Mutual Fund / AMC will provide facility of sending latest available NAVs to unitholders through SMS, upon receiving a specific request in this regard. <p>I-NAV shall be published on AMC website on all Business Days. (Indicative Net Asset Value – I-NAV - A measure of the intraday net asset value (NAV) of an investment, such as an Exchange Traded Fund (ETF), which gives an updated measure of the value of the investment based on its assets less its liabilities. An investment's NAV is usually calculated at the end of the trading day, but the indicative NAV measure gives a more real time view of this value. Indicative NAV is not the price at which you can purchase the instrument; it is only used as a reference for the investment's underlying value. In many cases, the ETF will actually trade at a premium or discount to the NAV due to various factors, including supply and demand, and expectations.</p> <p>The Fund may also calculate intra-day indicative NAV and update the same during market hours on the website of the Mutual Fund https://www.miraeassetmf.co.in/ at frequent intervals. Intra-day indicative NAV will not have any bearing on the creation or redemption of units directly with the Fund by the Authorized Participants /Large Investors. The AMC shall update the NAVs on the website of the Mutual Fund https://www.miraeassetmf.co.in/ and on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 11.00 p.m. on every Business Day. In case of any delay, the reasons for such delay would be explained to AMFI in writing. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAVs.</p>

	<p>The AMC shall within one month from the close of each half year, shall host a soft copy of unaudited financial results on its website and shall publish an advertisement disclosing the hosting of such financial results in the newspapers and also communicate portfolio of Scheme's on a half yearly basis to the unitholders directly or through the publications or as may be prescribed under the Regulations from time to time.</p> <p>The AMC will dispatch Annual Report of the Schemes within the stipulated period as required under the Regulations.</p>
Monthly/ Half yearly Portfolio	<p>The Mutual Fund/ AMC will disclose portfolio (along with ISIN) of the Scheme in the prescribed format, as on the last day of the month / half-year i.e. March 31 and September 30, on its website viz. https://www.miraeassetmf.co.in/ and on the website of Association of Mutual Funds in India (AMFI) viz. www.amfiindia.com within 10 days from the close of each month/ half year respectively. I INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the scheme can go up or down depending on various factors and forces affecting capital markets and money markets.
- Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee the future performance of the Scheme.
- The name of the Scheme does not in any manner indicate its quality or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

- **Risk Factors associated with Exchange traded Schemes**

The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following:

Passive Fund Investment Risks

1. Market Risk

The NAV of the Scheme will react to the securities market movements. The Investor may lose money over short or long periods due to fluctuation in the Scheme's NAV in response to factors such as economic, political, social instability or diplomatic developments, changes in interest rates and perceived trends in stock prices, market movements and over longer periods during market downturns. Investments may be adversely affected by the possibility of expropriation or confiscatory taxation, imposition of withholding taxes on Dividend or interest payments, limitations on the removal of funds or other assets of the Scheme. The Scheme may not be able to immediately sell certain types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists.

2. Market Trading Risks

1. **Absence of prior Active Market:** Although the Scheme is listed on NSE/BSE, there can be no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the Units of the Scheme would be infrequent.
2. **Trading in Units may be Halted:** Trading in the Units of the Scheme on NSE/BSE may be halted because of market conditions or for reasons that in view of NSE/BSE or SEBI, trading in the Units of the Scheme are not advisable. In addition, trading of the Units of the Scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE and SEBI 'circuit filter' rules. There can be no assurance that the requirements of NSE/BSE necessary to maintain the listing of the Units of the Scheme will continue to be met or will remain unchanged.
3. **Lack of Market Liquidity:** The Scheme may not be able to immediately sell certain types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists.

4. Units of the Scheme May Trade at prices Other than NAV: The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the holdings of the Scheme. The trading prices of the Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme. However, given that Units of the Scheme can be created and Redeemed in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAV of Units of the Scheme will not sustain due to arbitrage opportunity available.
5. Regulatory Risk: Any changes in trading regulations by NSE/BSE or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
6. Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the Securities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
7. Risk of Substantial Redemptions: Substantial Redemptions of Units within a limited period of time could require the Scheme to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the Units being Redeemed and that of the outstanding Units of the Scheme. The risk of a substantial Redemption of the Units may be exacerbated where an investment is made in the Scheme as part of a structured product with a fixed life and where such structured products utilize hedging techniques. Please also refer Statement of Additional Information for additional details.
8. Regardless of the period of time in which Redemptions occur, the resulting reduction in the NAV of the Scheme could also make it more difficult for the Scheme to generate profits or recover losses. The Trustee, in the general interest of the Unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be Redeemed on any Working Day depending on the total “Saleable Underlying Stock” available with the Fund.

3. Volatility Risk

The equity markets and Derivative markets are volatile and the value of Securities, Derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.

4. Redemption Risk

Investors may note that even though the Scheme is an open-ended Scheme, the Scheme would ordinarily repurchase Units in Creation Unit Size. Thus Unit holdings less than the Creation Unit Size can only be sold through the secondary market on the Exchange unless any of the scenarios mentioned below have occurred:

if the traded price of the ETF Units is at a discount of more than 3% to the NAV for continuous 30 days; or
if discount of bid price to applicable NAV is more than 3% over a period of 7 consecutive trading days; or
if no quotes are available on exchange for 3 consecutive trading days; or
when the total bid size on the exchange is less than half of Creation Unit size daily, averaged over a period of 7 consecutive trading days.

5. Asset Class Risk

The returns from the types of Securities in which the Scheme invests may under perform returns of general Securities markets or different asset classes. Different types of Securities tend to go through cycles of out-performance and under-performance in comparison of Securities markets.

