Part II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation will be as follows:

Types of Instruments	Indicative allocation (% of total assets)		Risk Profile
Indian Equities and Equity Related Instruments	65%	90%	Medium to High
i. Equities & equity related instruments (unhedged)*	20%	45%	High
ii. Equities, equity related instruments and derivatives including index futures, stock futures, index options & stock options etc. as part of hedged / arbitrage exposure.**	20%	70%	Low to Medium
Money market instruments / debt securities Instruments and/or units of debt/liquid schemes of domestic Mutual Funds	10%	35%	Low to Medium

In defensive circumstances the asset allocation will be as per the below table:

Types of Instruments	Indicative allocation (% of total assets)		Risk Profile
Indian Equities and Equity Related Instruments	15%	65%	Medium to High
i) Equities & equity related instruments (unhedged)*	10%	40%	High
ii) Equities, equity related instruments and derivatives including index futures, stock futures, index options & stock options etc. as part of hedged / arbitrage exposure.**	0%	55%	Low to Medium
Money market instruments / debt securities Instruments and/or units of debt/liquid schemes of domestic Mutual Funds	35%	85%	Low to Medium

*Equity and Equity related instruments include convertible debentures, equity warrants, convertible preference shares, equity derivatives etc. The Indian equities & equity related securities of companies includes those securities listed on stock exchanges in India and includes ADRs & GDRs. The net long equity exposure is aimed to gain from potential capital appreciation and thus is a directional equity exposure which will not be hedged.

**The derivative positions will be hedged against corresponding positions in either equity or derivative markets depending on the strategies involved and execution costs. On the total portfolio level the scheme does not intend to take a net short exposure to equity markets. Unhedged positions in the portfolio (investments in equity shares without corresponding exposure to equity derivative) shall not exceed 45% of the net assets.

However, the aggregate gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme.

The scheme shall not invest into securitized debt.

The Scheme may invest in repo/reverse repo in corporate bonds.

The scheme shall not engage in short selling and credit default swaps. The scheme may engage into securities lending and borrowing. The scheme shall not invest in any unrated debt instruments and derivatives. The scheme will not advance any loans. The scheme does not intend to invest in overseas / foreign securities.

Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.

Debt securities include, but are not limited to, Debt securities of the Government of India, State and Local Governments, Government Agencies, Statutory Bodies, Public Sector Undertakings, Public Sector Banks or Private Sector Banks or any other Banks, Financial Institutions, Development Financial Institutions, and Corporate Entities, collateralized debt securities or any other instruments as may be prevailing and permissible under the Regulations from time to time).

The Debt Securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed, among others, as permitted by regulation.

Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme a mutual fund can invest the funds of the Scheme in short term deposits of scheduled commercial banks in terms of clause 12.16 of SEBI Master Circular dated May 19, 2023.

Further, the Scheme may, pending deployment of funds invest in units of money market/liquid schemes of Mirae Asset Mutual Fund and/or any other mutual fund. Such investments will be within the limits specified under SEBI (MF) Regulations. The AMC shall not charge any investment management fees with respect to such investment.

Securities Lending by the Fund

Subject to the SEBI (MF) Regulations and in accordance with Clause 12.11 of SEBI Master Circular dated May 19, 2023, the Scheme seeks to engage in Stock Lending.

Securities Lending means the lending of securities to SEBI approved intermediaries for a fixed period of time at a negotiated compensation in order to enhance returns of the scheme portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to the following strict internal limits should it engage in Securities Lending. Not more than 20% of the net assets of the scheme can generally be deployed in securities lending and not more than 5% of the scheme can be can be deployed in securities lending to any single counterparty. Collateral would always be obtained by the approved intermediary. Collateral value would always be more than the value of the security lent. Collateral can be in form of cash, bank guarantee, and government securities, as may be agreed upon with the approved intermediary, and would also be subject to a mark to market valuation on a daily basis.

The Mutual Fund may not be able to sell such lent out securities and this can lead to temporary illiquidity.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

Sl. no	Type of Instrument	Percentage of exposure	Circular references*
1.	Securities Lending	<20% of the net assets can generally be deployed in Stock Lending <5% of the net assets can generally be deployed in Stock Lending to any single approved intermediary	Clause 12.11 of SEBI Master Circular dated May 19, 2023

*SEBI circular references (wherever applicable) in support of exposure limits of different types of asset classes in asset allocation shall be provided.

Change in asset allocation:

Subject to SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages can vary substantially depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. As per clause 1.14.1.2 of SEBI Master Circular dated May 19, 2023, such changes in the investment pattern will be for short term and for defensive consideration only. In the event of deviations, portfolio rebalancing will be carried out within 30 calendar days in such cases.

In the event of deviation from mandated asset allocation mentioned above due to passive breaches, the rebalancing will be carried out in 30 business days. Where the portfolio is not rebalanced within 30 business days, justification for the same including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period in accordance with clause 2.9 of SEBI Master Circular dated May 19, 2023. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.

Suspension of Purchase of Units and Right to limit redemption of Units:

Subject to the approval of the Boards of the AMC and of the Trustee, and subject also to necessary communication of the same to SEBI, the determination of the NAV of the Units of the Scheme, and consequently of the Purchase and/or switching of Units, may be temporarily suspended in certain cases.

SEBI vide its clause 1.12 of SEBI Master Circular dated May 19, 2023 has laid down certain requirements to be observed before imposing restriction on redemptions.

B. WHERE WILL THE SCHEME INVEST?

1. Equity and Equity Related Instruments
2. Debt & Money Market Instrument
3. Investment in Derivatives

Detailed definition and applicable regulations/guidelines for each instrument shall be included in Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme will seek to achieve its investment objective primarily by employing various strategies which seek to exploit available arbitrage opportunities in markets along with pure equity investments and investments in debt and money market instruments.

