreciating currencies may be more persistent than indicated by recent declines in global commodity prices.
- After surging by an expected 60% in 2022, energy prices are projected to decline by 11% in 2023 and a further 12% in 2024. Key drivers of the outlook include slower global growth, weaker demand for natural gas as households and industry reduce consumption. Prices are expected to remain more than 50% above their five-year average through 2024. Persistently high energy prices will continue to have inflationary implications, further exacerbated in countries that have had sizeable currency depreciations against the USD.

Domestic Macros

- The domestic inflation, Consumer Price Index (CPI) continued its upward move was at 7.43% for the September 2022. It is moving up since last two months from 6.7% in July 2022. CPI inflation has stayed outside the 2-6% band for three consecutive quarters.

Inflation data of 23 countries in percentages. Orange lines indicate the central bank's target inflation rate. And blue lines indicate latest inflation rate in the country.
Source: Fitch Solutions Inflation Report, Bloomberg, Inflation data as of September 2022.

Commodities	Year To Date	Fall from 52-Wk High
Brent oil	14%	-20%
Hot rolled steel	-50%	-61%
Aluminium	-21%	-46%
Baltic dry index	-34%	-57%
PVC	-32%	-43%
Bloomberg commodities index	15%	-19%
Cotton	-14%	-45%
Wheat	12%	-31%

While Energy, Agriculture & Metal prices have come down since the start of 2022 (table above) the local currency depreciation has led to higher energy & food prices in the countries in 2022 (Image below).

Source: Trading Economics, Bloomberg, World Bank Commodities Report, October 2022

- India's manufacturing Purchasing Managers' Index (PMI) rose to 55.3 in October 2022 from 55.1 in September 2022. Factory orders increased at an above-trend pace but were still the weakest since June. Consumer goods were the brightest area of manufacturing in October, with firms signaling a rise in output, overall sales and exports.
- Index of Industrial Production (IIP) shrank by 0.8% in August 2022 vs. a growth of 2.2% in July 2022. Manufacturing output was down 0.7%, due to decline in the production of pharmaceuticals, electrical equipment, textiles, etc.
- Logistics, goods, freight and people movement has shown an upward movement in September 2022. Year on year (YoY) diesel consumption, railway freight traffic, air passenger traffic and two-wheeler sales are up by 13.4%, 10.3%, 50.2% and 13.5% respectively.

Commentary on Events

- The repo rate hikes have led to a systematic withdrawal of liquidity from the banking system. Consequently, the yields have been going up in the money market segment.
- Within the money market segment, one-year NBFC commercial paper yields have moved up the highest at 12% hike in yields between September end (7.08%) and October end (7.91%). Similar hike in yields of 10% was seen in the 3 months NBFC commercial paper yields.
- The long-term debt market yields moved in a very tight band during October 2022. During the month, the average yield of 10 Year G-Sec was 7.44%. Overall, post RBI's Monetary policy meeting in September 2022, the short-term rates have moved up while medium- and long-term yields have been flat.

Debt Outlook

- In this backdrop, the short duration funds continue to be favourable in the current conditions. Within this segment, low duration funds can be a suitable option as it allows the flexibility to capture the higher yields with the less than one-year segment. This category also comes with the flexibility to invest in varied instruments. It can invest in a mix of fresh papers and also look at other options like Government Floating Rate Bonds which have not been issued as much in 2022, thereby being in limited supply, making it a lucrative option with the option of coupon rate reset every six months.
- Longer-end may remain volatile with a range bound manner in anticipation of further rate hikes and liquidity withdrawal. Therefore, it seems 2 to 5 years duration remain a sweet spot due to already elevated yields and adequate liquidity. Investor can look at locking-in yields from long term investment prospective in a target maturity fund to sail through the current volatility.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

How to read a Mutual Fund Factsheet?

Know how your money is managed

The benefits of investing in mutual funds are well known. However, buying them on face value is not enough. Investors should know how their money is managed. They should research as much as possible on a scheme's strategy, performance, risks involved and how the money is invested. Many investors shy away from this exercise as they consider it cumbersome. To make life easy for investors, mutual funds disclose a fund factsheet which details the quintessential information required before investing.