6. Passive Investments

As the Scheme proposes to invest not less than 95% of the net assets in the securities of the underlying Index, the Scheme will not be actively managed.. The Scheme which is linked to the underlying index may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of its investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

7. Tracking Error Risk

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory restrictions, which may result in Tracking Error with the underlying index. The Scheme's returns may therefore deviate from those of the underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Tracking Error may arise due to the following reasons: -

- Expenditure incurred by the Fund.
- Available funds may not be invested at all times as the Scheme may keep a portion of the funds in cash to meet Redemptions, for corporate actions or otherwise.
- Securities trading may halt temporarily due to circuit filters.
- Corporate actions such as debenture or warrant conversion, rights issuances, mergers, change in constituents etc.
- Rounding-off of the quantity of shares in the underlying index.
- Dividend payout.
- Index providers undertake a periodical review of the scrips that comprise the underlying index and may either drop or include new scrips. In such an event, the Fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately.

SEBI Regulations (if any) may impose restrictions on the investment and/or divestment activities of the Scheme Such restrictions are typically outside the control of the AMC and may cause or exacerbate the Tracking Error.

Risks Associated with Equity Investments:

- Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, changes in law/ policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.

Risks Associated with Debt & Money Market Instruments

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.
- **Credit Risk:** In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent.
- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- **Reinvestment Risk:** Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.
- **Pre-payment Risk:** Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.
- **Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- **Concentration Risk:** The Scheme portfolio may have higher exposure to a single sector, subject to maximum of 20% of net assets, depending upon availability of issuances in the market at the time of investment, resulting in higher concentration risk. Any change in government policy / businesses environment relevant to the sector may have an adverse impact on the portfolio.
- Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

Risks Associated with Derivatives

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional instruments. Such risks include mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. The options buyer's risk is limited to the premium paid, while the risk of an options writer is unlimited. However the gains of an options writer are limited to the premiums earned. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price. The loss can be unlimited as underlying asset can increase to any levels. The

writer of a put option bears the risk of loss if the value of the underlying asset declines below the exercise price and the loss is limited to strike price.

Investments in futures face the same risk as the investments in the underlying securities. The extent of loss is the same as in the underlying securities. However, the risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. The derivatives are also subject to liquidity risk as the securities in the cash markets. The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility in the values. For further details please refer to section “Investments Limitations and Restrictions in Derivatives” in this SID.

Risk factors associated with processing of transaction through Stock Exchange Mechanism

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. However, units of the Scheme can only be subscribed in demat mode. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

Risks associated with segregated portfolio

- 1) Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
- 2) Security comprises of segregated portfolio may not realise any value.
- 3) Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

B. REQUIREMENT OF MINIMUM NUMBER OF INVESTORS AND MINIMUM HOLDING BY SINGLE INVESTOR

As the Scheme is an Exchange Traded Scheme, the provisions of minimum number of Investors and maximum holding of the Investors are not applicable as per SEBI Regulations and circulars.

C. SPECIAL CONSIDERATIONS

Mutual funds, like securities investments, are subject to market risks and there is no guarantee against loss in the Scheme or that the objective(s) of the scheme are achieved.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME:

An open ended scheme replicating/tracking Nifty Next 50 Total Return Index

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEME?

The investment objective of the scheme is to generate returns, before expenses, that are commensurate with the performance of the Nifty Next 50 Total Return Index, subject to tracking error. The Scheme does not guarantee or assure any returns.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation will be as follows:

Types of Instruments	Indicative allocation (% of total assets)		Risk Profile
	95%	100%	
Securities included in the Nifty Next 50 Index	95%	100%	High
Money market instruments / debt securities, Instruments and/or units of debt/liquid schemes of domestic Mutual Funds, but excluding subscription and redemption cash flow*	0	5%	Low to Medium

*Subscription cash flow is the subscription money in transit before deployment and redemption cash flow is the money kept aside for meeting redemptions.

The Scheme may make investments in Derivatives upto 20% of the net assets of the Scheme. The Scheme will not invest in ADR/ GDR / Foreign Securities / Securitized Debt/ Repo in Corporate Debt Securities nor will it engage in short selling. However, the aggregate gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme.

Debt securities include, but are not limited to, Debt securities of the Government of India, State and Local Governments, Government Agencies, Statutory Bodies, Public Sector Undertakings, Public Sector Banks or Private Sector Banks or any other Banks, Financial Institutions, Development Financial Institutions, and Corporate Entities, collateralized debt securities or any other instruments as may be prevailing and permissible under the Regulations from time to time).

The Debt Securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed, among others, as permitted by regulation.

Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme a mutual fund can invest the funds of the Scheme in short term deposits of scheduled commercial banks in terms of SEBI circular dated April 16, 2007, June 23, 2008 and August 16, 2019.

Further, the Scheme may, pending deployment of funds invest in units of money market/liquid schemes of Mirae Asset Mutual Fund and/or any other mutual fund. Such investments will be within the limits specified under SEBI (MF) Regulations. The AMC shall not charge any investment management fees with respect to such investment.

In case of any deviation from the above asset allocation, the portfolio shall be rebalanced within 7 Business Days to ensure adherence to the above norms. In the event of involuntary corporate action, the Scheme shall dispose the security not forming part of the underlying index within 7 Business Days from the date of allotment/ listing.

Change in Asset Allocation Pattern

The Scheme, in general, will hold all the securities that constitute the underlying Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances such tracking error is not expected to exceed 2% p.a for daily 12 month rolling return. However, in case of events like, dividend received from underlying securities, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. Since the Scheme is an exchange traded fund, it will endeavor that at no point of time the Scheme will deviate from the index.

In the interest of investors, the AMC reserves the right to change the above asset allocation pattern due to corporate action activity undertaken in the underlying securities. In the event of the asset allocation falling outside the limits specified in the asset allocation table, the Fund Manager will rebalance the same within 7 days.

Suspension of Purchase of Units and Right to limit redemption of Units:

Subject to the approval of the Boards of the AMC and of the Trustee, and subject also to necessary communication of the same to SEBI, the determination of the NAV of the Units of the Scheme, and consequently of the Purchase and/or switching of Units, may be temporarily suspended in certain cases. For, further details please refer section on “(B)(6) Suspension of Purchase of Units” under section “V. TAX & LEGAL & GENERAL INFORMATION - B. LEGAL INFORMATION of SAI.

