EQUITY UPDATE

- Nifty-50 (0.3%) was marginally up as global markets rallied on the last day of the month. Indian market underperformed the Emerging Markets by 2.2% during March 2023. For FY23, Nifty remained almost flat. Failing of few US banks and merger of Credit Suisse with Union Bank of Switzerland and scare of spreading contagion risk on banks grabbed the limelight.
- Mid-cap and small-cap indices underperformed large-cap indices.
- Sector-wise, power (+9%), oil & gas (+3%), and FMCG (+2%) gained the most, whereas auto (-3%), IT (-3%), and real estate (-2%) underperformed.
- Globally, Russia (+5%), US S&P 500 (+3.5%) and Hong Kong (+3%) were the best performing markets. While UK (-3%), Brazil (-3%) and Malaysia (-2%) lost the most. Uncertainties fueled by the turmoil in European and US banks, persisting inflation and continuing geopolitical tensions kept the stock markets on the edge.

Global Macros

- US Banking Crisis resulted in FED tightening to reverse:** The collapse of Silicon Valley Bank alongside a few small regional banks in the US was the key event for March. The event prompted the US Fed to expand its balance sheet by US\$300 billion and offer emergency liquidity facilities to the banking system. This was a reversal to the tightening happening in the US and caused the rate expectations to reverse, eventually sparking a market rally. In Europe, the ripples were felt when Credit Suisse was merged with UBS by the Swiss government, providing a US\$100 billion backstop to UBS for the deal. The European Central Bank though still went ahead with a 50bps (basis points) tightening.
- Policy Rate:** The US Federal Open Market Committee hiked the target range for the federal funds rate by 25bps to a target range of 4.75-5%, which was as per market expectations.
- Bond yield:** The US 10-year bond yield contracted by 45bps during the month to end at 3.47%.
- Crude:** Dated Brent crude spot price declined to US\$79.8/bbl from US\$83.9/bbl and future prices declined to US\$79.8/bbl from US\$84.3/bbl.

Domestic Macros

- Growth:** India's manufacturing sector improved in March 2023 after two consecutive months of moderation. The seasonally adjusted S&P Global India Manufacturing Purchasing Managers' Index (PMI) increased to 56.4 in March 2023 from 55.3 in February 2023, and 55.4 in January 2023. The headline figure was above its long-run average of 53.7.
- Credit Growth:** As per latest RBI data, system credit growth stood at 15.7% YoY for the fortnight ended March 10, 2023. So far, credit growth has been driven by continued and sustained retail credit demand, strong growth in NBFCs, and inflation-induced working capital requirement.
- Inflation/policy:** February 2023 Consumer Price Index inflation moderated to 6.44% from 6.52% in January 2023 led mainly by a sequential fall in food prices. February 2023 Wholesale Price Index inflation moderated further to 3.9% from 4.7% in January 2023 led by moderation in manufactured products' inflation, primary products' inflation and fuel and power inflation.
- Currency:** USD-INR got some respite from a weaker Dollar. The INR has appreciated by 0.6% to Rs. 82.18/US\$ (as on March 31, 2023).
- GST Collection:** GST revenue collection in the month of March 2023 stood at Rs 1.60 lakh crore, up by around 12.7% on an annual basis. With this, the monthly GST revenues remained over Rs 1.4 lakh crore for 13 straight months in a row.

How big is the El Nino risk?

- While climate and more so predictions of the same can be very unpredictable, the recent talk of the El Nino, may or may not have an impact, as an investor, can still look at historical precedence.
- We believe it is too early to panic as La Nina conditions are only a warning and the probability of an El Nino event in 2023 is 50%. Data over the past 20-odd years indicates that the Australian Bureau of Meteorology has called out an El Nino event in four years (2002, 2006, 2009 and 2015).

- In three out of these four instances of El Nino (barring 2006), India experienced below normal monsoon rains. Nevertheless, neutral conditions have not usually resulted in an extremely bad monsoon for India. An El Nino event and a poor monsoon usually leads to a decline in Agricultural GDP in India, but the impact on food inflation is more tenuous and may depend on underlying demand.

- In addition, in the event of an El Nino and a poor monsoon in India, comfortable reservoir levels (mostly above their 10-year average) provide some cushion. However, eastern states like Bihar and West Bengal may face stress on the back of a poor monsoon in 2022.

Regulatory, policy and market developments

- Equity trading trends:** FPIs sold US\$2.9 billion (until March 29, 2023) of Indian equities in the secondary market, whereas DIIs bought US\$10 billion (until March 31, 2023).
- Debt Mutual Fund Taxation Change:** The government has changed taxation of debt MFs under which no benefit of indexation for calculation of Long-Term Capital Gains on debt MFs (where equity investment is less than 35%) will be available for investments made on or after April 1, 2023.