Equity:

The fund has the flexibility to invest across market capitalization in portfolio companies. The fund manager does have the flexibility to follow a focused approach on the investments.

The focus would be to build a portfolio of strong growth companies, reflecting our most attractive investment ideas at all points of time.

The universe of stocks will comprise majorly of companies having robust business models, enjoying sustainable competitive advantages as compared to their competitors and have high return ratios.

The Fund Manager will try to have a large base of stocks in the portfolio to avoid concentration risk and liquidity risk. The Fund Managers will monitor the trading volumes in a particular stock before investment to avoid liquidity risk.

Equity Derivatives:

In pursuance of Investment Objective of the Scheme, the Scheme would use derivatives to generate income through arbitrage opportunities between cash and derivative market and arbitrage opportunities within the derivative segment subject to SEBI (MF) Regulations. The Scheme intends to take position in derivative instruments like Index Futures, Stock Futures, Index Options and such other derivative instruments as may be permitted by SEBI from time to time.

Debt securities:

The Scheme will also invest in high quality debt securities with portfolio duration based on interest rate view and money market instruments.

- The credit quality of the portfolio will be maintained and monitored using in-house research capabilities as well as inputs from external sources such as independent credit rating agencies.
- The investment team will primarily use a top down approach for taking interest rate view, sector allocation along with a bottom up approach for security/instrument selection.
- The bottom up approach will assess the quality of security/instrument (including the financial health of the issuer) as well as the liquidity of the security.
- Investments in debt instruments carry various risks such as interest rate risk, reinvestment risk, credit risk and liquidity risk etc. Whilst such risks cannot be eliminated, they may be minimized through diversification.

Risk is an inherent part of the investment function. Effective risk management is critical to fund management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objective of the Scheme and provisions of SEBI (MF) Regulations. AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. The risk control process involves identifying & measuring the risk through various Risk Measurement Tools like but not limited to calculating risk ratios, tracking error etc. The AMC has implemented Bloomberg as the Front Office and Settlement System (FOS). The system has incorporated all the investment restrictions as per SEBI guidelines and “soft” warning alerts at appropriate levels for preemptive monitoring. The system enables identifying & measuring the risk through various risk measurement tools like various risk ratios, average duration and analyzes the same so as to act in a preventive manner.

The risk control measures for managing the debt portion of the scheme are:

1. Monitoring risk adjusted returns performance of the fund with respect to its peers and its benchmark.
2. Tracking analysis of the fund on various risk parameters undertaken by independent fund research / rating agencies or analysts and take corrective measures if needed.
3. Credit analysis plays an important role at the time of purchase of bond and then at the time of regular performance analysis. Our internal research anchors the credit analysis. Sources for credit analysis include Capital Line, CRISIL, ICRA updates etc. Debt ratios, financials, cash flows are analysed at regular intervals to take a call on the credit risk.
4. We define individual limits for G-Sec, money market instruments, MIBOR linked debentures and corporate bonds exposure, for diversification reasons.

The Scheme does not propose to underwrite issuances of securities of other issuers.

Policy for Investment decisions

The investment policy of the AMC has been determined by the Investment Committee (“IC”) which has been ratified by the Boards of the AMC and Trustee. At the strategic level, the broad investment philosophy of the AMC and the authorized exposure limits are spelt out in the Investment Policy of the AMC. During trading hours, the Fund Managers have the discretion to take investment decisions for the Scheme within the limits defined in the Investment Policy, these decisions and the reasons thereof are communicated to the CEO for post facto approval.

The designated Fund Manager(s) of the Scheme will be responsible for taking day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

Portfolio Turnover Policy

Portfolio turnover is defined as the aggregate value of purchases or sales as a percentage of the corpus of a scheme during a specified period of time. The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy.

However, during volatile market conditions, the fund manager has the flexibility to churn the portfolio actively to optimize returns keeping in mind the cost associated with it.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked to the performance of Nifty Equity Savings Index.

Rationale for adoption of benchmark:

The fund intends to invest in a mix of equity and related instruments using a blend of arbitrage opportunities alongside unhedged equity investments with an exposure to debt and money market instruments.

It is a total return index capturing price return and dividend or coupon income.

The index components are 30 per cent exposure to Nifty 50 total return index; 30 per cent exposure to equity arbitrage (long position in Nifty 50 total return index and equivalent short position in Nifty 50 futures Index); 30 per cent exposure to Nifty short duration debt index; and 5 per cent exposure to Nifty 1D rate index. The above benchmark is in accordance with clause 1.9 of SEBI Master Circular dated May 19, 2023 on ‘Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes’.

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

NAV of Units under the Options there under can be calculated as shown below:

(Market or Fair Value of Scheme's investments + Current assets including Accrued Income - Current Liabilities and provisions including accrued expenses)

NAV = $\frac{\text{Market or Fair Value of Scheme's investments + Current assets including Accrued Income - Current Liabilities and provisions including accrued expenses}}{\text{No. of Units outstanding under the Scheme/Option.}}$

The NAV, the sale and repurchase prices of the Units will be calculated and announced at the close of each working day. The NAVs of the Scheme will be computed and units will be allotted upto 3 decimals.