SEBI vide its circular no. SEBI/HO/IMD/DF2/CIR/P/2016/57 dated May 31, 2016 has laid down certain requirements to be observed before imposing restriction on redemptions. For, further details please refer section on “ONGOING OFFER DETAILS - Right to Limit redemption of Units in this SID.

Investments in Scheme by AMC, Sponsor & Affiliates

Subject to the Regulations, the AMC and investment companies managed by the Sponsor(s), their affiliates, their associate companies and subsidiaries may invest either directly or indirectly, in the Scheme during the NFO and/or on ongoing basis. However, the AMC shall not charge any investment management fee on such investment in the Scheme, in accordance with sub-regulation 3 of Regulation 24 of the Regulations and shall charge fees on such amounts in future only if the SEBI Regulations so permit. The affiliates, associates, the Sponsor, subsidiaries of the Sponsor and/or the AMC may acquire a substantial portion of the Scheme's units and collectively constitute a major investment in the Schemes. The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time and required by applicable regulations and also in accordance with SEBI Circular no. SEBI/IMD/CIR No. 10/22701/03 dated December 12, 2003 regarding minimum number of investors in the Scheme.

In terms of SEBI notification dated May 06, 2014, as per regulation 28, sub-regulation (4) the sponsor or AMC shall invest not less than 1% of the amount which would be raised in the NFO or Rs. 50 lakhs, whichever is less, in the scheme and such investment shall not be redeemed unless the scheme is wound up.

INTRODUCTION TO EXCHANGE TRADED FUNDS

Index Fund

An index is a group of stocks that an index service provider selects as a representative of a market, market segment or specific industry sector. The index service provider calculates, maintains and disseminates the index. Most of the indices calculated are based on market capitalization (price x outstanding equity capital) of each stock and the weightage of each stock in the index is determined based on its market capitalisation. An Index Fund invests in the securities of the index in the same weightage.

The advantages of investing in an Index Fund are:

- 1. Diversification:** Since index schemes replicate to a large extent the market index, they provide diversification across various sectors and segments.
- 2. Low costs:** index schemes are passively managed, as a result of which costs such as those relating to management fees, trade execution, research etc. are kept relatively low.
- 3. Transparency:** As indices are pre-defined, investors know the securities and proportion in which their money will be invested.

Index Funds have become a popular investment vehicle globally as they provide low cost, low risk exposure to the equity markets.

Exchange Traded Fund (ETF)

ETFs are innovative products that provide exposure to an index or a basket of securities or physical gold that trade on the exchange like a single stock. ETFs have a number of advantages over traditional open-ended Index Funds as they can be bought and sold on the exchange at prices that are usually close to the actual intra-day NAV of the Scheme. ETFs are an innovation to traditional mutual funds as ETFs provide Investors a fund that closely tracks the performance of an index / physical gold with the ability to buy/sell on an intra-day basis. Unlike listed close ended funds, which trade at substantial premiums or more frequently at discounts to NAV, ETFs are structured in a manner which allows to create new Units and Redeem outstanding Units directly with the fund, thereby ensuring that ETFs trade close to their actual NAVs.

ETFs are usually passively managed funds wherein subscription /redemption of units work on the concept of exchange with underlying securities. In other words, Large Investors/institutions can Purchase Units by depositing the underlying Securities with the Fund/AMC and can Redeem by receiving the underlying shares in exchange of Units. Units can also be bought and sold directly on the exchange.

ETFs have all the benefits of indexing such as diversification, low cost and transparency. As ETFs are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the Investors in the form of lower costs. Further more, exchange traded mechanism helps reduce minimal collection, disbursement and other processing charges.

The structure of ETFs is such that it protects long-term Investors from inflows and outflows of short-term Investor. This is because the Fund does not bear extra transaction cost when buying/selling due to frequent Subscriptions and Redemptions.

Tracking Error of ETFs is likely to be low as compared to a normal Index Fund. Due to the creation/redemption of units through the in-kind mechanism the fund can keep lesser funds in cash. Also, time lag between buying/selling units and the underlying shares is much lower.

ETFs are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

Benefits of ETFs

1. Can be easily bought / sold like any other stock on the exchange through terminals spread across the country.
2. Can be bought/sold anytime during market hours at prices that are expected to be close to actual NAV of the schemes. Thus, investor invests at real-time prices as opposed to end of day prices.
3. No separate form filling for buying / selling units. It is just a phone call to your broker or a click on the net.
4. Ability to put limit orders.
5. Minimum investment for an ETF is one unit.
6. Protects long-term investors from the inflows and outflows of short-term investors.
7. Flexible as it can be used as a tool for gaining instant exposure to the respective equity/gold markets, equitising cash, hedging or for arbitraging between the cash and futures market.
8. Helps in increasing liquidity of underlying cash market.
9. Aids low cost arbitrage between futures and cash market.
10. An investor can get a consolidated view of his investments without adding too many different account statements as the Units issued would be in demat form.

Uses of ETFs

1. Investors with a long-term horizon
Allows diversification of portfolio at one shot thereby reducing scrip specific risk at a low cost.
Gold ETFs reduce risk of holding physical gold.
2. FIIs, Institutions and Mutual Funds
Allows easy asset allocation, hedging and equitizing cash at a low cost.
3. Arbitrageurs
Low impact cost to carry out arbitrage between the cash and the futures market.
4. Investors with a shorter term horizon

Allows liquidity due to ability to trade during the day and expected to have quotes near NAV during the course of trading day.