Outlook

- Battle against inflation continues:** Global inflation has moderated in recent months helped by lower food and fuel prices. Although they are way above the target zones of most central banks and core inflation, it continues to be sticky. Large interest rate hikes taken by central banks over the past 12 months have helped reduce the large negative real rates prevailing in most economies. However, it has come at the cost of a liquidity crisis in the regional banks in US. As a result, FED's priority will now be to ensure a stable financial system and prevent liquidity-induced insolvency of more banks (which means moderation in rate hikes which is positive for equity markets).
- Consumption taking a breather:** Mass consumption (Urban poor & Rural) continues to remain weak post COVID owing to double whammy impact of income hit (daily wage earners) during COVID followed by sharp inflation. Broad based cyclical recovery in the economy along with moderation in pace of inflation could be the key driver of a recovery in consumption. El Nino risk has risen which may have an impact on upcoming monsoon (however reservoir levels are healthy) and hence could delay rural recovery.
- Cyclical rebound helping India:** Equity markets have faced 4 consecutive shocks in the last 2 years in the form of 1) COVID, 2) High inflation (disruption in global supply chains), 3) Geopolitics (Russia-Ukraine war) and 4) Sharp rise in interest rates. Indian economy has been able to withstand these shocks relatively better vs other economies. This is led by a) Cyclical upturn in many sectors (Real estate, Auto, Banking, Telecom etc), b) Manufacturing tailwinds led by China+1 & PLI, c) Capex recovery (India Inc. Balance Sheets have strengthened) and d) Consolidation (formalization).
- Key things to watch out are:** (a) Oil price trend, (b) pace of rate hikes by central banks, (c) pace of economic recovery, (d) Russia-Ukraine war and its impact on global supply chain, (e) COVID lockdowns being lifted in China and (f) Risk of El Nino on monsoons.
- Over the medium term:** We continue to remain constructive on equities and believe India is on the cusp of achieving robust growth over the next few years. Higher capex provisioning and benefits from PLI (potentially can add 1.5% to GDP over the next 5 years) could potentially revive overall capital expenditure across the sectors, boost employment as well as credit growth.
- Valuation and view:** India's medium to long term growth prospects remain strong. The recent correction in market has made valuations more palatable at 17x 1-year forward earnings (declined 25% from October 2021 peak). 56 of the Nifty-100 stocks now trade below the 10-year historical average. Recent improvement in Current Account Deficit and correction in commodities driving Wholesale Price Index softening augur well for macros. At a sectoral level several financials, select autos, and pharma trade at a discount to historical average valuations.

Source: Bloomberg, as on 31st March 2023. For all the above data

Investors may invest based on their risk profile. Post the recent market correction, we have increased our equity allocation in hybrid strategies by 3-5%, with BAF allocation now at 57.5%. Hence, investors looking to add fresh investments may benefit from correction in the markets by investing in Hybrid funds and/or Thematic funds or allocate via SIPs (Systematic Investment Plan).

DEBT UPDATE

Executive Summary

- Global Financial markets battled with volatility in Mar-23 owing to failure of Silicon Valley Bank (SVB) in the United States.
- Inflation has been stubbornly sticky and slow to moderate. In addition to this job market continues to show resilience.
- Against this backdrop, all three Key central banks-Bank of England (BoE), European Central Bank (ECB) and US Fed hiked rates in their Mar-23 policy signaling that central banks continue to make inflation targeting a priority.

Failure of SVB after a run on its deposits was triggered by tech industry slowdown and rate hikes by US Fed to combat inflation. While central banks globally confront the growth-inflation trade off, the US Fed hinted towards a near end in their tightening cycle. But the rate cuts remain a story of 2024 signaling that the central banks have yet not lost the sight on inflation.

Amid this India's growth continues to be resilient despite some signs of moderation in growth. The global headwinds pose a challenge to consumption and slower income growth.

Global Macros

Bank failures marks the latest vulnerability to surface from the policy tightening cycle. The US Fed's unequivocally supporting commercial bank liquidity and the Swiss National Bank's support for Credit Suisse exceeded market expectations. However, once the immediacy of the crisis passed and policy makers overcame the near-term threat of financial instability, the central banks globally resumed their rate tightening cycle. In order to address the long-term issue of persistently high inflation. Though the inflation remains to be sticky and beyond target range, it is only so much of rate hikes that economies can absorb.

The central bank's trade-off between putting economic activity in jeopardy or living with inflation is now impossible to ignore as economic damage and financial cracks emerge. The US Fed's

Mar-23 projections imply a recession in the months ahead, with growth stalling later in 2023 after a strong start to the year (FY23 Real GDP projection on a declining trend with every US Fed meeting). However, the US Fed still doesn't plan to cut rates because inflation is persistently above its 2% target (Core Private Consumption Expenditure (PCE) projection rising at every meet). Therefore, living with lingering inflation even with recession might be the way forward.

Dampening credit conditions amid elevated inflation may further tighten credit supply this may make cost of borrowing even more expensive particularly for below AAA rated companies. On the government bond side, short term treasury yields plunged in Mar-23 on the back of financial stability uncertainty. The spread in investment grade credit bonds has increased both in US and Eurozone. Markets have been quick to price in rate cuts as a result of the banking sector turmoil and the US Fed signaling at a possibility of pause. However, that's the old playbook when central banks would rush to rescue the economy as recession hit. Now they're causing the recession to fight sticky inflation.