Computation of NAV will be done after taking into account IDCW paid, if any, and the distribution tax thereon, if applicable. Therefore, once IDCW are distributed under the IDCW Option, the NAV of the Units under the IDCW Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

The valuation of the Schemes' assets and calculation of the Schemes' NAVs shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

Illustration on Computation of NAV:

If the net assets of the Scheme are Rs.10,65,44,345.34 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows:

$10,65,44,345.34 / 1,00,00,000 = \text{Rs. } 10.6544 \text{ p.u. (rounded off to four decimals)}$

The Mutual Fund may charge the load within the stipulated limit of 5% and without any discrimination to any specific group. The Repurchase Price however, will not be lower than 95% of the NAV.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. NFO expenses were borne by the AMC. No NFO expenses were charged to the Scheme.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 2.25% of the daily net assets of the Scheme will be charged to the scheme as expenses. As per the Regulations, the maximum recurring expenses including investment management and advisory fee that can be charged to the Scheme shall be subject to a percentage limit of daily net assets as in the table below:

First Rs. 500 crores	2.25%
Next Rs. 250 crores	2.00%
Next Rs. 1250crores	1.75%
Next Rs. 3000 crores	1.60%

Next Rs. 5000 crores	1.50%
on the next Rs. 40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs 5,000 crores of daily net assets or part thereof,
Balance of assets	1.05%

For the actual current expenses being charged, the investor should refer to the website of the mutual fund <https://www.miraeassetmf.co.in/downloads/statutory-disclosure/total-expense-ratio>

*Other expenses: Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

^ In terms of clause 10.1 of SEBI Master circular dated May 19, 2023, in case exit load is not levied / not applicable, the AMC shall not charge the said additional expenses.

@@ Brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment shall not exceed 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per

the information available to the AMC and the above expenses (including investment management and advisory fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations, as amended from time to time.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate, sponsor, trustee or any other entity through any route.

In addition to the limits as specified in Regulation 52(6) of SEBI (Mutual Funds) Regulations 1996 [‘SEBI Regulations’] or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the scheme namely:-

\$Additional expenses for gross new inflows from specified cities:

(a) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI from time to time are at least -

(i) 30 per cent of gross new inflows in the scheme, or;

(ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the Scheme shall be charged on proportionate basis.

Provided further that, expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the Scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Currently, SEBI has specified that the above additional expenses may be charged for inflows from beyond ‘Top 30 cities.’ The top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on ‘AUM by Geography – Consolidated Data for Mutual Fund Industry’ as at the end of the previous financial year.

Provided further that, additional TER can be charged based on inflows only from retail investors from B30 cities in terms of clause 10.1 of SEBI Master Circular dated May 19, 2023.

‘Retail investors’ are defined as individual investors with an inflow of an amount upto Rs 2,00,000/- per transaction.

This sub clause (a) shall be applicable for inflows received during the NFO period.

*** Note: SEBI vide its letter no. SEBI/HO/IMD-SEC-3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI letter dated No. 35P/ MEM-COR/ 85/ 2022-23 dated March 02, 2023 has directed AMCs to keep B-30 incentive structure in abeyance with effect from March 01, 2023 till further notice.

(b) GST payable on investment and advisory service fees (‘AMC fees’) charged by Mirae Asset Investment Managers (India) Private Limited (‘Mirae Asset AMC’);

Within the Total Expense Limit chargeable to the Scheme, following will be charged to the Scheme:

- (a) GST on other than investment and advisory fees, if any, (including on brokerage and transaction costs on execution of trades) shall be borne by the Scheme;
- (b) Investor education and awareness initiative fees of 2 basis points on daily net assets of respective Scheme.

The current expense ratios will be updated on the AMC website <https://miraeassetmf.co.in/downloads/regulatory> at least 3 working days prior to the effective date of the change.

Further, the notice of change in base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A) (b) and 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996) in comparison to previous base TER charged to the scheme will be communicated to investors of the scheme through notice via email or SMS at least three working days prior to effecting such change.

However, any decrease in TER due to decrease in applicable limits as prescribed in Regulation 52 (6) (i.e. due to increase in daily net assets of the scheme) would not require issuance of any prior notice to the investors. Further, such decrease in TER will be immediately communicated to investors of the scheme through email or SMS and uploaded on the AMC website.

The above change in the base TER in comparison to previous base TER charged to the scheme shall be intimated to the Board of Directors of AMC along with the rationale recorded in writing.

The changes in TER shall also be placed before the Trustees on quarterly basis along with rationale for such changes.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (<https://www.miraeassetmf.co.in/>) or may call at '1800 2090 777' or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Exit	<p>I. For investors who have opted for SWP under the plan:</p> <p>a) 15% of the units allotted (including Switch-in/STP - in) on or before completion of 365 days from the date of allotment of units: Nil.</p> <p>b) Any redemption in excess of such limits in the first 365 days from the date of allotment shall be subject to the following exit load: (Redemption of units would be done on First In First Out Basis (FIFO): If redeemed within 1 year (365 days) from the date of allotment: 1% If redeemed after 1 year (365 days) from the date of allotment: NIL</p> <p>II. Other Redemptions: For Investors who have not opted for SWP under the plan (including Switch out, STP out):</p> <p>If redeemed within 1 year (365 days) from the date of allotment: 1% If redeemed after 1 year (365 days) from the date of allotment: NIL</p>

For any change in exit load, AMC will issue an addendum and display it on the website/Investor Service Centres.

The Mutual Fund may charge the load within the stipulated limit of 5% and without any discrimination to any specific group. The Repurchase Price however, will not be lower than 95% of the NAV.

The Trustee reserves the right to modify/alter the load structure and may decide to charge an exit load on the Units with prospective effect, subject to the maximum limits as prescribed under the SEBI Regulations. At the time of changing the load structure, the AMC shall take the following steps:

- Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all the Mirae Asset ISCs' and distributors' offices.
- The notice-cum-addendum detailing the changes shall be attached to SIDs and Key Information Memoranda. The addendum will be circulated to all the distributors so that the same can be attached to all SIDs and Key Information Memoranda already in stock.
- The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- Any other measures which the mutual funds may feel necessary.

The AMC may change the load from time to time and in case of an exit/repurchase load this may be linked to the period of holding. It may be noted that any such change in the load structure shall be applicable on prospective investment only. The exit load (net off GST, if any, payable in respect of the same) shall be credited to the Scheme of the Fund.