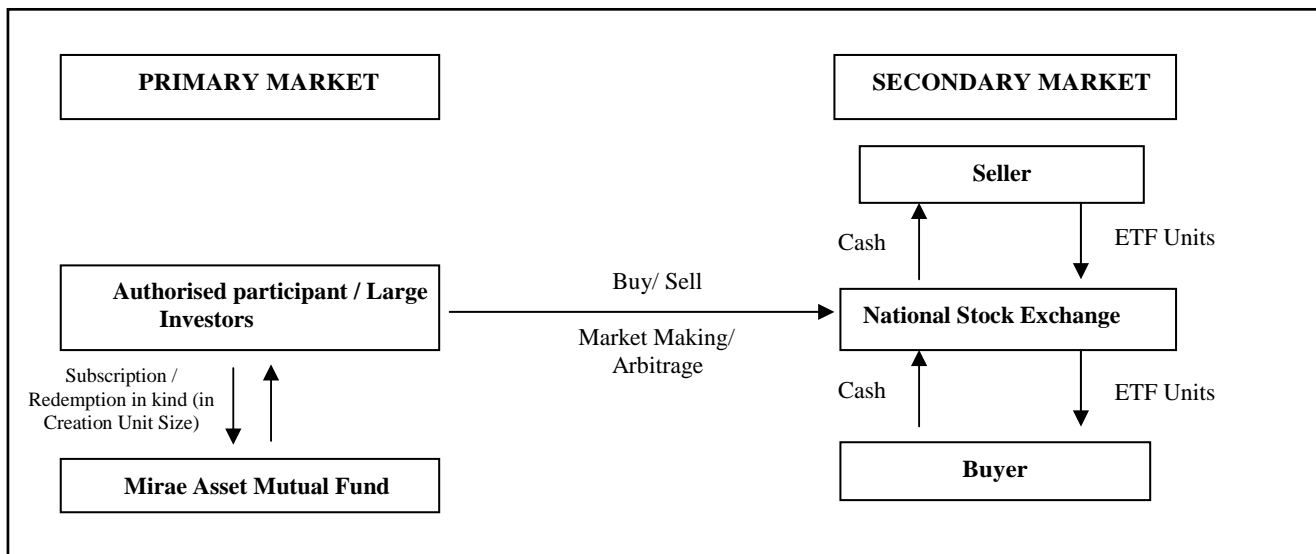

Risks of ETFs

1. **Absence of Prior Active Market:** Although the units of ETFs are listed on the Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
2. **Lack of Market Liquidity:** Trading in units of ETFs on the Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned stock exchange or market regulator, trading in the ETF units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit filter' rules. There can be no assurance that the requirements of the concerned stock exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.
3. **Units of Exchange Traded Funds May Trade at prices Other than NAV:** Units of ETFs may trade above or below their NAV. The NAV of units of ETFs may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created / redeemed in creation units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.

Comparison of ETFs v/s Open Ended Funds v/s Close Ended Funds:

	Open Ended Fund	Closed Ended Fund	Exchange Traded Fund
Fund Size	Flexible	Fixed	Flexible
NAV	Daily	Daily	Real time (indicative NAV)
Liquidity provider	Fund itself	Stock Market	Stock Market / Fund itself
Sale price	At NAV plus Load, if any	Significant premium / discount to NAV	Very close to actual NAV of Scheme
Availability	Fund itself	Through Exchange where listed	Through Exchange where listed / Fund itself.
portfolio disclosure	Disclosed monthly	Disclosed monthly	Daily
Intra-day trading	Not possible	Expensive	Possible at low cost

Procedure for creation of MANXT50ETF units in Creation Unit size:

The Fund/AMC allows cash/exchange of Portfolio Deposit for Purchase of Units of the Scheme in Creation Unit size by Large Investors/Authorised Participants.

• Creation of Units in exchange of Portfolio Deposit:

The requisite Securities constituting the Portfolio Deposit have to be transferred to the Scheme's Depository Participant account while the Cash Component has to be paid to the Custodian/AMC. On confirmation of the same by the Custodian/AMC, the AMC will create and transfer the equivalent number of Units of the Scheme into the Investor's Depository Participant account and pay/ recover the Cash Component and transaction handling charges, if any.

• Creation of Units in Cash: Subscription of MANXT50ETF Units in Creation Unit Size will be made by payment of requisite Cash, as determined by the AMC equivalent to the cost incurred towards the purchase of predefined basket of securities that represent the underlying index (i.e. portfolio deposit), Cash Component and transaction handling charges, if any, only by means of payment instruction of Real

Time Gross Settlement (RTGS) / National Electronic Funds Transfer (NEFT) or Funds Transfer Letter / Transfer Cheque of a bank where the Scheme has a collection account.

- The Creation Unit will be subject to transaction handling charges incurred by the Fund/AMC. Such transaction handling charges shall be recoverable from the transacting Authorized Participant or Large Investor.
- The Portfolio Deposit and/or Cash Component for units of the Scheme may change from time to time due to changes in the Underlying Index on account of corporate actions and changes to the index constituents.
- The investors are requested to note that the Units of the Scheme will be credited into the Investor's Depository Participant account only on receipt of Cash Component and transaction handling charges, if any.

'Creation Unit size' is fixed number of units of the Scheme, which is exchanged for a basket of securities underlying the designated index called the Portfolio Deposit and a Cash Component equal to the value of 10,000 units of the Scheme and/or subscribed in cash equal to the value of said predefined units of the Scheme. Each Creation Unit size consists of 10,000 units of MANXT50ETF. Each unit of MANXT50ETF will be approximately equal to the 1/100th value of the NIFTY Next 50 Index. 'Portfolio Deposit' consists of pre-defined basket of securities that represent the underlying index as announced by AMC from time to time.

Procedure for Redemption in Creation Unit size

The requisite number of Units of the Scheme equivalent to the Creation Unit has to be transferred to the Fund's Depository Participant account and the Cash Component to be paid to the AMC/Custodian.