Bond yield movements capture the line of thought of broader markets. The 10Y US treasury (UST) yield touched a high of 4% in mid Mar-23. Then the banking sector issues happened and yield dipped. As on 31st Mar-23, 10Y UST had yield of 3.47%, a 0.45% decrease from 28th Feb-23 levels. The easing of yields of 2Y UST was sharper than 10Y UST. 2Y UST yield stood at 5.08% as on 08th Mar-23, as on 31st Mar-23 it is at 4.03%. This extent of softening of yields indicates a higher probability of a peaking interest rate cycle in the US.

Central Bank ÷	Current Rate ÷	Next Meeting ÷	Last Change

Source: World Bank, monthly averages data as on 04th Apr 2023

Commodity prices are softer than their record high values in Apr-22 but are still at elevated level from their historical standards. Global commodities remained by large flat on a month on month (MoM) basis in Mar-23. The slow start to China's reopening and aggressive monetary tightening in rest of the world should keep commodity prices in check going ahead.

In the US, it's now evident that the financial fault lines are emerging from higher interest rates. In Europe, tighter financial conditions are stinging even as the energy shock eases. Yet central banks are unlikely to implement rapid rate cuts. Instead recessionary environment might aid in bringing inflation levels down.

Domestic Macros

The financial sector turmoil underway in the US and Europe is unlikely to have a bearing on Indian banks. As Indian banks have negligible exposure to the global banking system. However, at a macro level, the greater risks will be from growth impact due to probable global demand slowdown on the back of the global financial sector tightening. However, the fundamentals on the back of softening inflation (6.52% in Jan-23 vs 6.44% YoY in Feb-23), relatively stable growth (Annual GDP growth 6.3% in 2Q FY23 vs 4.4% in 3Q FY23), comfortable external sector balance (CAD USD30.9 Bn in 2QFY23 vs USD18.9 Bn in 3QFY23) and a healthy financial sector position provide much cushion against a global risk-off period.

Much of the stickiness in inflation stems from elevated food inflation (6.19% in Jan-23 vs 6.26% YoY in Feb-23). Further in 2023 Food inflation could see sharp fluctuations amid fears of adverse weather events through heat waves and the El Nino effect.

One of the positives for inflation is the Wholesale Price Index (WPI) inflation trajectory. There is a sharp decline in WPI inflation 4.73% in Jan-23 vs 3.85% YoY in Feb-23.

Commentary on Events

3QFY23 Current Account Deficit (CAD) eased to US\$18.2 bn (2.2% of GDP in 3QFY23 from 3.7% of GDP in 2QFY23). Improvement in CAD is led by improvements in goods trade deficit and net service exports. Goods trade deficit narrowed to US\$73 bn in 3QFY23 from US\$78 bn in 2QFY23. Amid sharper fall in imports compared to exports due to fading of pent-up demand and lower crude oil prices. The services exports continued to trend higher led by software services and management consulting.

Further the Government of India announced 1HFY24 gross borrowings to the tune of ₹14.31 trillion. This makes 58% of the budgeted expectation of total borrowings for FY24. The government will borrow ₹8.88 trillion in 1HFY23, 7.1% higher than 1HFY23 borrowings.

Debt Outlook

In the near term, concerns surrounding weak monsoons, upside of US yields as markets realign to delayed rates cuts in US and China linked revival in global commodity prices might keep fixed income market sentiments cautious. However, in the medium term with increased net supply in 1HFY24 in longer maturity G-secs the fixed income outlook is likely to improve.

On corporate bond side, though spreads are still tight, they are getting better in high quality segments (AAA rated). The valuation of G-sec yields seems to be attractive as the spread between equity and G-sec (10Y G-sec minus BSE500 1Y Fwd earnings yield) is now relatively higher than its 10Y average (218 basis points vs 212 bps).

Past Performance May or May not sustain in future

How to read a Mutual Fund Factsheet?

Know how your money is managed

The benefits of investing in mutual funds are well known. However, buying them on face value is not enough. Investors should know how their money is managed. They should research as much as possible on a scheme's strategy, performance, risks involved and how the money is invested. Many investors shy away from this exercise as they consider it cumbersome. To make life easy for investors, mutual funds disclose a fund factsheet which details the quintessential information required before investing.

The factsheet is a concise document with a plethora of information about how the fund is managed; it is disclosed on a monthly basis. This article tries to decode the factsheet and explains how investors should use it for making investment decisions.

Five things to look out for in mutual fund factsheets

Basic information

The factsheet provides all the general information on the funds its objective or philosophy, options (growth or dividend), plans (direct and regular), net asset value (NAV) of each plan, minimum investment amount, systematic features (SIP, SWP, STP) and assets under management (AUM) data.

It is important to know about the fund's exit load, as it gets deducted from total gains if the investor exits during a specific period after investment. It is a small penalty charged on prevailing NAV to discourage premature redemption. Different schemes have different exit loads, while few such as Overnight funds generally do not have exit load. Some funds have a fixed exit load and some have a tiered structure. For instance, a fund may have nil exit load if the investor withdraws up to 10% of units per year. For units more than 10%, it charges 3% for exit before 12 months, 2% for exit before 24 months, 1% for exit before 36 months and nil after that.