The distributors should disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor.

Section II

I. Introduction

A. Definitions/interpretation

Please refer the definitions/interpretation as disclosed under: <https://www.miraeassetmf.co.in/downloads/statutory-disclosure/other-disclosure/offer-documents-data>

B. Risk factors

Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the scheme can go up or down depending on various factors and forces affecting capital markets and money markets.
- Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee the future performance of the Scheme.
- The Scheme does not in any manner indicate its quality or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1.00 lakh made by it towards setting up the Mirae Asset Mutual Fund.
- The present scheme is not a guaranteed or assured return scheme. In addition, the scheme does not guarantee or assure any dividend and also does not guarantee or assure that it will make any dividend distribution, though it has every intention to make the same in the distributions of Income Distribution cum Capital Withdrawal option. All distributions of Income Distribution cum Capital Withdrawal will be subjected to the investment performance of the Scheme.

•

Scheme Specific Risk Factors

Risks Associated with Equity Investments:

- Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, changes in law/ policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted

securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

Risks Associated with Debt & Money Market Instruments

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- **Concentration Risk:** The Scheme portfolio may have higher exposure to a single sector, subject to maximum of 20% of net assets, depending upon availability of issuances in the market at the time of investment, resulting in higher concentration risk. Any change in government policy / businesses environment relevant to the sector may have an adverse impact on the portfolio.
- **Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk**

than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

Risk associated with Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

Risks Associated with Derivatives

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional instruments. Such risks include mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. The options buyer's risk is limited to the premium paid, while the risk of an options writer is unlimited. However the gains of an options writer are limited to the premiums earned. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price. The loss can be unlimited as underlying asset can increase to any levels. The writer of a put option bears the risk of loss if the value of the underlying asset declines below the exercise price and the loss is limited to strike price.

Investments in futures face the same risk as the investments in the underlying securities. The extent of loss is the same as in the underlying securities. However, the risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. The derivatives are also subject to liquidity risk as the securities in the cash markets. The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility in the values. For further details please refer to section "Investments Limitations and Restrictions in Derivatives" in this SID.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risk factors associated with potential change in tax structure

An equity oriented fund has been defined under the Income Tax Act as a scheme of a mutual fund where the investible funds are invested in equity shares of domestic companies to the extent of more than 65 per cent of the total assets of such fund. The percentage of equity shareholding of the fund shall be computed with reference to the annual average of the monthly averages of the opening and closing figures.

Given that the equity allocation may fall below this threshold and up to 15% in extreme situation, it is possible that the equity allocation remains below 65% over a prolonged period. Further, in defensive circumstances where the debt / money market instruments offer better returns than the arbitrage opportunities available in cash and derivatives segments of equity markets, then the investment manager may choose to have a lower equity exposure for a prolonged period. In such a case, the fund may be regarded as a debt oriented fund as per extant Income Tax laws and consequently may not enjoy its tax advantage available to an equity oriented fund and may be subject to tax as a debt oriented fund in that particular financial year. In such situation, a Unitholder who has redeemed the units during the respective financial year may end up paying long term capital gain tax as applicable to a debt fund and consequently would also not be able to derive any benefit of STT paid at the time of redemption. In view of the forgoing and individual nature of tax consequences, each Unit holder is advised to consult his / her own professional tax advisor.

Risks associated with investing in Tri-Party Repo through CCIL (TREPS)

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall". As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member). However, it may be noted that a member shall have the right to submit resignation from the membership of the Security segment if it has taken a loss through replenishment of its contribution to the default fund for the segments and a loss threshold as notified have been reached. The maximum contribution of a member towards replenishment of its contribution to the default fund in the 7 days (30 days in case of securities segment) period immediately after the afore-mentioned loss threshold having been reached shall not exceed 5 times of its contribution to the Default Fund based on the last re-computation of the Default Fund or specified amount, whichever is lower. Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may

undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.”

Risks associated with segregated portfolio

- 1) Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- 2) Security comprises of segregated portfolio may not realise any value.
- 3) Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risk factors associated with instruments having special features

- The scheme may invest in certain debt instruments with special features which may be subordinated to equity and thereby such instruments may absorb losses before equity capital. The instrument is also convertible to equity upon trigger of a pre-specified event for loss absorption as may be decided by the RBI.
- The debt instruments with special features are considered as Non-Convertible Debentures, may be treated as debt instruments until converted to equity.
- The instruments are subject to features that grant issuer a discretion in terms of writing down the principal/coupon, to skip coupon payments, to make an early recall etc. Thus debt instruments with special features are subject to “Coupon discretion”, “Loss Absorbency”, “Write down on Point of Non-viability trigger (PONV) event” and other events as more particularly described as per the term sheet of the underlying instruments.
- The instrument is also subject to Liquidity Risk pertaining to how saleable a security is in the market. The particular security may not have a market at the time of sale due to uncertain/insufficient liquidity in the secondary market, then the scheme may have to bear an impact depending on its exposure to that particular security.

• C. RISK MITIGATION MEASURES

Concentration Risk

The AMC will mitigate this risk by investing in sufficiently large number of issuers spread across the sectors so as to maintain optimum diversification and keep issuer/sector specific concentration risk relatively low.

Liquidity Risk

The Schemes will invest in debt instruments and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds. Liquidity risk is today characteristic of the Indian fixed income market. The Schemes will however, endeavor to minimize liquidity risk by investing in securities having a liquid market.

Risks Associated with Equity Investments:

The scheme has a diversified portfolio to counter the volatility in the prices of individual stocks. Diversification in the portfolio reduces the impact of high fluctuations in daily individual stock prices on the portfolio.

Risks Associated with Debt & Money Market Instruments

Credit Risk - The fund has a rigorous credit research process. There is a regulatory and internal cap on exposure to each issuer. This ensures a diversified portfolio and reduced credit risk in the portfolio.