The factsheet is a concise document with a plethora of information about how the fund is managed; it is disclosed on a monthly basis. This article tries to decode the factsheet and explains how investors should use it for making investment decisions.

Five things to look out for in mutual fund factsheets

Basic information

The factsheet provides all the general information on the fund – its objective or philosophy, options (growth or dividend), plans (direct and regular), net asset value (NAV) of each plan, minimum investment amount, systematic features (SIP, SWP, STP) and assets under management (AUM) data.

It is important to know about the fund's exit load, as it gets deducted from total gains if the investor exits during a specific period after investment. It is a small penalty charged on prevailing NAV to discourage premature redemption. Different schemes have different exit loads, while few such as Overnight funds generally do not have exit load. Some funds have a fixed exit load and some have a tiered structure. For instance, a fund may have nil exit load if the investor withdraws up to 10% of units per year. For units more than 10%, it charges 3% for exit before 12 months, 2% for exit before 24 months, 1% for exit before 36 months and nil after that.

Investors should look out for the fund's product labeling and riskometer. Product labeling underlines product suitability for investors. It tells about ideal investment time frame required to benefit from the fund and where it invests. Riskometer is a presentation that helps investors measure the risk associated with the fund. It presents six levels of risks - low, Low to Moderate, moderate, moderately High, High and Very High. Since an equity fund typically has high risk involved, needle of the scale points towards moderately high /high, suggesting the fund is meant for investors with a high risk-taking appetite. Examples of equity and liquid funds are listed below:

Equity Fund

Product Labeling

This product is suitable for investors who are seeking:

- Growth of capital in the long term
- Investment predominantly in equity and equity-related instruments

Debt Fund

Product Labeling

This product is suitable for investors who are seeking:

- Optimal returns in the short term
- Investment in portfolio of short duration money market and debt instruments

The data used is for illustration purpose only.

Performance aspects

Although the past performance does not guarantee future trend, investors can get a broad idea on how a fund may perform in future. This section looks at the fund's performance (lump sum as well as SIP) across time frames and compares it with the fund's benchmark and a

market benchmark. Many fund houses provide graphical representation of calendar year performance of funds along with standard SEBI prescribed performance tables.

The data used is for illustration purpose only.

Performance Report

Add. Benchmark Return (%) (S&P BSE Sensex)	9.95%	9.31%	10.19%	7.02%	16.72%

The data used is for illustration purpose only.

Fund manager details

In an investment voyage, mutual fund is the ship and fund manager is the sailor. Success of the voyage depends on the manager's expertise. Hence, it is imperative to know the fund manager well.

The factsheet provides information on the manager's experience and qualification. You can find out their track record by reviewing the performance of all schemes managed by them.

Portfolio aspects

Key portfolio attributes to look for in equity/ hybrid funds

Asset allocation

It highlights the exposure to different asset classes - equity, debt and cash - in a portfolio.

Company and sector allocation

It informs investors about a fund's concentration level in sectors and stocks. An aggressive fund manager may have high concentration among fewer companies and sectors, which may not be appropriate for investors seeking diversification. Investors should check whether the fund has taken higher-than-prudent exposure to riskier sectors or low quality stocks.

Portfolio Top 10 holdings	% Allocation	Allocation - Top 10 Sectors
Equity Shares		
HDFC Bank Ltd	7.05%	Banks 26.51%
ICICI Bank Ltd	6.34%	Auto 7.62%

Kotak Mahindra Bank Ltd	2.93%	Transportation 2.93%
ITC Ltd	2.91%	Auto Ancillaries 2.75%
Other Equities	53.77%	Other Sectors 19.36%
Equity Holding Total	94.83%	
Cash & Other Receivables	5.17%	
Total	100.00%	

The data used is for illustration purpose only.