Investors should look out for the fund's product labeling and riskometer. Product labeling underlines product suitability for investors. It tells about ideal investment time frame required to benefit from the fund and where it invests. Riskometer is a presentation that helps investors measure the risk associated with the fund. It presents six levels of risks - low, Low to Moderate, moderate, moderately High, High and Very High. Since an equity fund typically has high risk involved, needle of the scale points towards moderately high /high, suggesting the fund is meant for investors with a high risk-taking appetite. Examples of equity and liquid funds are listed below:

Equity Fund

Product Labeling

This product is suitable for investors who are seeking:

- Growth of capital in the long term
- Investment predominantly in equity and equity-related instruments

Riskometer

Debt Fund

Product Labeling

This product is suitable for investors who are seeking:

- Optimal returns in the short term
- Investment in portfolio of short duration money market and debt instruments

Riskometer

The data used is for illustration purpose only.

Performance aspects

Although the past performance does not guarantee future trend, investors can get a broad idea on how a fund may perform in future. This section looks at the fund's performance (lump sum as well as SIP) across time frames and compares it with the fund's benchmark and a

market benchmark. Many fund houses provide graphical representation of calendar year performance of funds along with standard SEBI prescribed performance tables.

The data used is for illustration purpose only.

Performance Report

Period	Returns (CAGR %)			Value of ₹10000 invested (in ₹)

Add. Benchmark Return (%) (S&P BSE Sensex)	9.95%	9.31%	10.19%	7.02%	16.72%

The data used is for illustration purpose only.

Fund manager details

In an investment voyage, mutual fund is the ship and fund manager is the sailor. Success of the voyage depends on the manager's expertise. Hence, it is imperative to know the fund manager well.

The factsheet provides information on the manager's experience and qualification. You can find out their track record by reviewing the performance of all schemes managed by them.

Portfolio aspects

Key portfolio attributes to look for in equity/ hybrid funds

Asset allocation

It highlights the exposure to different asset classes - equity, debt and cash - in a portfolio.

The data used is for illustration purpose only.

Company and sector allocation

It informs investors about a fund's concentration level in sectors and stocks. An aggressive fund manager may have high concentration among fewer companies and sectors, which may not be appropriate for investors seeking diversification. Investors should check whether the fund has taken higher-than-prudent exposure to riskier sectors or low quality stocks.

Portfolio Top 10 holdings % Allocation

Equity Shares

HDFC Bank Ltd	7.05%
ICICI Bank Ltd	6.34%
Larsen & Toubro Ltd	3.96%

Equity Holding Total	94.83%
Cash & Other Receivables	5.17%
Total	100.00%

Allocation - Top 10 Sectors

Key portfolio attributes to look for in debt funds

Credit quality profile

A debt fund's holdings are classified according to its credit ratings such as AAA, AA+, A1+ (given by credit rating agencies), etc.

Funds with higher exposure to AAA (top rated long-term debt) and A1+ (top rated short-term debt) have lower credit risk and higher credit quality.

Conservative investors should check whether the fund manager in order to boost performance is taking undue exposure to lower rated debt papers as they typically trade at higher yields but are exposed to high credit and liquidity risk vis-à-vis top rated papers.

The data used is for illustration purpose only.

Instrument break-up

It highlights allocation to various debt instruments such as commercial papers (CPs), certificate of deposits (CDs), NCDs and bonds, gilts and cash equivalents.

Investors in shorter maturity debt funds such as liquid, ultra short term, short-term debt funds should check whether higher proportion has been allocated to shorter maturity instruments such as CPs and CDs. As long-term debt instruments such as gilts and bonds are typically more sensitive to interest rate changes compared with CPs and CDs, higher exposure to former instruments by liquid or ultra-short term may result in high risk.

The data used is for illustration purpose only.

2023-24

Tax Reckoner

Snapshot of Tax rates specific to Mutual Funds

The rates are applicable for the financial year 2023-24 as per Finance Act, 2023

Income-tax implications on income in respect of units of Mutual Fund

Type of Investor	Withholding tax rate
Resident~	10%*
NRI	20%** or rate as per applicable tax treaty*** (whichever is lower)

* Tax not deductible if income in respect of units of a mutual fund is below Rs. 5,000 in a financial year.

** The base tax is to be further increased by surcharge at the rate of:

- 37% on base tax where income or aggregate of such income exceeds Rs. 5 crore;
- 25% where specified income exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where income or aggregate of such income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

In case investor is opting for 'New Regime' as mentioned on page 2, the rate of surcharge not to exceed 25%.

Further, "Health and Education Cess" is to be levied at 4% on aggregate of base tax and surcharge.

~ The income distributed by mutual fund to unitholders is unlikely to fall within the definition of dividend under the tax treaty. Given this and the language of the newly inserted provision to section 196A, the treaty benefit in respect of income distributed by mutual fund to unitholders for withholding tax purpose may not be possible.