- On confirmation of the same by the AMC, the AMC will transfer the Portfolio Deposit to the Investor's Depository Participant account and pay/recover the Cash Component and transaction handling charges, if any.
- The Fund may allow cash Redemption of the Units of the Scheme in Creation Unit size by Large Investors/Authorized Participant.
- Such Investors shall make Redemption request to the Fund/AMC whereupon the Fund/AMC will arrange to sell underlying portfolio Securities on behalf of the Investor. Accordingly, the sale proceeds of portfolio Securities, after adjusting the Cash Component and transaction handling charges will be remitted to the Investor.
- Redemption proceeds will be sent to Authorised Participants/Large Investors within 10 Business Days of the date of redemption subject to confirmation with the depository records of the Scheme's DP account.

Note:

1. The Creation Unit size may be changed by the AMC at their discretion and the notice of the same shall be published on AMC's website.
2. Transaction handling charges include brokerage, Securities transaction tax, regulatory charges if any, depository participant charges, uploading charges and such other charges that the mutual fund may have to incur in the course of cash subscription/redemption or accepting the Portfolio Deposit or for giving a portfolio of securities as consideration for a redemption request. Such transaction handling charges shall be recoverable from the transacting Authorized Participant or Large Investor.
3. The Portfolio Deposit and / or Cash Component for MANXT50ETF may change from time to time due to change in NAV.

4. The Fund may from time to time change the size of the Creation Unit in order to equate it with marketable lots of the underlying securities.

Overview of Debt Markets in India

Indian fixed income market, one of the largest and most developed in South Asia, is well integrated with the global financial markets. Screen based order matching system developed by the Reserve Bank of India (RBI) for trading in government securities, straight through settlement system for the same, settlements guaranteed by the Clearing Corporation of India and innovative instruments like CBLO have contributed in reducing the settlement risk and increasing the confidence level of the market participants.

The RBI reviews the monetary policy six times a year giving the guidance to the market on direction of interest rate movement, liquidity and credit expansion. The central bank has been operating as an independent authority, formulating the policies to maintain price stability and adequate liquidity. Bonds are traded in dematerialized form. Credit rating agencies have been playing an important role in the market and are an important source of information to manage the credit risk.

Government (Central and State) is the largest issuer of debt in the market. Public sector enterprises, quasi government bodies and private sector companies are other issuers. Insurance companies, provident funds, banks, mutual funds, financial institutions, corporates and FPIs are major investors in the market. Government loans are available up to 40 years maturity. Variety of instruments available for investments including plain vanilla bonds, floating rate bonds, money market instruments, structured obligations and interest rate derivatives make it possible to manage the interest rate risk effectively.

Indicative levels of the instruments currently trading as on January 31, 2020 are as follows:

Instrument	Maturity	Tenure	Yield	Liquidity
CBLO / Repo	Short	Overnight	4.84	Very High
CP / CD / T Bills	Short	3 months CP	5.85*	High
		3 months CD	5.40	
		1 Year CP	6.85*	
		1 Year CD	6.00	
Central Government securities	Low to High	10 years	6.60	Medium

Creation of Segregated Portfolio

Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time and includes the following:

1) Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a) Downgrade of a debt or money market instrument to 'below investment grade', or
- b) Subsequent downgrades of the said instruments from 'below investment grade', or
- c) Similar such downgrades of a loan rating

2) In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as mentioned above and implemented at the ISIN level.

3) Creation of segregated portfolio is optional and is at the discretion of the Mirae Asset Investment Managers (India) Pvt Ltd

Process for Creation of Segregated Portfolio

1) On the date of credit event, the AMC shall decide on creation of segregated portfolio. Once AMC decides to segregate portfolio, it shall:

- a) seek approval of trustees prior to creation of the segregated portfolio.
- b) immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors.

Mirae Asset Mutual Fund will also disclose that the segregation shall be subject to Trustee approval. Additionally, the said press release will be prominently disclosed on the website of the AMC.

c) ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme will be suspended for processing with respect to creation of units and payment on redemptions.

2) Once Trustee approval is received by the AMC:

- a) Segregated portfolio will be effective from the day of credit event
- b) AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information will also be submitted to SEBI.
- c) An e-mail or SMS will be sent to all unit holders of the concerned scheme.
- d) The NAV of both segregated and main portfolios will be disclosed from the day of the credit event.
- e) All existing investors in the scheme as on the day of the credit event will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- f) No redemption and subscription will be allowed in the segregated portfolio. However, upon recovery of any money from segregated portfolio, it will be immediately distributed to the investors in proportion to their holding in the segregated portfolio.
- g) AMC should enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests
- h) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.

3) If the trustees do not approve the proposal to segregate portfolio, AMC will issue a press release immediately informing investors of the same.

4) In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Benefits & Features of Creation of Segregated Portfolio:

- 1) Creation of Segregated portfolio helps ensuring fair treatment to all investors in case of a credit event and helps in managing liquidity risk during such events;
- 2) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio;
- 3) Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV;
- 4) A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio;

- 5) Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme; and
- 6) The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

Monitoring by Trustees

In order to ensure timely recovery of investments of the segregated portfolio, trustees would continuously monitor the progress and take suitable as it may be required.

In order to avoid mis-use of segregated portfolio, trustees will ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including clawback of such amount to the segregated portfolio of the scheme.

D. WHERE THE SCHEME WILL INVEST?

Equity and Equity Related Instruments:

The Scheme would invest in stocks constituting the NIFTY Next 50 Index in the similar proportion (weightage) as in the Index and endeavor to track the benchmark index.

The Scheme may take derivatives position based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the overall investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the SEBI Regulations

Debt & Money Market Instruments:

The Scheme will invest in debt and money market instruments. It retains the flexibility to invest across all the securities in the debt and money markets.

Debt securities and Money Market Instruments will include but will not be limited to:

- a. Securities created and issued by the Central and State Governments as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- b. Securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- c. Debt securities of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee.
- d. Corporate debt (of both public and private sector undertakings).
- e. Obligations/ Term Deposits of banks (both public and private sector) and development financial institutions.
- f. Money market instruments permitted by SEBI/RBI or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.
- g. Certificate of Deposits (CDs).
- h. Commercial Paper (CPs). A part of the net assets may be invested in the Collateralized Borrowing & Lending Obligations (CBLO) or in an alternative investment as may be provided by RBI to meet the liquidity requirements.
- i. The non-convertible part of convertible securities.
- j. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
- k. Any other instruments/securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency authorized to carry out such activity, such as CRISIL, ICRA, CARE, FITCH, etc. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals.