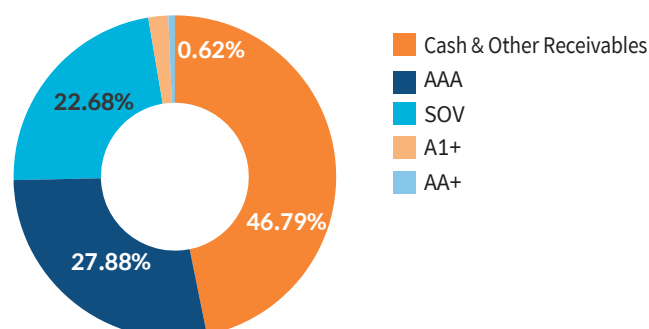

Key portfolio attributes to look for in debt funds

Credit quality profile

A debt fund's holdings are classified according to its credit ratings such as AAA, AA+, A1+ (given by credit rating agencies), etc.

Funds with higher exposure to AAA (top rated long-term debt) and A1+ (top rated short-term debt) have lower credit risk and higher credit quality.

Conservative investors should check whether the fund manager in order to boost performance is taking undue exposure to lower rated debt papers as they typically trade at higher yields but are exposed to high credit and liquidity risk vis-à-vis top rated papers.

The data used is for illustration purpose only.

Instrument break-up

It highlights allocation to various debt instruments such as commercial papers (CPs), certificate of deposits (CDs), NCDs and bonds, gilts and cash equivalents.

Investors in shorter maturity debt funds such as liquid, ultra short term, short-term debt funds should check whether higher proportion has been allocated to shorter maturity instruments such as CPs and CDs. As long-term debt instruments such as gilts and bonds are typically more sensitive to interest rate changes compared with CPs and CDs, higher exposure to former instruments by liquid or ultra-short term may result in high risk.

The data used is for illustration purpose only.

2022-23

Tax Reckoner

Snapshot of Tax rates specific to Mutual Funds

The rates are applicable for the financial year 2022-23 as per Finance Act, 2021

Income-tax implications on income in respect of units of Mutual Fund

Type of Investor	Withholding tax rate
Resident***	10%*
NRI	20%**

* Tax not deductible if dividend income in respect of units of a mutual fund is below Rs. 5,000 in a financial year.

** The base tax is to be further increased by surcharge at the rate of:

- 37% on base tax where specified income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore

Specified income – Total income excluding income under the provisions of section 111A and 112A of the Income-tax Act, 1961 ('the Act')

Further, "Health and Education Cess" is to be levied at 4% on aggregate of base tax and surcharge

*** As per section 139AA of the Income tax Act, 1961 ('the Act') read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to PAN – Aadhaar not being linked on or before 30 June 2021, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act.

CAPITAL GAINS TAXATION

	Individual/ HUF ^{\$1}	Domestic Company ^{@1}	NRI ^{\$}
Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 12 months) • Short Term Capital Gains (units held for 12 months or less)			
Long term capital gains	10%*	10%*	10%*
Short term capital gains	15%	15%	15%
Other Than Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 36 months) • Short Term Capital Gains (units held for 36 months or less)			
Long term capital gains	20% ^{&}	20% ^{&}	Listed - 20% ^{&} Unlisted - 10%**
Short term capital gains	30% [^]	30% / 25% ^{^^} / 22% ^{^^^} / 15% ^{^^^^}	30% [^]

Tax Deducted at Source (Applicable to NRI Investors) [#]		
	Short term capital gains ^{\$}	Long term capital gains ^{\$}
Equity oriented schemes	15%	10%*
Other than equity oriented schemes	30% [^]	10%** (for unlisted) & 20% ^{&} (for listed)

* Income-tax at the rate of 10% (without indexation benefit and foreign exchange fluctuation) to be levied on long-term capital gains exceeding Rs. 1 lakh provided transfer of such units is subject to Securities Transaction Tax ('STT').

\$ Surcharge to be levied at:

- 37% on base tax where specified income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

Specified income – Total income excluding income by way of dividend or income under the provisions of section 111A and 112A of the Act.

Further, Health and Education Cess to be levied at the rate of 4% on aggregate of base tax and surcharge.

@ Surcharge at 7% on base tax is applicable where total income of domestic corporate unit holders exceeds Rs 1 crore but does not exceed 10 crores and at 12% where total income exceeds 10 crores. However, surcharge at flat rate of 10 percent to be levied on base tax for the companies opting for lower rate of tax of 22%/15%. Further, "Health and Education Cess" to be levied at the rate of 4% on aggregate of base tax and surcharge.

Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at the time of redemption of units in case of NRI investors.

& After providing indexation.

** Without indexation.

[^] Assuming the investor falls into highest tax bracket.

^{^^} If total turnover or gross receipts in the financial year 2019-20 does not exceed Rs. 400 crores.

^{^^^} This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

^{^^^^} This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

Further, the domestic companies are subject to minimum alternate tax (except for those who opt for lower rate of tax of 22%/15%) not specified in above tax rates.

Transfer of units upon consolidation of mutual fund schemes of two or more schemes of equity oriented fund or two or more schemes of a fund other than equity oriented fund in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Transfer of units upon consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.

Relaxation to non-residents from deduction of tax at higher rate in the absence of PAN subject to them providing specified information and documents.

The Finance Act, 2021 introduced section 206AB (applicable from 1 July 2021) stating that tax to be deducted at twice the applicable rate in case of payments to specified person (except non-resident not having permanent establishment in India) who have not filed return of income for past two assessment years for which time limit for filing return has expired and the aggregate of tax deducted at source in his case is Rs. 50,000 or more in each of these two years. Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Bonus Stripping: The loss due to sale of original units in the schemes, where bonus units are issued, will not be available for set off; if original units are: (A) bought within three months prior to the record date fixed for allotment of bonus units; and (B) sold within nine months after the record date fixed for allotment of bonus units. However, the amount of loss so incurred shall be deemed to be the cost of purchase or acquisition of such unsold bonus units.

1. Income Tax Rates

Option A

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

Total Income	Tax Rates
Up to Rs. 2,50,000 ^{(a)(b)}	NIL
Rs. 2,50,001 to Rs. 5,00,000 ^{(d)(e)}	5%
Rs. 5,00,001 to Rs. 1,00,00,000 ^(d)	20%
Rs. 10,00,001 and above ^{(c)(d)}	30%

(a) In case of a resident individual of the age of 60 years or above but below 80 years, the basic exemption limit is Rs. 300,000.

(b) In case of a resident individual of age of 80 years or above, the basic exemption limit is Rs 500,000.

(c) Rate of surcharge

• 37% on base tax where specified income exceeds Rs. 5 crore;

• 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore

• 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and

• 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore. Specified income – Total income excluding income under the provisions of section 111A and 112A of the Act. Marginal relief for such person is available.

(d) Health and Education cess @ 4% on aggregate of base tax and surcharge.

(e) Individuals having total income not exceeding Rs. 500,000 can avail rebate of lower of actual tax liability or Rs. 12,500.

Option B

The Finance Act, 2021 has proposed New Personal Tax Regime: Total Income

Total Income	Tax Rates
Up to Rs. 2,50,000	NIL
Rs. 2,50,001 to Rs. 5,00,000	5%
Rs. 5,00,001 to Rs. 7,50,000	10%
Rs. 7,50,000 to Rs. 10,00,000	15%
Rs. 10,00,001 to Rs. 12,50,000	20%
Rs. 12,50,001 to Rs. 15,00,000	25%
Rs. 15,00,001 and above	30%

For adopting Option B, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. The aforesaid regime is optional. Accordingly, Individuals and HUFs have the option to be taxed under either of the options. Option B once exercised can be changed in subsequent years (not applicable for business income).

2. Securities Transaction Tax (STT)

STT is levied on the value of taxable securities transactions as under:

Transaction	Rates	Payable by
Purchase/ Sale of equity shares (delivery based)	0.1%	Purchaser/ Seller
Purchase of units of equity oriented mutual fund	NIL	Purchaser
Sale of units of equity oriented mutual fund (delivery based)	0.001%	Seller
Sale of equity shares, units of business trust, units of equity oriented mutual fund (non-delivery based)	0.025%	Seller
Sale of an option in securities	0.05%	Seller
Sale of an option in securities, where option is exercised	0.125%	Purchaser
Sale of an futures in securities	0.01%	Seller
Sale of units of an equity oriented fund to the Mutual Fund	0.001%	Seller
Sale of unlisted equity shares and units of business trust under an initial offer	0.2%	Seller

