

MIRAE ASSET HEALTHCARE FUND (MAHCF)

Sectoral/Thematic Fund - An open ended equity scheme investing in healthcare and allied sectors

Why Healthcare

Geographical Diversification

- Large pharma companies are looking at alternate supply sources to China
- Indian companies have managed to establish strong relationships with innovators delivering both on cost and quality
- Indian players have been at the forefront in terms of capability building for newer therapy areas

Manufacturing prowess with exports opportunities

- · Low cost high scale manufacturing has given Indian companies an edge
- Strong API ecosystem enabling greater supply chain control
- · Improving regulatory compliance
- Drug shortages in US and patent cliffs could be opportunities
- · Incremental investments in new areas of biosimilars and complex generics

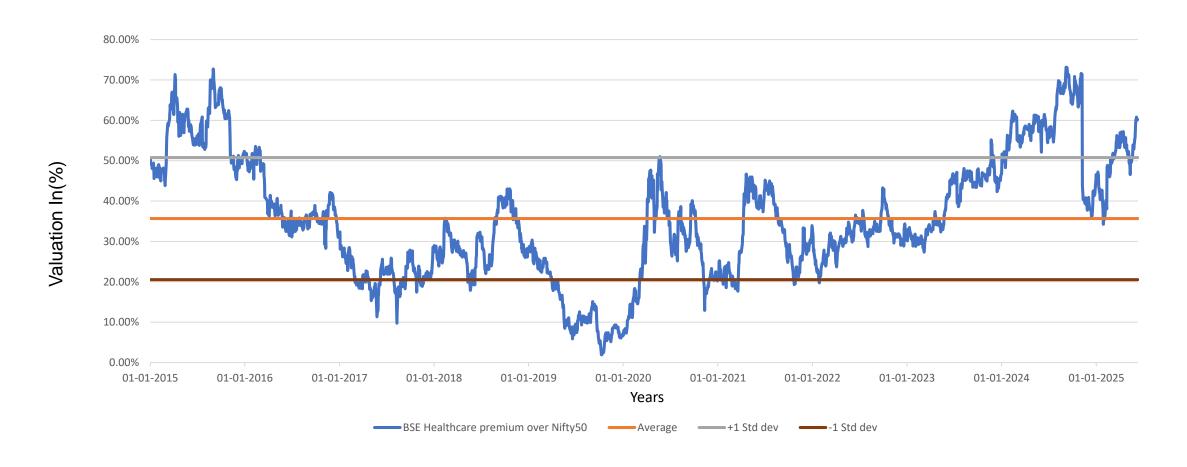

Underpenetrated domestic healthcare services market

- Huge underserved population
- Increasing insurance penetration to drive affordability
- Increasing life expectancy and change in disease patterns

> Consolidation in domestic pharma market benefitting larger companies

- Chronic care demand rising
- market consolidation squeezing smaller players
- Focussing on complex drugs through better prescriber penetration

Valuations

BSE Healthcare valuation premium over Nifty50 is still below peaks seen in 2015

Mirae Asset Healthcare Fund

(Sectoral/Thematic Fund - An open-ended equity scheme investing in healthcare and allied sectors)

Investments in Fund

At least 80% investments in Pharma, Healthcare and allied sectors

Portfolio focused on Quality and Liquidity

Quality Factors				
Parameter	% of NAV			
Exposure to Companies with Average ROE* > 12%	62.44%			
Exposure to Companies with Average ROIC\$ > 10%	52.45%			
Weighted Average Net Debt to Equity Ratio (Ex-Financials)	2.50			

<u>Liquidity Analysis</u>						
Days to Exit % of NAV Number of Stock						
<3 days	8.77	5				
3-10 days	91.07	25				
>10 days	0	0				

ROE (Return on Equity):

ROE reflects a company's profitability. A higher average ROE indicates that the company has strong sustainable competitive advantage in the sector in which it operates.

ROIC (Return on Invested Capital):

Similar to ROE, ROIC is a profitability measure and measures the percentage return that a company earns on it's invested capital. It helps understand how efficiently a company is using it's shareholders' funds to generate profits.

Net Debt to Equity Ratio:

Net Debt to Equity Ratio is calculated by dividing the company's total debt minus cash to it's total shareholder equity. Generally, a company with a high debt to equity ratio is considered riskier.

Mirae Asset Healthcare Fund – Journey of Wealth Creation

Past Performance may or may not be sustained in future. NAV has been rebased to 100. Allotment NAV: ₹10.00. Different Plans under the scheme has different expense structure. The reference and details provided here in are of Regular Plan - Growth Option.

Fund Positioning & Fund Manager views on Healthcare sectors

Sub-Sector	CRDMO	Exports Pharma	Domestic Pharma & MNC	Healthcare Services
Fund Positioning	OW	ow	UW	UW
Views on the sub sector	OW primarily on the back of significant opportunities presented by the supply chain diversification happening globally. Indian CRDMO players have delivered both on cost and quality in the recent years	Patent cliffs and drug shortages in the key market of US provide good growth opportunity. Valuations remain undemanding	OW on Domestic Pharmaceuticals as they provides stable growth momentum, however UW on MNC as they continue to loose market share and relatively higher market share.	Has a long runway for growth given under penetration and formalisation. However, valuations are demanding leading to UW stance