The Scheme shall not enter into any repurchase and reverse repurchase obligations in all securities held by it. The scheme does not intend to invest into any credit default swaps.

Investment in Derivatives:

The Scheme may take derivatives position based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme. Derivatives can be traded over the exchange or can be structured between two counter-parties. Those

transacted over the exchange are called Exchange Traded derivatives whereas the other category is referred to as OTC (Over the Counter) derivatives.

Concepts and Examples of investing into Derivatives

Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument, commodity or index, such as: interest rates, exchange rates, commodities and equities.

- **Futures**

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering into the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

Currently, futures contracts have a maximum expiration cycle of 3-months. Three contracts are available at any time for trading, with 1 month, 2 months and 3 months expiry respectively. Futures contracts typically expire on the last Thursday of the month. For example, a contract with the January expiration expires on the last Thursday of January.

A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

Let us assume that the Nifty Index at the beginning of the month October 2018 was 5070 and three index futures as under were available:

Expiry Month	Bid Price	Offer Price
October 18	5075	5080
November 18	5085	5090
December 18	5095	5100

The Scheme could buy an index future of October, 2018 at the offer price of Rs. 5080. The Fund will be required to pay the initial margin as required by the exchanges.

The following is a hypothetical example of a typical trade in index future and the costs associated with the trade.

Particulars	Index Future	Actual Purchase of Stocks
Index as on beginning October 2018	5070	5070
October 2018 Futures Price	5080	-
1. Carry Cost associated with Futures	10 (5080-5070)	
2. Brokerage Cost @ 0.02% for Index Future and 0.03% for Cash Markets	1.016 (0.02% of 5080)	1.521 (0.03% of 5070)
3. Securities Transaction Tax (STT) STT on purchase of index futures – NIL STT on purchase of stocks – 0.025%	NIL (0% of 5080)	1.2675 (0.025% of 5070)
4. Gain on Surplus Funds (Assumed 6% returns on 75% of the money left after paying margin of 25%)	18.74 (6%*(100% of 5070 – 25% of 5080)*30/365)	NIL
Spot Market Price at the expiry of October Contract	5569	5569
5. Brokerage Cost on Sale @ 0.02% for Index Future and 0.03% for Cash Markets	1.114 (0.02% of 5569)	1.671 (0.03% of 5569)

Particulars	Index Future	Actual Purchase of Stocks
6. Securities Transaction Tax STT on sale of index future – 0.025% STT on sale of stocks – 0.025%	1.114 (0.025% of 5569)	1.392 (0.025% of 5569)
Total Cost (1+2+3-4+5+6)	-5.50	5.85

Please note that the above example is based on assumptions and is used only for illustrative purposes (including an assumption that there will be a gain pursuant to investment in index futures). As can be seen in the above example, the costs associated with the trade in futures are less than that associated with the trade in actual stock. Thus, in the above example the futures trade seems to be more profitable than the trade in actual stock. However, buying of the index future may not be beneficial as compared to buying stocks if the execution and brokerage costs on purchase of index futures are high and the return on surplus funds are low. The actual returns may vary based on actuals and depends on final guidelines / procedures and trading mechanism as envisaged by stock exchanges and other regulatory authorities.

- **Options**

An option is a contract which provides the buyer of the option (also called the holder) the right, without the obligation, to buy or sell a specified asset at an agreed price on or upto a particular date. For acquiring this right the buyer has to pay a premium to the seller. The seller on the other hand has the obligation to buy or sell that specified asset at the agreed price. The premium is determined considering number of factors such as the underlying asset's market price, the number of days to expiration, strike price of the option, the volatility of the underlying asset and the risk less rate of return. The strike price, the expiration date and the market lots are specified by the exchanges.

An option contract may be of two kinds, viz., a call option or a put option. An option that provides the buyer the right to buy is a call option. The buyer of the call option (known as the holder of the option) can call upon the seller of the option (known as writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry date of the option. The seller of the option has to fulfill the obligation on exercise of the option.

The right to sell is called a put option. Here, the buyer of the option can exercise his right to sell the underlying asset to the seller of the option at the agreed price.

Options are of two types: European and American. In a European option, the holder of the option can only exercise his right on the date of expiration. In an American option, he can exercise this right anytime between the purchase date and the expiration date.

Example of options

Buying a Call option: Assume that the Scheme buys a call option at the strike price of Rs. 5,000 and pays a premium of Rs. 100. If the market price of the underlying stock on the date of expiry of the option is Rs. 5,400 (i.e. more than Rs. 5,000 which is the strike price of an option), the Scheme will exercise the option. However, it may not result into profit. The profit is made only in those circumstances when the intrinsic value (5400 (spot price)-5000(strike price)) is greater than cost paid i.e. option premium (100). If on the date of the expiry of the option, the market price of the underlying stock is Rs. 4,900, the Scheme will not exercise the option and it shall lose the premium of Rs. 100.

Thus, in the above example, the loss for the Scheme, as the buyer of the option, is limited to the premium paid by him while the gains are unlimited.

Writing a Call Option: Assume that the Scheme writes a call option at the strike price of Rs. 5,000 and earns a premium of Rs. 100. If the market price of the underlying stock on the date of expiry increases to Rs. 5,400 (i.e. more than Rs. 5,000) then the option is exercised. The Scheme earns the premium of Rs.

100/- but loses the difference between the market price and the exercise price i.e. Rs. 400/-. In case the market price of the underlying stock decreases to Rs. 4,900, the Scheme gets to keep the premium of Rs.100.