II. Information about the scheme:

A. Where will the scheme invest

Equity and Equity Related Instruments:

The Schemes will invest in Equity and Equity related instruments include convertible debentures, equity warrants, convertible preference shares, equity derivatives etc.

1. Equity share is a security that represents ownership interest in a company.
2. Equity Related Instruments are securities which give the holder of the security right to receive Equity Shares on pre-agreed terms. It includes equity warrants.

The Scheme may take derivatives position based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the overall investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the SEBI Regulations

Debt & Money Market Instruments:

The Scheme will invest in debt and money market instruments. It retains the flexibility to invest across all the securities in the debt and money markets.

Debt securities and Money Market Instruments will include but will not be limited to:

- a. Securities created and issued by the Central and State Governments as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- b. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- c. Debt securities of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
- d. Corporate debt (of both public and private sector undertakings).

- e. Obligations/Term Deposits of banks (both public and private sector) and development financial institutions.
- f. Money market instruments permitted by SEBI/RBI, or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.
- g. Certificate of Deposits (CDs).
- h. Commercial Paper (CPs), A part of the net assets may be invested in the Tri-party repo or in an alternative investment as may be provided by RBI to meet the liquidity requirements.
- i. The non-convertible part of convertible securities.
- j. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
- k. Any other instruments/securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency authorized to carry out such activity, such as CRISIL, ICRA, CARE, FITCH, etc. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals.

The Scheme shall not enter into any repurchase and reverse repurchase obligations in all securities held by it. The scheme does not intend to invest into any credit default swaps.

Investment in Derivatives:

Concepts and Examples of investing into Derivatives

Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument, commodity or index, such as: interest rates, exchange rates, commodities and equities.

- **Futures**

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering into the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

Currently, futures contracts have a maximum expiration cycle of 3-months. Three contracts are available at any time for trading, with 1 month, 2 months and 3 months expiry respectively. Futures contracts typically expire on the last Thursday of the month. For example, a contract with the January expiration expires on the last Thursday of January.

A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

Let us assume that the Nifty Index at the beginning of the month October 2017 was 5070 and three index futures as under were available:

Expiry Month	Bid Price	Offer Price
October 17	5075	5080
November 17	5085	5090
December 17	5095	5100

The Scheme could buy an index future of October, 2017 at the offer price of Rs. 5080. The Fund will be required to pay the initial margin as required by the exchanges.

The following is a hypothetical example of a typical trade in index future and the costs associated with the trade.

Particulars	Index Future	Actual Purchase of Stocks
Index as on beginning October 2017	5070	5070
October 2017 Futures Price	5080	-
1. Carry Cost associated with Futures	10 (5080-5070)	
2. Brokerage Cost @ 0.02% for Index Future and 0.03% for Cash Markets	1.016 (0.02% of 5080)	1.521 (0.03% of 5070)
3. Securities Transaction Tax (STT) STT on purchase of index futures – NIL STT on purchase of stocks – 0.025%	NIL (0% of 5080)	1.2675 (0.025% of 5070)
4. Gain on Surplus Funds (Assumed 6% returns on 75% of the money left after paying margin of 25%)	18.74 (6%*(100% of 5070 – 25% of 5080)*30/365)	NIL
Spot Market Price at the expiry of October Contract	5569	5569
5. Brokerage Cost on Sale @ 0.02% for Index Future and 0.03% for Cash Markets	1.114 (0.02% of 5569)	1.671 (0.03% of 5569)
6. Securities Transaction Tax STT on sale of index future – 0.025% STT on sale of stocks – 0.025%	1.114 (0.025% of 5569)	1.392 (0.025% of 5569)
Total Cost (1+2+3-4+5+6)	-5.50	5.85

Please note that the above example is based on assumptions and is used only for illustrative purposes (including an assumption that there will be a gain pursuant to investment in index futures). As can be seen in the above example, the costs associated with the trade in futures are less than that associated with the trade in actual stock. Thus, in the above example the futures trade seems to be more profitable than the trade in actual stock. However, buying of the index future may not be beneficial as compared to buying stocks if the execution and brokerage costs on purchase of index futures are high and the return on surplus funds are low. The actual returns may vary based on actuals and depends on final guidelines / procedures and trading mechanism as envisaged by stock exchanges and other regulatory authorities.

- **Options**

An option is a contract which provides the buyer of the option (also called the holder) the right, without the obligation, to buy or sell a specified asset at an agreed price on or upto a particular date. For acquiring this right the buyer has to pay a premium to the seller. The seller on the other hand has the obligation to buy or sell that specified asset at the agreed price. The premium is determined considering number of factors such as the underlying asset's market price, the number of days to expiration, strike price of the option, the volatility of the underlying asset and the risk less rate of return. The strike price, the expiration date and the market lots are specified by the exchanges.

An option contract may be of two kinds, viz., a call option or a put option. An option that provides the buyer the right to buy is a call option. The buyer of the call option (known as the holder of the option) can call upon the seller of the option (known as writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry date of the option. The seller of the option has to fulfill the obligation on exercise of the option.

The right to sell is called a put option. Here, the buyer of the option can exercise his right to sell the underlying asset to the seller of the option at the agreed price.

Options are of two types: European and American. In a European option, the holder of the option can only exercise his right on the date of expiration. In an American option, he can exercise this right anytime between the purchase date and the expiration date.

Example of options

Buying a Call option: Assume that the Scheme buys a call option at the strike price of Rs. 5,000 and pays a premium of Rs. 100. If the market price of the underlying stock on the date of expiry of the option is Rs. 5,400 (i.e. more than Rs. 5,000 which is the strike price of an option), the Scheme will exercise the option. However, it may not result into profit. The profit is made only in those circumstances when the intrinsic value (5400 (spot price)-5000(strike price)) is greater than cost paid i.e. option premium (100). If on the date of the expiry of the option, the market price of the underlying stock is Rs. 4,900, the Scheme will not exercise the option and it shall lose the premium of Rs. 100.