**** As per section 139AA of the Income tax Act, 1961 ('the Act') read with rule 114AAA of the Income-tax Rules, 1962, in the case of a resident person, whose PAN has become inoperative due to PAN –Aadhaar not being linked on or before 30 June 2023, it shall be deemed that he has not furnished the PAN and tax could be withheld at a higher rate of 20% as per section 206AA of the Act. For linking PAN Aadhaar after 30 June 2022, fees of Rs 1,000 thereafter has been prescribed.

CAPITAL GAINS TAXATION

	Individual/ HUF [§]	Domestic Company [@]	NRI [§]
Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 12 months) • Short Term Capital Gains (units held for 12 months or less)			
Long term capital gains	10%*	10%*	10%*
Short term capital gains	15%	15%	15%
Other Than Equity Oriented Schemes			
• Long Term Capital Gains (units held for more than 36 months) • Short Term Capital Gains (units held for 36 months or less)			
Long term capital gains (Not applicable for specified mutual fund schemes - Note 1)	20% [^]	20% [^]	Listed - 20% [^] Unlisted - 10%***
Short term capital gains (Including specified mutual fund schemes - Note 1)	as per your applicable tax slab	30% / 25% ^{^^} / 22% ^{^^^} / 15% ^{^^^^}	30% [^]

Tax Deducted at Source (Applicable to NRI Investors) [§]		
	Short term capital gains [§]	Long term capital gains [§]
Equity oriented schemes	15%	10%*
Other than equity oriented schemes (except specified mutual fund schemes)	30% [^]	10%*** (for unlisted) & 20% [^] (for listed)
Specified mutual fund schemes - Note 1	30% [^]	Not applicable

Note 1 - Capital gains from transfer of units of "specified mutual fund schemes" acquired on or after 1st April 2023 are treated as short term capital gains taxable at applicable slab rates as provided above irrespective of the period of holding of such mutual fund units. For this purpose, "specified mutual fund" means mutual fund where not more than 35 per cent of its total proceeds is invested in the equity shares of domestic companies.

* Income-tax at the rate of 10% (without indexation benefit and foreign exchange fluctuation) to be levied on long-term capital gains exceeding Rs. 1 lakh provided transfer of such units is subject to Securities Transaction Tax ('STT').

§ Surcharge to be levied at:

- 37% on base tax where specified income** exceeds Rs. 5 crore;
- 25% where specified income** exceeds Rs. 2 crore but does not exceed Rs. 5 crore;
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs. 50 lakhs but does not exceed Rs. 1 crore.

In case total income includes income by way of dividend on shares and short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes, the rate of surcharge on the said type of income not to exceed 15%. In case investor is opting for 'New Regime' as mentioned on page 3, the rate of surcharge not to exceed 25%.

** Specified income – Total income excluding income by way of dividend on shares and short-term capital gains on units of equity oriented mutual fund schemes and long-term capital gains on mutual fund schemes. Further, Health and Education Cess to be levied at the rate of 4% on aggregate of base tax and surcharge.

@ Surcharge at 7% on base tax is applicable where total income of domestic corporate unit holders exceeds Rs 1 crore but does not exceed 10 crores and at 12% where total income exceeds 10 crores. Surcharge at flat rate of 10 percent to be levied on base tax for the companies opting for lower rate of tax of 22%/15%. Further, "Health and Education Cess" to be levied at the rate of 4% on aggregate of base tax and surcharge.

Short term/ long term capital gain tax (along with applicable Surcharge and Health and Education Cess) will be deducted at the time of redemption of units in case of NRI investors. Tax treaty benefit can be claimed for withholding tax on capital gains subject to fulfilment of stipulated conditions.

& After providing indexation.

*** Without indexation.

^ Assuming the investor falls into highest tax bracket.

^^ If total turnover or gross receipts in the financial year 2021-22 does not exceed Rs. 400 crores.

^^^ This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

^^^^ This lower rate is optional for companies engaged in manufacturing business (set-up & registered on or after 1 October 2019) subject to fulfillment of certain conditions as provided in section 115BAB.

- Further, the domestic companies are subject to minimum alternate tax (except for those who opt for lower rate of tax of 22%/15%) not specified in above tax rates.
- Transfer of units upon consolidation of mutual fund schemes of two or more schemes of equity oriented fund or two or more schemes of a fund other than equity oriented fund in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.
- Transfer of units upon consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains.
- Relaxation to non-residents from deduction of tax at higher rate (except income distributed by mutual fund) in the absence of PAN subject to them providing specified information and documents.
- Tax to be deducted at twice the applicable rate in case of payments to specified person (except non-resident not having permanent establishment in India or person who is not required to furnish the return of income as notified by the Central Government) who has not furnished the return of income for the assessment year relevant to previous year immediately preceding the financial year in which tax is required to be deducted:
- For which time limit for filing return has expired; and
- The aggregate of tax deducted at source in his case is Rs. 50,000 or more in the said previous year.
- Additionally, if provisions of section 206AA are also applicable then tax to be deducted at higher of the two rates provided i.e. rate as per section 206AB or section 206AA.

Bonus Stripping: The loss due to sale of original units in the schemes, where bonus units are issued, will not be available for set off; if original units are: (A) bought within three months prior to the record date fixed for allotment of bonus units; and (B) sold within nine months after the record date fixed for allotment of bonus units. However, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such unsold bonus units.