3. Special rates for non-residents as per domestic provisions

(1) The following incomes in the case of non-resident are taxed at special rates on gross basis:

Transaction	Rates(a)
Dividend	20%
Interest received on loans given in foreign currency to Indian concern or Government of India (not being interest referred to in section 194LB or section 194LC)	20%
Income received in respect of units purchased in foreign currency of specified Mutual Funds / UTI	20%
Royalty or fees for technical services ^(b)	10%
Interest income from a notified infrastructure debt fund, specified loan agreement, specified long term bonds, rupee denominated bonds(c) and business trust	5%
Interest on FCCB, Dividend on GDRs	10%

(a) These rates will be further increased by applicable surcharge and health and education cess.

(b) In case the non-resident has a Permanent Establishment (PE) in India and the royalty/ fees for technical services paid is effectively connected with such PE, the same is taxable at 40% (plus applicable surcharge and health and education cess) on net basis.

(c) Interest payable to a non-resident in respect of monies borrowed by any Indian company or business trust from a source outside India by way of issue of rupee denominated bond during the period 17 September 2018 to 31 March 2019 is exempt from tax.

(2) Tax on non-resident sportsmen or sports association on specified income @20% plus applicable surcharge and health and education cess.

4. Capital Gains rates applicable to unit holders as per domestic provisions

Transaction	Short term capital gains(a)	Long term capital gains(a)(b)
Sale transactions of equity shares/ unit of an equity oriented fund which attract STT	15%	10%*
Sale transaction other than mentioned above:		
Individuals (resident and non-residents)	Progressive slab rates	20% / 10% ^(b)
Firms	30%	
Resident companies	30%/25% ^(d) /22%/15% ^(f)	
Overseas financial organizations specified in section 115AB	40% (corporate) 30% (non corporate)	10%
FIIIs	30%	10%
Foreign companies other than ones mentioned above	40%	20% / 10% ^(c)
Local authority	30%	20% / 10%
Co-operative society rates	Progressive slab or 20% ^(g)	

- * Income-tax at the rate of 10% to be levied on long-term capital gains exceeding Rs. 1 lakh (without indexation benefit and foreign exchange fluctuation)
- (a) These rates will further increase by applicable surcharge & health and education cess.
- (b) Income-tax rate of 20% with indexation and 10% without indexation.
- (c) Long term capital gains arising to a non-resident from transfer of unlisted securities or shares of a company, not being a company in which the public are substantially interested, subject to 10 per cent tax (without benefit of indexation and foreign currency fluctuation).
- (d) If total turnover or gross receipts in the financial year 2018-19 does not exceed Rs. 400 crores.
- (e) This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.
- (f) This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.
- (g) Co-operative societies have the option to be taxed at progressive slab rates or 20% subject to fulfillment of certain conditions as provided in section 115BAD.

5. Personal Income-tax Scenario

Individual	Total Income								
	475,000	825,000	1,000,000	1,200,000	1,500,000	5,650,000	11,150,000	21,150,000 #	51,150,000 #

Additional Tax burden/ (Savings) (%) in Option B	-	8.33%	(6.25%)	(8.00%)	(12.79%)	(1.88%)	(0.88%)	(0.45%)	(0.18%)

Resident senior citizen (age 80 years and above)	Total Income								
	475,000	825,000	1,000,000	1,200,000	1,500,000	5,650,000	11,150,000	21,150,000 #	51,150,000 #
Tax in FY 2022-23 (Option A)*	NIL***	36,400	72,800	119,600	213,200	1,658,800	3,707,600	7,930,000	21,514,480
Tax in FY 2022-23 (Option B)**	NIL***	50,700	78,000	119,600	195,000	1,638,780	3,686,670	7,907,250	21,489,546
Additional Tax burden/ (Savings) in Option B	-	14,300	5,200	-	(18,200)	(20,020)	(20,930)	(22,750)	(24,934)
Additional Tax burden/ (Savings) (%) in Option B	-	39.29%	7.14%	-	(8.54%)	(1.21%)	(0.56%)	(0.29%)	(0.12%)

* For purpose of tax calculation under Option A, ad hoc deduction of INR 150,000 has been claimed. The ad hoc deduction is only illustrative in nature. Basis actual deduction, the tax amount will vary.