Thus, in the above example, the loss for the Scheme, as the buyer of the option, is limited to the premium paid by him while the gains are unlimited.

Writing a Call Option: Assume that the Scheme writes a call option at the strike price of Rs. 5,000 and earns a premium of Rs. 100. If the market price of the underlying stock on the date of expiry increases to Rs. 5,400 (i.e. more than Rs. 5,000) then the option is exercised. The Scheme earns the premium of Rs. 100/- but loses the difference between the market price and the exercise price i.e. Rs. 400/-. In case the market price of the underlying stock decreases to Rs. 4,900, the Scheme gets to keep the premium of Rs.100.

Buying a Put Option: Assume that the Scheme buys a put option at the strike price of Rs. 5,000 and pays a premium of Rs. 100. If the market price of the underlying stock decreases to Rs. 4,850 (i.e. less than strike price of 5000) the Scheme would be protected from the downside and would exercise the put option. However, it may not result into profit. The profit is resulted only when the intrinsic value (5000 (strike price) – 4850(spot price)) is greater than the cost paid i.e. option premium of 100. Whereas

if the stock price moves up to say Rs. 5,150 the Scheme may let the option expire and forego the premium.

Writing a Put Option: Assume that the Scheme writes a put option at the strike price of Rs. 5,000 and earns a premium of Rs. 100. If the market value of the underlying stock decreases to Rs. 4,850, the put option will be exercised and the Scheme will earn the premium of Rs. 100 but loses the difference between the exercise price and the market price which is Rs. 150. However if the market price of the underlying stock is Rs. 5,150, the option-holder will not exercise the option. As a result of which the option will expire and the Scheme will earn the premium income of Rs. 100.

A forward contract is a transaction in which the buyer and the seller agree upon the delivery of a specified quality (if commodity) and quantity of underlying asset at a predetermined rate on a specified future date.

Please note that the above examples are based on assumptions and are used only for illustrative purposes.

Risks associated with investment strategy which may be followed by the fund managers for investment in derivatives:

Execution of investment strategies depends upon the ability of the fund manager to identify such opportunities which may not be available at all times. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable.

The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.

Overview of Debt Markets in India

Indian fixed income market, one of the largest and most developed in South Asia, is well integrated with the global financial markets. Screen based order matching system developed by the Reserve Bank of India (RBI) for trading in government securities, straight through settlement system for the same, settlements guaranteed by the Clearing Corporation of India and innovative instruments like TREPS have contributed in reducing the settlement risk and increasing the confidence level of the market participants.

The RBI reviews the monetary policy six times a year giving the guidance to the market on direction of interest rate movement, liquidity and credit expansion. The central bank has been operating as an independent authority, formulating the policies to maintain price stability and adequate liquidity. Bonds are traded in dematerialized form. Credit rating agencies have been playing an important role in the market and are an important source of information to manage the credit risk.

Government (Central and State) is the largest issuer of debt in the market. Public sector enterprises, quasi government bodies and private sector companies are other issuers. Insurance companies, provident funds, banks, mutual funds, financial institutions, corporates and FPIs are major investors in the market. Government loans are available up to 40 years maturity. Variety of instruments available for investments including plain vanilla bonds, floating rate bonds, money market instruments, structured obligations and interest rate derivatives make it possible to manage the interest rate risk effectively.

Indicative levels of the instruments as on May 31, 2024 are as follows:

Instrument	Maturity	Tenure	Yield	Liquidity
TREPS / Repo	Short	Overnight	6.76	Very High
CP / CD / T Bills	Short	3 months CP*	7.65	High
		3 months CD	7.15	
		1 Year CP*	8.12	
		1 Year CD	7.71	
Central Government securities	Low to High	10 years	6.98	Medium

B. What are the investment restrictions?

Investment Limitations and Restrictions

The following investment limitations and other restrictions, inter-alia, as contained in the Trust Deed and the Regulations apply to the Scheme:

- The total exposure of debt schemes in a particular sector (excluding investments in Bank CDs, Tri-party repo, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. However, the scheme(s) may have an additional exposure to financial services sector (over and above the sectoral limit of 20%) not exceeding 10% of its net assets by way of increase in exposure to Housing Finance Companies (HFCs) registered with National Housing Bank. Such additional exposure shall be to securities issued by HFCs which are rated AA and above. Further, the Scheme may have an additional exposure of 5% of the net assets of the scheme for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio. The total investment / exposure in HFCs shall not exceed 20% of the net assets of the scheme(s).
- The Mutual Funds/AMCs shall ensure that total exposure of debt schemes in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.

Further, investments by debt mutual fund schemes in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees

A group means a group as defined under regulation 2(mm) of SEBI (Mutual Funds) Regulations, 1996 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

- The scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company.

Further, in accordance with clause 12.8 of SEBI Master Circular dated May 19, 2023, the Scheme shall not invest more than:

- a) 10% of its NAV in debt and money market securities rated AAA; or
- b) 8% of its NAV in debt and money market securities rated AA; or
- c) 6% of its NAV in debt and money market securities rated A and below

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified above.