1. Income Tax Rates

Option A (Old Regime)

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

Total Income	Tax Rates
Up to Rs. 2,50,000 ^{(a)(b)}	NIL
Rs. 2,50,001 to Rs. 5,00,000 ^{(a)(e)}	5%
Rs. 5,00,001 to Rs. 1,00,00,000 ^(d)	20%
Rs. 10,00,001 and above ^{(c)(d)}	30%

- (a) In case of a resident individual of the age of 60 years or above but below 80 years, the basic exemption limit is Rs. 300,000.
- (b) In case of a resident individual of age of 80 years or above, the basic exemption limit is Rs 500,000.
- (c) Rate of surcharge
- 37% on base tax where specified income exceeds Rs. 5 crore;
 - 25% where specified income* exceeds Rs. 2 crore but does not exceed Rs. 5 crore
 - 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
 - 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore

In case of AOP, consisting of only companies as its members, the rate of surcharge not to exceed 15%.

*Specified income – Total income excluding income by way of dividend on shares and short term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains.

Marginal relief for such person is available.

- (d) Health and Education cess @ 4% on aggregate of base tax and surcharge.

- (e) Resident Individuals having total income not exceeding Rs. 500,000 can avail rebate of lower of Rs. 12,500 or actual tax liability whichever is lower.

Option B (New Regime)

For Individuals, Hindu Undivided Family, Association of Persons, Body of Individuals and Artificial juridical persons

Total Income	Tax Rates
Up to Rs. 3,00,000	NIL
Rs. 3,00,001 to Rs. 6,00,000	5%
Rs. 6,00,001 to Rs. 9,00,000	10%
Rs. 9,00,001 to Rs. 12,00,000	15%
Rs. 12,00,001 to Rs. 15,00,000	20%
Above Rs.15,00,000	30%

- a) For adopting Option B, most of the deductions/exemptions such as section 80C, 80D, etc. are to be foregone. However, standard deduction of Rs. 50,000 against salary income is proposed to be allowed under Option B. The aforesaid regime is optional. Accordingly, persons as mentioned above have the option to be taxed under either of the options. Option B once exercised can be changed in subsequent years (not applicable for business income).

- (b) Resident individuals having total income not exceeding Rs. 7,00,000 can avail rebate of 25,000 or actual tax liability whichever is lower.

- (c) Rate of surcharge:

- 25% where specified income* exceeds Rs. 2 crore
- 15% where total income exceeds Rs. 1 crore but does not exceed Rs. 2 crore; and
- 10% where total income exceeds Rs 50 lakhs but does not exceed Rs. 1 crore.

In case of AOP, consisting of only companies as its members, the rate of surcharge not to exceed 15%.

*Specified income – Total income excluding income by way of dividend on shares and short term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains.

2. Securities Transaction Tax (STT)

STT is levied on the value of taxable securities transactions as under:

Transaction	Rates	Payable by
Purchase/ Sale of equity shares (delivery based)	0.1%	Purchaser/Seller
Purchase of units of equity oriented mutual fund	NIL	Purchaser
Sale of units of equity oriented mutual fund (delivery based)	0.001%	Seller
Sale of equity shares, units of business trust, units of equity oriented mutual fund (non-delivery based)	0.025%	Seller
Sale of an option in securities	0.0625%	Seller
Sale of an option in securities, where option is exercised	0.125%	Purchaser
Sale of an futures in securities	0.0125%	Seller
Sale or surrender or redemption of a unit of an equity oriented fund to an insurance company, on maturity or partial withdrawal, with respect to unit linked insurance policy issued by such insurance company on or after the first day of February, 2021	0.001%	Seller
Sale of units of an equity oriented fund to the Mutual Fund	0.001%	Seller
Sale of unlisted equity shares and units of business trust under an initial offer	0.2%	Seller

3. Special rates for non-residents as per domestic provisions

- (1) The following incomes in the case of non-resident are taxed at special rates on gross basis:

Transaction	Rates ^(a)
Dividend	20%
Interest received on loans given in foreign currency to Indian concern or Government of India (not being interest referred to in section 194LB or section 194LC)	20%
Income received in respect of units purchased in foreign currency of specified Mutual Funds / UTI	20%
Royalty or fees for technical services ^(b)	10%
Interest income from a notified infrastructure debt fund, specified loan agreement, specified long term bonds, rupee denominated bonds ^(c) and business trust	5%
Interest on FCCB, Dividend on GDRs	10%

- (a) These rates will be further increased by applicable surcharge and health and education cess.

- (b) In case the non-resident has a Permanent Establishment (PE) in India and the royalty / fees for technical services paid is effectively connected with such PE, the same is taxable at 40% (plus applicable surcharge and health and education cess) on net basis.

- (c) Interest payable to a non-resident in respect of monies borrowed by any Indian company or business trust from a source outside India by way of issue of rupee denominated bond during the period 17 September 2018 to 31 March 2019 is exempt from tax.

- (2) Tax on non-resident sportsmen or sports association on specified income @20% plus applicable surcharge and health and education cess.