** For purpose of tax calculation under Option B, no exemption/ deductions have been claimed.

*** NIL tax on account of rebate under section 87A.

If the said taxable income includes capital gains under section 111A and section 112A of the Act, then enhanced surcharge of 37% and 25% would not be applicable and accordingly effective tax rate would be lower.

Disclaimer: The information set out above is included for general information purposes only and does not constitute legal or tax advice. In view of the individual nature of the tax consequences, each investor is advised to consult his/her own tax consultant with respect to specific tax implications arising out of their participation in the Scheme. Income Tax benefits to the mutual fund & to unit holder is in accordance with the prevailing tax laws as certified by the mutual funds tax consultant. Any action taken by you based on the information contained herein is your responsibility alone. Mirae Asset Mutual Fund will not be liable in any manner for the consequences of such action taken by you. The information contained herein is not intended as an offer or solicitation for the purchase and sales of any schemes of Mirae Asset Mutual Fund.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

■ Sharpe Ratio:

Sharpe Ratio is a risk to reward ratio, it measures portfolio returns generated in excess to the investment in risk-free asset, for per unit of total risk taken. While, positive Sharpe ratio indicates, portfolio compensating investors with excess returns (over risk-free rate) for the commensurate risk taken; negative Sharpe ratio indicates, investors are better off investing in risk-free assets.

■ Beta:

Beta of a portfolio is a number indicating the relation between portfolio returns with that of the market index i.e. it measure the volatility, or systematic risk, of a portfolio in comparison to the market as a whole.

■ Standard Deviation:

A statistical measure that defines expected volatility/risk associated with a portfolio. This explains the variation/deviation from the average returns delivered by the portfolio. A higher standard deviation means higher volatility (risk) and a lower standard deviation means lower volatility.

■ Risk Free Return:

The theoretical rate of return of an investment with safest (zero risk) investment in a country.

■ Indexation Benefit:

- | Long Term Capital Gains (holding period of over 3 years) from Debt Mutual Funds are taxed at 20% plus applicable surcharge and cess with the benefit of indexation.
- | Government notifies Cost Inflation Index (CII) for each financial year taking into consideration the prevailing inflation levels.
- | The cost of acquisition for computation of tax is adjusted for inflation using CII, thereby reducing the capital gains from tax perspective.
- | An investment made into a debt fund towards the end of a financial year (say, in March 2020) and held for a little over 3 years (say, in April 2023) would be eligible for application of CII over 5 financial years, resulting in 4 indexation benefit.

■ Total Expense Ratio:

Total expenses charged to scheme for the month expressed as a percentage to average monthly net assets.

■ Tracking Error:

Tracking error indicates how closely the portfolio return is tracking the benchmark Index return. It measures the deviation between portfolio return and benchmark index return. A lower tracking error indicates portfolio closely tracking benchmark index and higher tracking error indicates portfolio returns with higher deviation from benchmark index returns.

■ Average Maturity:

Weighted average maturity of the securities in scheme.

■ Portfolio Yield (Yield To Maturity):

Weighted average yield of the securities in scheme portfolio.

■ Portfolio Turnover Ratio:

Portfolio Turnover Ratio is the percentage of a fund's holdings that have changed in a given year. This ratio measures the fund's trading activity, which is computed by taking the lesser of purchases or sales and dividing by average monthly net assets.

■ Modified Duration:

A formula that expresses the measurable change in the value of a security in response to a change in interest rates. Modified duration of portfolio can be used to anticipate the change in market value of portfolio for every change in portfolio yield.

■ Macaulay Duration (Duration):

Macaulay Duration (Duration) measures the price volatility of fixed income securities. It is often used in the comparison of interest rate risk between securities with different coupons and different maturities. It is defined as the weighted average time to cash flows of a bond where the weights are nothing but the present value of the cash flows themselves. It is expressed in years/days. The duration of a fixed income security is always shorter than its term to maturity, except in the case of zero coupon securities where they are the same.

