

Mirae Asset Mutual Fund Launches Mirae Asset Nifty50 Equal Weight ETF

An open-ended scheme replicating/tracking Nifty50 Equal weight Total Return Index

Key Benefits:

- **Better diversification:** Equal weight to all Nifty 50 large cap companies with an aim to reduce concentrated exposure
- **More representative:** Each stock weight is around 2%, making it more representative of broader market trends
- **Systematic Rebalancing:** The Nifty50 Equal Weight Index is reconstituted semi-annually, with each stock's weight reset to 2% at the end of every quarter

Mumbai, April 30, 2025: Mirae Asset Investment Managers (India) Pvt. Ltd. announces the launch of '**Mirae Asset Nifty50 Equal Weight ETF**', an open-ended scheme replicating/tracking Nifty50 Equal weight Total Return Index. The fund aims to provide investors with an opportunity to invest with equal weight across Nifty 50 stocks.

Nifty50 equal weight index gives equal weight to all Nifty 50 large cap companies reducing concentrated exposure to individual stocks and providing better diversification. Each stock weight is around 2%, limiting overexposure to a few large-cap stocks and providing relatively more weightage to tail stocks and thus making index more representative of broader market trends.

Nifty50 Equal Weight Index exhibits cyclical behaviour where it may potentially outperform during broad market rally, on the other side it may underperform during market corrections or during phases when market is driven by select large cap stocks.

The New Fund Offer (NFO) for **Mirae Asset Nifty50 Equal Weight ETF** will open for subscription on April 30, 2025, and close on May 6, 2025. The scheme will re-open for continuous sale and repurchase on **May 12, 2025**. In the scheme, the minimum initial investment during New Fund Offer will be Rs 5,000/- (Rupees Five Thousand) with subsequent investments being multiples of Re 1.

"Mirae Asset Nifty50 Equal Weight ETF seeks to capitalise on opportunities in large cap segment when market is driven by a wider set of companies typically during broad based economic growth, in a disciplined manner by providing equal opportunity to each and every company in the Nifty 50 portfolio," said **Siddharth Srivastava, Head – ETF products and Fund Manager, Mirae Asset Investment Managers (India)**.

Investing in portfolio of Nifty50 Equal Weight index may be suitable for investors who are looking for more diversified exposure in Nifty 50 companies with lower top stock concentration and higher potential contribution from tail stocks. This strategy may work well when there is a broad market performance and when market is not driven by select larger Nifty 50 companies.

The fund will be managed by Ms. Ekta Gala & Mr. Akshay Udeshi.

Source for all data: Bloomberg, ACE, AMFI. Data as on: 31 March 2025. Large Cap Companies are top 100 companies by market capitalization as per AMFI classification.