4. Capital Gains

Transaction	Short term capital gains ^(a)	Long term capital gains ^{(a)(b)}
Sale transactions of equity shares/ unit of an equity oriented fund which attract STT	15%	10%*
Sale transactions of units of specified mutual fund acquired on or after 1st April 2023	Slab rates as mentioned below	NA
Sale transaction other than mentioned above:		
Individuals (resident and non-residents)	Progressive slab rates	20% / 10% ^{(b)(c)}
Firms	30%	
Resident companies	30%/25% ^(d) /22% ^(e) /15% ^(f)	
Overseas financial organizations specified in section 115AB	40% (corporate) 30% (non corporate)	10%
FIIs	30%	10%
Foreign companies other than ones mentioned above	40%	20% / 10% ^(c)
Local authority	30%	20% / 10%
Co-operative society rates	Progressive slab or 22% ^(g) / 15% ^(h)	

- Income-tax at the rate of 10% to be levied on long-term capital gains exceeding Rs. 1 lakh (without indexation benefit and foreign exchange fluctuation)
- (a) These rates will further increase by applicable surcharge & health and education cess.
- (b) Income-tax rate of 20% with indexation and 10% without indexation.
- (c) Long term capital gains arising to a non-resident from transfer of unlisted securities or shares of a company, not being a company in which the public are substantially interested, subject to 10 per cent tax (without benefit of indexation and foreign currency fluctuation).
- (d) If total turnover or gross receipts in the financial year 2021-22 does not exceed Rs. 400 crores.
- (e) This lower rate is optional and subject to fulfillment of certain conditions as provided in section 115BAA.

Additional Tax burden/ (Savings) (%) in Option B	-	39.29%	7.14%	(14.29%)	(26.83%)	(3.79%)	(1.77%)	(0.90%)	(9.09%)

* For the purpose of tax calculation under Option A, ad hoc deduction of INR 150,000 has been claimed. The ad hoc deduction is only illustrative in nature. Basis actual deduction, the tax amount will vary.

** For purpose of tax calculation under Option B, no exemption/ deductions have been claimed and it has been proposed that enhanced surcharge of 37% should not apply.

*** NIL tax on account of rebate under section 87A.

If the said taxable income includes income by way of dividend on shares and short-term capital gains in case of listed equity shares, equity oriented mutual fund units, units of business trust and long-term capital gains, then enhanced surcharge of 37% and 25% would not be applicable and accordingly effective tax rate would be lower.

Disclaimer: The information set out above is included for general information purposes only and does not constitute legal or tax advice. In view of the individual nature of the tax consequences, each investor is advised to consult his/her own tax consultant with respect to specific tax implications arising out of their participation in the Scheme. Income Tax benefits to the mutual fund & to unit holder is in accordance with the prevailing tax laws as certified by the mutual funds tax consultant. Any action taken by you based on the information contained herein is your responsibility alone. Mirae Asset Mutual Fund will not be liable in any manner for the consequences of such action taken by you. The information contained herein is not intended as an offer or solicitation for the purchase and sales of any schemes of Mirae Asset Mutual Fund.

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.

■ Sharpe Ratio:

Sharpe Ratio is a risk to reward ratio, it measures portfolio returns generated in excess to the investment in risk-free asset, for per unit of total risk taken. While, positive Sharpe ratio indicates, portfolio compensating investors with excess returns (over risk-free rate) for the commensurate risk taken; negative Sharpe ratio indicates, investors are better off investing in risk-free assets.

■ Beta:

Beta of a portfolio is a number indicating the relation between portfolio returns with that of the market index i.e. it measure the volatility, or systematic risk, of a portfolio in comparison to the market as a whole.

■ Standard Deviation:

A statistical measure that defines expected volatility/risk associated with a portfolio. This explains the variation/deviation from the average returns delivered by the portfolio. A higher standard deviation means higher volatility (risk) and a lower standard deviation means lower volatility.

■ Risk Free Return:

The theoretical rate of return of an investment with safest (zero risk) investment in a country.

■ Indexation Benefit:

- I Long Term Capital Gains (holding period of over 3 years) from Debt Mutual Funds are taxed at 20% plus applicable surcharge and cess with the benefit of indexation.
- I Government notifies Cost Inflation Index (CII) for each financial year taking into consideration the prevailing inflation levels.
- I The cost of acquisition for computation of tax is adjusted for inflation using CII, thereby reducing the capital gains from tax perspective.
- I An investment made into a debt fund towards the end of a financial year (say, in March 2020) and held for a little over 3 years (say, in April 2023) would be eligible for application of CII over 5 financial years, resulting in 4 indexation benefit.

■ Total Expense Ratio:

Total expenses charged to scheme for the month expressed as a percentage to average monthly net assets.

■ Tracking Error:

Tracking error indicates how closely the portfolio return is tracking the benchmark Index return. It measures the deviation between portfolio return and benchmark index return. A lower tracking error indicates portfolio closely tracking benchmark index and higher tracking error indicates portfolio returns with higher deviation from benchmark index returns.

■ Average Maturity:

Average Maturity of the securities in scheme.

■ Portfolio Yield (Annualized Portfolio YTM*):

Weighted average yield of the securities in scheme portfolio. *In case of semi annual YTM, it will be annualized.