Buying a Put Option: Assume that the Scheme buys a put option at the strike price of Rs. 5,000 and pays a premium of Rs. 100. If the market price of the underlying stock decreases to Rs. 4,850 (i.e. less than strike price of 5000) the Scheme would be protected from the downside and would exercise the put option. However, it may not result into profit. The profit is resulted only when the intrinsic value (5000 (strike price)– 4850(spot price)) is greater than the cost paid i.e. option premium of 100. Whereas if the stock price moves up to say Rs. 5,150 the Scheme may let the option expire and forego the premium.

Writing a Put Option: Assume that the Scheme writes a put option at the strike price of Rs. 5,000 and earns a premium of Rs. 100. If the market value of the underlying stock decreases to Rs. 4,850, the put option will be exercised and the Scheme will earn the premium of Rs. 100 but loses the difference between the exercise price and the market price which is Rs. 150. However if the market price of the underlying stock is Rs. 5,150, the option-holder will not exercise the option. As a result of which the option will expire and the Scheme will earn the premium income of Rs. 100.

A forward contract is a transaction in which the buyer and the seller agree upon the delivery of a specified quality (if commodity) and quantity of underlying asset at a predetermined rate on a specified future date.

Please note that the above examples are based on assumptions and are used only for illustrative purposes.

Risks associated with investment strategy which may be followed by the fund managers for investment in derivatives:

Execution of investment strategies depends upon the ability of the fund manager to identify such opportunities which may not be available at all times. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable.

The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.

Investments Limitations and Restrictions in Derivatives

In accordance with SEBI Circular dated August 18, 2010, the following investment restrictions shall apply with respect to investment in Derivatives:

Sr. No.	Particulars
1	The cumulative gross exposure through equity, debt and derivative positions will not exceed 100% of the net assets of the scheme. However, cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.
2	The Scheme shall not write options or purchase instruments with embedded written options.
3	The total exposure related to option premium paid shall not exceed 20% of the net assets of the scheme.
4	Exposure due to hedging positions may not be included in the above mentioned limits subject to the following: a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains. b. Hedging positions shall not be taken for existing derivative positions. Exposure due to such positions shall be added and treated under gross cumulative exposure limits mentioned under Point 1.

	<p>c. Any derivative instrument used to hedge shall have the same underlying security as the existing position being hedged.</p> <p>d. The quantity of underlying associated with the derivative position taken for hedging purposes shall not exceed the quantity of the existing position against which hedge has been taken.</p>								
5	The Scheme may enter into plain vanilla interest rate swaps for hedging purposes. The counterparty in such transactions shall be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions shall not exceed 10% of the net assets of the scheme.								
6	Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under gross cumulative exposure limits mentioned under Point 1.								
7	<p>Each position taken in derivatives shall have an associated exposure as defined below. Exposure is the maximum possible loss that may occur on a position. In accordance with SEBI circulars dated September 14, 2005, January 20, 2006, September 22, 2006 and December 27, 2016 the following conditions shall apply to the Scheme's participation in the derivatives market. Please note that the investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time.

Position limit for the Fund in index options contracts

- The Fund's position limit in all index options contracts on a particular underlying index shall be Rs.500 Crores or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all options contracts on a particular underlying index.

Position limit for the Fund in index futures contracts

- The Fund's position limit in all index futures contracts on a particular underlying index shall be Rs.500 Crores or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit in index derivatives for hedging for the Fund

In addition to the position limits above, the Fund may take exposure in equity index derivatives subject to the following limits:

- Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Fund's holding of stocks.
- Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Fund's holding of cash, government securities, T-Bills and similar instruments.

Position limit for the Fund for stock based derivative contracts

The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

Position limit for the Scheme

The position limit/disclosure requirements for the Scheme shall be as follows:

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of the Scheme shall not exceed the higher of:
1% of the free float market capitalization (in terms of number of shares)
OR
5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts (Shares)).
- For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.
- This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a stock exchange.

The Trustee may alter the above restrictions from time to time to the extent that changes in the Regulations may allow and as deemed fit in the general interest of the Unit Holders.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund does not follow any internal norms vis-a-vis limiting exposure to a particular scrip or sector etc.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The NIFTY NEXT 50 ETF will be managed passively with investments in stocks in a proportion that match as close as possible to the weights of these stocks in Nifty Next 50 Index. The investment strategy would revolve around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme. A part of the funds may be invested in debt and money market instruments, to meet the liquidity requirements.

Subject to the Regulations and the applicable guidelines the Scheme may invest in the schemes of Mutual Funds. The investment strategy shall be in line with the asset allocation mentioned under “Section II (c): How will the Scheme allocate its assets”.

Though every endeavor will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee does not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

RISK CONTROL

The scheme aims to track the NIFTY NEXT 50 Index (before expenses) as closely as possible. The index is tracked on a regular basis and changes to the constituent's or their weights, if any, are replicated in the underlying portfolio with the purpose of minimizing tracking error.

ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions. The fund manager would endeavor to keep cash levels at the minimal to control tracking error.

Policy for Investment decisions

The investment policy of the AMC has been determined by the Investment Committee (“IC”) which has been ratified by the Boards of the AMC and Trustee. At the strategic level, the broad investment philosophy of the AMC and the authorized exposure limits are spelt out in the Investment Policy of the AMC. During trading hours, the Fund Managers have the discretion to take investment decisions for the Scheme within the limits defined in the Investment Policy, these decisions and the reasons thereof are communicated to the CEO for post facto approval.

The designated Fund Manager(s) of the Scheme will be responsible for taking day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

Portfolio Turnover Policy

Portfolio Turnover measures the volume of trading that occurs in a Scheme’s portfolio during a given time period. The Scheme is an open-ended Exchange Traded Fund and it is expected that there may be a number of subscriptions and repurchases on a daily basis through Stock Exchange(s) or Authorized Participants and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty Next 50 Index. However, it will be the endeavor of the Fund Manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the Scheme and the purchase/ redemption transactions on an ongoing basis in the Scheme.