FUND FACTS - EQUITY

Key Features	Mirae Asset Large Cap Fund	Mirae Asset Emerging Bluechip Fund	Mirae Asset Tax Saver Fund	Mirae Asset Focused Fund
Type of Scheme	Large Cap Fund - An open ended equity scheme predominantly investing across large cap stocks	Large & Mid Cap Fund - An open ended equity scheme investing in both large cap and mid cap stocks	ELSS - An open ended equity linked saving scheme with a statutory lock in of 3 years and tax benefit	Focused Fund - An open ended equity scheme investing in a maximum of 30 stocks intending to focus in large cap, mid cap and small cap category (i.e., Multi-cap)

¹The Scheme is in existence for less than 6 months

²Pursuant to Notice cum addendum dated March 27, 2021 the nomenclature of dividend option has been changed w.e.f. April 01, 2021

Note : With reference to SEBI Circular no. SEBI/HO/IMD/IMD-11 DOF-3/CIR/2021/573 dated June 07, 2021 disclosure of Potential Risk Class (PRC) Matrix is provided for debt Schemes of Mirae Asset Mutual Fund.

FUND FACTS - HYBRID

Key Features	Mirae Asset Hybrid Equity Fund	Mirae Asset Balanced AdvantageFund ⁵	Mirae Asset Equity Savings Fund	Mirae Asset Arbitrage Fund
Type of Scheme	Aggressive Hybrid Fund - An open ended hybrid scheme investing predominantly in equity and equity related instruments	Balanced Advantage Fund - An open-ended Dynamic Asset Allocation Fund	Equity Savings Fund - An open ended scheme investing in equity, arbitrage and debt	Arbitrage Fund - An open ended scheme investing in arbitrage opportunities
Investment Objective	The investment objective of the Scheme is to generate capital appreciation along with current income from a combined portfolio of predominantly investing in equity & equity related instruments and balance in debt and money market instruments. The Scheme does not guarantee or assure any returns.	The investment objective of the scheme is to capitalize on the potential upside of equities while attempting to limit the downside by dynamically managing the portfolio through investment in equity & equity related instruments and active use of debt, money market instruments and derivatives. However, there is no assurance or guarantee that the investment objective of the scheme will be realized.	The investment objective of the scheme is to provide capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. The Scheme does not assure or guarantee any returns.	The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivative segments of the equity markets and the arbitrage opportunities available within the derivative segment and by investing the balance in debt and money market instruments. There is no assurance or guarantee that the investment objective of the scheme will be realized

Past Performance may or may not be sustained in future.

\$ For computation of since inception returns (%) the allotment NAV has been taken as ₹1000.00 for MACMF, MASF MAOF, & MAMMF and ₹10.00 for all other Schemes. In case, the start / end date of the concerned period is a non-business date (NBD), the NAV of the previous date is considered for computation of returns.
Returns (%) for less than 1 year calculated on simple annualized basis. The calculations of returns shall assume reinvestment of all payouts at the then prevailing NAV. CAGR - Compounded Annualised Growth returns, NAV (per unit) is at the end of the period.
** Standard benchmark prescribed as per the applicable SEBI circular. For MASF the returns are for Regular Savings Plan - Growth Option. Returns for others scheme are provided for Regular Plan Growth Option. Load is not considered for computation of return.
Mirae Asset Balanced Advantage Fund, Mirae Asset Global Electric & Autonomous Vehicles ETFs Fund of Fund, Mirae Asset Global X Artificial Intelligence & Technology ETF Fund of Fund, Mirae Asset CRISIL IBX Gilt Index - April 2033 Index Fund and Mirae Asset Nifty AAA PSU Bond Plus SDL Apr 2026 50:50 Index Fund are in existence for less than 6 Month, as per SEBI regulation performance of the schemes has not been shown.
* Absolute Return (less than one year)
* Pursuant to notice cum addendum dated June 24, 2022, the name of the scheme has been changed with effect from July 01, 2022.