■ Portfolio Turnover Ratio:

Portfolio Turnover Ratio is the percentage of a fund's holdings that have changed in a given year. This ratio measures the fund's trading activity, which is computed by taking the lesser of purchases or sales and dividing by average monthly net assets.

■ Modified Duration:

A formula that expresses the measurable change in the value of a security in response to a change in interest rates. Modified duration of portfolio can be used to anticipate the change in market value of portfolio for every change in portfolio yield.

■ Macaulay Duration (Duration):

Macaulay Duration (Duration) measures the price volatility of fixed income securities. It is often used in the comparison of interest rate risk between securities with different coupons and different maturities. It is defined as the weighted average time to cash flows of a bond where the weights are nothing but the present value of the cash flows themselves. It is expressed in years/days. The duration of a fixed income security is always shorter than its term to maturity, except in the case of zero coupon securities where they are the same.

FUND FACTS - EQUITY

Key Features	Mirae Asset Large Cap Fund	Mirae Asset Emerging Bluechip Fund	Mirae Asset Tax Saver Fund	Mirae Asset Focused Fund
Type of Scheme	Large Cap Fund - An open ended equity scheme predominantly investing across large cap stocks	Large & Mid Cap Fund - An open ended equity scheme investing in both large cap and mid cap stocks	ELSS - An open ended equity linked saving scheme with a statutory lock in of 3 years and tax benefit	Focused Fund - An open ended equity scheme investing in a maximum of 30 stocks intending to focus in large cap, mid cap and small cap category (i.e., Multi-cap)

FUND FACTS - HYBRID

Key Features	Mirae Asset Hybrid Equity Fund	Mirae Asset Balanced Advantage Fund	Mirae Asset Equity Savings Fund	Mirae Asset Arbitrage Fund
Type of Scheme	Aggressive Hybrid Fund - An open ended hybrid scheme investing predominantly in equity and equity related instruments	Balanced Advantage Fund - An open-ended Dynamic Asset Allocation Fund	Equity Savings Fund - An open ended scheme investing in equity, arbitrage and debt	Arbitrage Fund - An open ended scheme investing in arbitrage opportunities
Investment Objective	The investment objective of the Scheme is to generate capital appreciation along with current income from a combined portfolio of predominantly investing in equity & equity related instruments and balance in debt and money market instruments. The Scheme does not guarantee or assure any returns.	The investment objective of the scheme is to capitalize on the potential upside of equities while attempting to limit the downside by dynamically managing the portfolio through investment in equity & equity related instruments and active use of debt, money market instruments and derivatives. However, there is no assurance or guarantee that the investment objective of the scheme will be realized.	The investment objective of the scheme is to provide capital appreciation and income distribution to the investors by using equity and equity related instruments, arbitrage opportunities, and investments in debt and money market instruments. The Scheme does not assure or guarantee any returns.	The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivative segments of the equity markets and the arbitrage opportunities available within the derivative segment and by investing the balance in debt and money market instruments. There is no assurance or guarantee that the investment objective of the scheme will be realized

\$ For computation of since inception returns (%) the allotment NAV has been taken as ₹1000.00 for MACMF, MASF MAOF, & MAMMF and ₹10.00 for all other Schemes. In case, the start / end date of the concerned period is a non-business date (NBD), the NAV of the previous date is considered for computation of returns.

Returns (%) for less than 1 year calculated on simple annualized basis. The calculations of returns shall assume reinvestment of all payouts at the then prevailing NAV. CAGR - Compounded Annualised Growth returns. NAV (per unit) is at the end of the period. **Standard benchmark prescribed as per the applicable SEBI circular. For MASF the returns are for Regular Savings Plan - Growth Option. Returns for others scheme are provided for Regular Plan Growth Option. Load is not considered for computation of return.

Mirae Asset CRISIL IBX Gilt Index - April 2033 Index Fund, Mirae Asset Nifty AAA PSU Bond Plus S&P 500 Index Fund, Mirae Asset Gold ETF Mirae Asset Flexi Cap Fund and Mirae Asset Nifty 100 Low Volatility 30 ETF are in existence for less than 6 Month, as per SEBI regulation performance of the schemes has not been shown.

*Pursuant to notice cum addendum dated June 24, 2022, the name of the scheme has been changed with effect from July 01, 2022.

^Basis last rolling 12 months.

IDCW is gross IDCW. As per current Income Tax Rules, for financial year 2021-22 IDCW under equity scheme is tax free in the hands of investors, whereas for IDCW under Debt schemes applicable statutory levies, if any, needs to be adjusted by the AMC. The fiscal rules / tax laws are subject to change. For further details, please refer to the section titled "Taxation" in the Statement of Additional Information of Mirae Asset Mutual Fund. In view of the individual nature of tax consequences, each investor is advised to consult his / her professional tax advisor. For complete IDCW history details please refer to our website www.miraeassetmf.co.in

Statutory Details: Sponsor: Mirae Asset Global Investments Company Limited. Trustee: Mirae Asset Trustee Company Private Limited; Investment Manager: Mirae Asset Investment Managers (India) Private Limited.