- The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging. However, mutual fund schemes may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.
- Investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. shall be subject to following:
 - a. Investments shall only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
 - b. Exposure in such instruments, shall not exceed 5% of the net assets of the scheme.
 - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
- No Mutual Fund under all its schemes taken together should own more than ten percent of any company's paid up capital carrying voting rights.
- Inter scheme transfers of investments from one scheme to another scheme in the same Mutual Fund shall be allowed only if such transfers are done at the prevailing market price for quoted instruments on spot basis. Explanation - "Spot basis" shall have same meaning as specified by stock exchange for spot transactions. The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

Pursuant to Clause 12.30 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, ISTs may be allowed in the following scenarios:

- i. for meeting liquidity requirement in a scheme in case of unanticipated redemption pressure
- ii. for Duration/ Issuer/ Sector/ Group rebalancing

No IST of a security shall be done, if there is negative news or rumors in the mainstream media or an alert is generated about the security, based on internal credit risk assessment. The Scheme shall comply with the guidelines for inter-scheme transfers as specified under clause 12.30 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

- Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relative securities and in all cases of sale, deliver the securities and shall in no case put itself in a position whereby it has to make short sale or carry forward transaction or engage in badla finance, provided that mutual funds shall enter into derivatives transactions in a recognized stock exchange subject to such guidelines as may be specified by SEBI.
- Every mutual fund shall get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
- The Scheme shall not make any investment in: a) Any unlisted security of an associate or group company of the Sponsor; or b) Any security issued by way of private placement by an associate or group company of the sponsor; or c) The listed securities of group companies of the Sponsor which is in excess of 25% of the net assets.
- No scheme of a mutual fund shall make any investment in any fund of funds scheme.
- The Mutual Fund having an aggregate of securities which are worth Rs.10 crores or more, as on the latest balance sheet date, shall subject to such instructions as may be issued from time to time by SEBI, settle their transactions entered on or after January 15, 1998 only through dematerialized securities. Further, all transactions in government securities shall be in dematerialized form.
- No Mutual Fund scheme shall invest more than 10% of its NAV in the listed equity shares or listed equity related instruments of any company or listed units /securities of venture capital funds provided that the limit of 10% shall not be applicable for investments in index scheme or sector or industry specific scheme.
- All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
- Pending deployment of funds of a scheme in securities in terms of investment objectives of the scheme a mutual fund can invest the funds of the scheme in short term deposits of scheduled commercial banks. The investment in these deposits shall be in accordance with clause 12.16 of SEBI Master Circular dated May 19, 2023.
- The mutual fund shall not borrow except to meet temporary liquidity needs of the mutual funds for the purpose of repurchase, redemption of units or payment of interest or dividend to the unitholders. Provided that the mutual fund shall not borrow more than 20 per cent of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.

- The Scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the management or in schemes under the management of any other asset management company shall not exceed 5% of the NAV of the mutual fund.
- The investment of mutual fund schemes in below instruments shall not exceed 10% of the debt portfolio of the schemes and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the schemes:
 - a) Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade and
 - b) Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade.
- Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.
- The Scheme shall get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
- Clause of 12.2 of SEBI Master Circular dated May 19, 2023 the below mentioned limits shall apply for instruments with special features:
 - a. The Fund under all its schemes shall own more than 10% of such instruments issued by a single issuer.
 - b. The scheme shall not invest:
 - i. more than 10% of its NAV of the debt portfolio of the scheme in such instruments; and
 - ii. more than 5% of its NAV of the debt portfolio of the scheme in such instruments issued by a single issuer.

As per clause 12.16 of SEBI Master Circular dated May 19, 2023 on investments in Short Term Deposits (STDs) of Scheduled Commercial Banks:

- Total investment of the Scheme in Short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised upto 20% of the net assets with prior approval of the trustees. Further, investments in Short Term Deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- “Short Term” for parking of funds by Mutual Funds shall be treated as a period not exceeding 91 days
- The Scheme shall not invest more than 10% of the net assets in short term deposit(s), of any one scheduled commercial bank including its subsidiaries.
- The Scheme shall not invest in short term deposit of a bank which has invested in that Scheme. AMC shall also ensure that the bank in which a scheme has Short term deposit do not invest in the said scheme until the scheme has Short term deposit with such bank.

- Asset Management Company (AMC) shall not be permitted to charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
- The investments in short term deposits of scheduled commercial banks will be reported to the Trustees along with the reasons for the investment which, inter-alia, would include comparison with the interest rates offered by other scheduled commercial banks. Further, AMC shall ensure that the reasons for such investments are recorded in the manner prescribed in clause 12.23 of SEBI Master Circular dated May 19, 2023.
- The Scheme will comply with SEBI regulations and any other regulations applicable to the investments of Funds from time to time. The Trustee may alter the above restrictions from time to time to the extent that changes in the regulations may allow. All investment restrictions shall be applicable at the time of making investment.

In accordance with clause 12.16 of SEBI Master Circular dated May 19, 2023, the aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivative market.

The Scheme will comply with SEBI regulations and any other regulations applicable to the investments of Funds from time to time. The Trustee may alter the above restrictions from time to time to the extent that changes in the regulations may allow. All investment restrictions shall be applicable at the time of making investment.

Investments Limitations and Restrictions in Derivatives

In accordance with clause 12.25 of SEBI Master Circular dated May 19, 2023 , the following investment restrictions shall apply with respect to investment in Derivatives:

Sr. No.	Particulars

Short Future	Futures Price * Lot Size * Number of Contracts								
Option bought	Option Premium Paid * Lot Size * Number of Contracts								
8	Derivatives transactions shall be disclosed in the half-yearly portfolio / annual report of the schemes in line with requirements under SEBI Regulations.								

Please note that the investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time.

Position limit for the Fund in index options contracts

- The Fund's position limit in all index options contracts on a particular underlying index shall be Rs.500 Crores or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all options contracts on a particular underlying index.

Position limit for the Fund in index futures contracts

- The Fund's position limit in all index futures contracts on a particular underlying index shall be Rs.500 Crores or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit in index derivatives for hedging for the Fund

In addition to the position limits above, the Fund may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Fund's holding of stocks.

- Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.

