NBFCs: Housing, Vehicle, Gold, Consumer, Microfinance, Fintech

How Financial Services sector relates to life and economy

How Financial Services sector is related to your life

SIP : Systematic Investment Plans (SIP)

Why participate in the sector ?

Why Banking & Financial Services Now ?

Attractive Valuation

- Valuation still not reflecting the improvement in Return on Equities (RoEs).
- The sector trades at ~1 SD (Standard Deviation) above Long Term Average scope for further re-rating
- Risk-Reward still favourable from a longer term perspective.

Fintech – Innovation is here to stay

- Increased penetration of financial services as a result of better digital adoption through fintech.
- Many fintech companies have emerged over the last few years which may get listed soon, thereby creating a sector of their own.

Its close link to the company

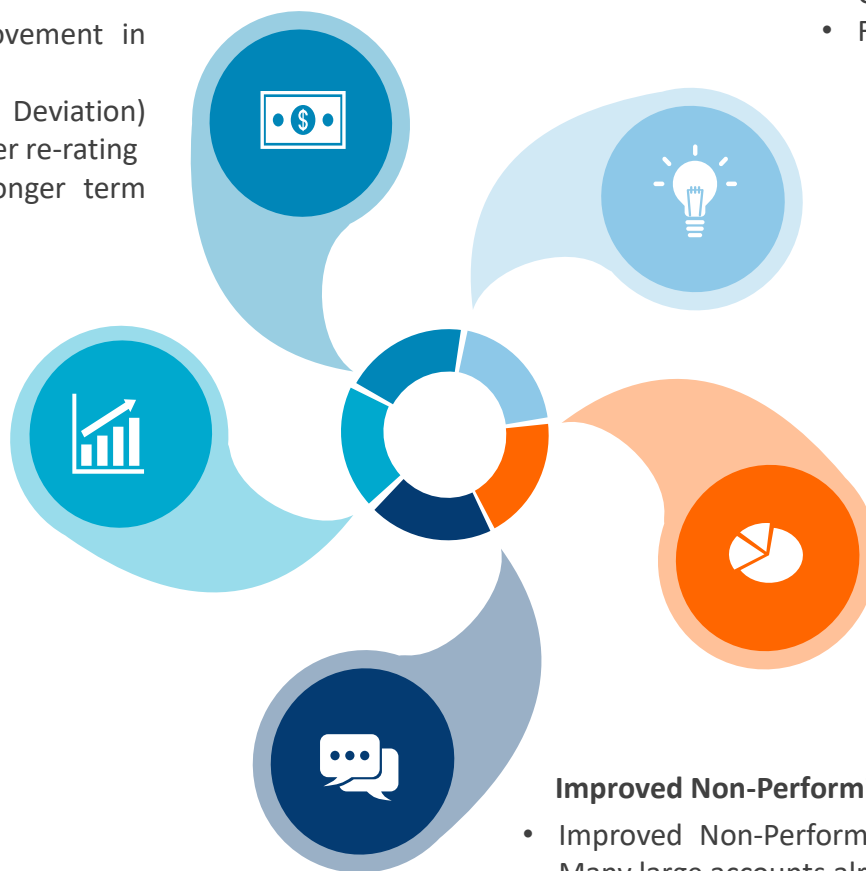

- Contributes to the GDP Growth
- Financialization of savings

Return On Equity improving towards >15%

- Private Banks to see improvement in core profitability with improved digitization.
- Normalization in corporate cycle may drive credit cost lower leading to ~15% RoEs for PSU Banks.

Improved Non-Performing Assets Cycle

- Improved Non-Performing Asset Ratio. Many large accounts already written off.
- Resolutions in National Company Law Tribunal to smoothen incremental provision.

Valuation remains reasonable from a longer term perspective

Current Valuation of Private Bank Index

Current Valuation of PSU Banks Index

Current Valuation of NBFCs

While Private Banks are trading below their long term average valuations, PSU Banks are trading above their long term average valuations and NBFCs are trading very close to mean. From hereon, growth & earnings outlook may drive stock performance.

Valuation driven by improvement in RoA / RoE

ROE trajectory improving towards 15% for banks

ROAs inching closer to 1.4% for the sector

The valuations are also driven by underlying Return on Assets / Return on Equity (RoA/RoE) metrics that are suggesting significant improvement over the next few years vs a few years back for both Private and Public Sector Undertaking (PSU) banks.

Valuation driven by improvement in RoA / RoE

- ❖ In FY 23 & 24 Credit growth has taken a lead which brings the incremental CD ratio at 110%; however, in past ~10 years, CD ratio stands at maximum of 80% till FY 24.
- ❖ There seems to be resilient demand and economic activity coupled with a relatively cheaper loan availability in global terms.
- ❖ The recent liquidity in economy and credit growth spike seems to be converging.
- ❖ The Preference of Alternate Avenues has gained momentum with market rate of returns.

Mirae Asset Nifty Financial Services ETF offering

Nifty Financial Services Index : About Index

Nifty Financial Services Index is designed to reflect the behavior and performance of large companies in financial service sector. It comprises of 20 stocks listed on the National Stock Exchange (NSE).

Eligible Universe

- ❖ Securities are forming part of Nifty500 Index representing Financial Service such as banks, financial institutions, housing finance and other financial services etc.
- ❖ Within the eligible universe, weights of each subsector based on average free float market capitalization is calculated.
- ❖ Companies will be included if average free-float market capitalization is 1.5 times the average free-float market capitalization of the smallest index constituent.

Selection Criteria

- ❖ Selection of 20 companies from each sub-sector is made in such a manner that weightage of selected constituents closely matches with the weightage of the sub-sector as explained earlier.
- ❖ A preference within each sub-sector is given to companies that are available for trading in NSE's F&O Segment.
- ❖ Weightage of each stock in the index is calculated based on its free float market capitalization such that no single stock shall be more than 33% and weightage of top 3 stocks cumulatively shall not be more than 62% at the time of rebalancing.

Index Rebalancing & Weighing

- ❖ Index is reviewed on semi-annual basis. Cut off date is Jan 31 and July 31 of each year.
- ❖ At time of review, average data for six months ending the cut-off date is considered. Four week prior notice is given to market from the date of change.