Position limit for the Fund for stock based derivative contracts

The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

Position limit for the Scheme

The position limit/disclosure requirements for the Scheme shall be as follows:

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of the Scheme shall not exceed the higher of:
1% of the free float market capitalization (in terms of number of shares)
OR
5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts (Shares)).
- For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.
- This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a stock exchange.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow and as deemed fit in the general interest of the Unit Holders.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-a-vis limiting exposure to a particular scrip or sector etc.

Under normal circumstances, the asset allocation will be as follows:

Types of Instruments	Indicative allocation (% of total assets)	
	Indian Equities and Equity Related Instruments	65%
i. Equities & equity related instruments (unhedged)*	20%	45%
ii. Equities, equity related instruments and derivatives including index futures, stock futures, index options & stock options etc. as part of hedged / arbitrage exposure.*	20%	70%
Money market instruments / debt securities Instruments and/or units of debt/liquid schemes of domestic Mutual Funds	10%	35%

In defensive circumstances the asset allocation will be as per the below table

Types of Instruments	Indicative allocation (% of total assets)	
	Indian Equities and Equity Related Instruments	15%
i) Equities & equity related instruments (unhedged)*	10%	40%
ii) Equities, equity related instruments and derivatives including index futures, stock futures, index options & stock options etc. as part of hedged / arbitrage exposure.**	0%	55%
Money market instruments / debt securities Instruments and/or units of debt/liquid schemes of domestic Mutual Funds	35%	85%

*Equity and Equity related instruments include convertible debentures, equity warrants, convertible preference shares, equity derivatives etc. The Indian equities & equity related securities of companies includes those securities listed on stock exchanges in India and includes ADRs & GDRs. The net long equity exposure is aimed to gain from potential capital appreciation and thus is a directional equity exposure which will not be hedged.

**The derivative positions will be hedged against corresponding positions in either equity or derivative markets depending on the strategies involved and execution costs. On the total portfolio level the scheme does not intend to take a net short exposure to equity markets. Unhedged positions in the portfolio (investments in equity shares without corresponding exposure to equity derivative) shall not exceed 45% of the net assets.

However, the aggregate gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme.

The scheme shall not invest into securitized debt

The Scheme may invest in repo/reverse repo in corporate bonds.

The Cumulative Gross Exposure to Money Market Instruments, Debt instruments, will not exceed 20% of the Net Assets of the Scheme. However, cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.

In the event of deviations, portfolio rebalancing will be carried out within 30 calendar days.

(iii) **Terms of Issue**

- **Listing:**

The Scheme being open ended, the Units are not proposed to be listed on any stock exchange and no transfer facility on the exchange is provided. However, the Trustee reserves the right to list the units as and when open-end Schemes are permitted to be listed under the Regulations, and if the Trustee considers it necessary in the interest of unit holders of the Scheme.

- **Redemption:**

The Unit Holder has the option to request for Redemption either in amount in rupees or in number of Units. The minimum redemption amount shall be 'any amount' or 'any number of units' as requested by the investor at the time of redemption request.

Redemption Price:

The Redemption Price of the Units is the price at which a Unit Holder can redeem Units of a scheme. It will be calculated as described below:

Redemption Price = Applicable NAV - (Applicable NAV x Exit Load*)

* Exit Load, whatever is applicable, will be charged.

Redemption Price will be calculated for up to three decimal places for the Scheme.

For example, if the Applicable NAV of a Scheme is Rs.10.5550, and it has a 2% Exit Load, the Redemption Price will be calculated as follows:

Redemption Price = 10.5550 - (10.5550 X 2.00%) i.e. 10.4550 - 0.2110 = 10.3440

If the Scheme has no Exit Load, the Redemption Price will be equal to the Applicable NAV.

The Securities Transaction Tax levied under the Income Tax Act, 1961, at the applicable rate on the amount of redemption will be reduced from the amount of redemption.

To illustrate:

If a Redemption of 4,900 units is sought by the Unit Holder at a Redemption Price of Rs. 10.3440 (as calculated above), the redemption amount is Rs. 50,685.60. Securities Transaction Tax (STT) for

instance is 0.001%. This will be further reduced by the STT of Re. 0.50 (i.e. Rs. 50,685.60 x 0.001%), making the net redemption amount Rs. 50,685.10.

If a Redemption of Rs. 10,000 is sought by the Unit Holder at a Net Redemption Price of Rs. 10.3440 (as calculated above), which will give 966.744 Units; the effective redemption amount will be grossed up to Rs. 10,204.08 (i.e. $10,000 \div (1-2\%)$) and 966.744 units ($10,204.08 \div 10.555$) will be redeemed. This is to ensure that the Unit Holder receives the net amount of Rs. 10,000 as desired.

Investors may note that the Trustee has a right to modify the existing Load structure in any manner subject to a maximum as prescribed under the Regulations and with prospective effect only.

Please refer section – LOAD STRUCTURE.

Applicable NAV for Redemption / Switch-Out / Systematic Transfer Plan:

- In respect of valid Redemption applications accepted at a Designated Collection Centre up to 3 p.m. on a Business Day, the NAV of such day will be applicable.
In respect of valid Redemption applications accepted at a Designated Collection Centre after 3 p.m. on a Business Day, the NAV of the next Business Day will be applicable.
- **Aggregate fees and expenses charged to the scheme:** For detailed fees and expenses charged to the scheme please refer to section- I Part - III ‘C – Annual Scheme Recurring Expenses’.
- **Any safety net or guarantee provided:** There is no assurance OR guarantee of returns.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations and Clause 1.14.1.4 of SEBI Master Circular for Mutual Funds dated May 19, 2023 the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- SEBI has reviewed and provided its comments on the proposal
- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. Other Scheme Specific Disclosures:

Listing and transfer of units	The Schemes being open ended, the Units are not proposed to be listed on any stock exchange and no transfer facility is provided.