F. FUNDAMENTAL ATTRIBUTES

Following are the fundamental attributes of the scheme, in terms of Regulation 18(15A) of the SEBI (MF) Regulations:

(i) Type of Scheme:

An open ended scheme replicating/tracking Nifty Next 50 Total Return Index

(ii) Investment Objective:

The investment objective of the scheme is to generate returns, before expenses, that are commensurate with the performance of the Nifty Next 50 Index, subject to tracking error. The Scheme does not guarantee or assure any returns.

Asset allocation:

Types of Instruments	Indicative allocation (% of total assets)		Risk Profile
Securities included in the Nifty Next 50 Index	95%	100%	High
Money market instruments / debt securities, Instruments and/or units of debt/liquid schemes of domestic Mutual Funds, but excluding subscription and redemption cash flow*	0	5%	Low to Medium

*Subscription cash flow is the subscription money in transit before deployment and redemption cash flow is the money kept aside for meeting redemptions.

The Scheme may make investments in Derivatives upto 20% of the net assets of the Scheme. The Scheme will not invest in ADR/ GDR / Foreign Securities / Securitized Debt/ Repo in Corporate Debt
Scheme Information Document - Mirae Asset Nifty Next 50 ETF

Securities nor will it engage in short selling. However, the aggregate gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme.

(iii) Terms of Issue:

(a) Listing:

The Units of the Scheme are listed on the Capital Market Segment of the NSE and BSE.

The AMC engages Authorized Participants for creating liquidity for the Units of the Scheme on the Stock Exchange(s) so that investors other than Authorized Participants and Large Investors are able to buy or redeem Units on the Stock Exchange(s) using the services of a stock broker.

The Mutual Fund may at its sole discretion list the Units of the Scheme on any other recognized Stock Exchange(s) at a later date.

The AMC/Trustee reserves the right to delist the Units of the Scheme from a particular stock exchange provided the Units are listed on at least one stock exchange.

An investor can buy/sell Units on a continuous basis on the NSE and BSE on which the Units are listed during the trading hours like any other publicly traded stock at prices which may be close to the NAV of the Scheme. The price of the Units in the market will depend on demand and supply at that point of time. There is no minimum investment, although Units are purchased in round lots of 1.

(b) Redemption of Units: Redemption Price

(c) Aggregate fees and expenses charged to the scheme:

For detailed fees and expenses charged to the scheme please refer to section 'Fees and Expenses'.

**(d) The Scheme does not provide any safety net or guarantee to the investors.
There is no assurance OR guarantee of returns.**

Change in the fundamental attributes of the Schemes:

In accordance with Regulation 18(15A) of the Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme or the Fund or the fees and expenses payable or any other change which would modify the Scheme and affect the interest of the Unit Holders will be carried out unless:

- A written communication about the proposed change is sent to each Unit Holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a Marathi daily newspaper with wide circulation published in Mumbai (as the head office of the Fund is situated there); and
- The Unit holders are given an option to exit for a period of 30 days to exit at the prevailing Net Asset Value without any exit Load.

Fundamental attributes will not cover changes to the Scheme made in order to comply with changes in regulation with which the Scheme has been required to comply.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the scheme will be benchmarked to the performance of the Nifty Next 50 TRI index.

Rationale for adoption of benchmark:

The Trustees have adopted Nifty Next 50 Index as the benchmark index.

As per its investment objective, the investment would primarily be in Securities which are constituents of the benchmark index. Thus, the composition of the aforesaid benchmark index is such that it is most suited for comparing performance of the Scheme.

The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

About the Benchmark

The NIFTY Next50 is a diversified 50 stock index accounting for 14 sectors of the economy. The NIFTY Next 50 Index represents 50 companies from NIFTY 100 after excluding the NIFTY 50 companies. It is used for a variety of purposes such as benchmarking fund portfolios, index based derivatives and index funds.

NIFTY NEXT 50 is owned and managed by NSE Indices Limited (formerly known as India Index Services & Products Limited) (NSE Indices). NSE Indices is India's specialised company focused upon the index as a core product.

The NIFTY Next 50 Index represents about 10% of the free float market capitalization of the stocks listed on NSE as on March 29, 2019. The total traded value for the last six months March 2019 of all index constituents is approximately 12.7% of the traded value of all stocks on NSE. Impact cost for NIFTY Next 50 for a portfolio size of Rs.25 lakhs is 0.04% for the month March 2019.

Details about the index:

NIFTY Next 50 is a well diversified 50 stocks index accounting for 14 sectors of the economy. It is computed using a free float market capitalisation weighted method wherein the level of the index reflects the total market value of all the stocks in the index relative to a particular base period. The method also takes into account constituent changes in the index and importantly corporate actions such as stock splits, rights, etc without affecting the index value. Stocks are selected based on their float adjusted market capitalization, liquidity and other factors. NIFTY Next 50 Index is a broad based diversified index. It has a base period of November 4, 1996 with a base index value of 1000.

Criteria for Selection of constituent stocks:

Eligibility Criteria for Selection of Constituent Stocks:

To be considered for inclusion in NIFTY Next 50 index, companies must form part of NIFTY 100, but should not be forming part of the NIFTY 50. Eligibility criteria for newly listed security are checked based on the data for a three-month period instead of a six-month period.

Index Re-Balancing:

Index is re-balanced on semi-annual basis. The cut-off date is January 31 and July 31 of each year, i.e. For semi-annual review of indices, average data for six months ending the cut-off date is considered. Four weeks prior notice is given to market from the date of change.

<p>Cut off timing for subscription/ redemption</p> <p>(This is the time before which your redemption request (complete in all respects) should reach the official points of acceptance)</p>	<p>In case of Purchase / Redemption directly with Mutual Fund (By Authorized Participants and Large Investors):</p> <p>The Cut-off time for receipt of valid application for Subscriptions and Redemptions is 3.00 p.m. However, as the Scheme is an Exchange Traded Fund, the Subscriptions and Redemptions of Units would be based on the Portfolio Deposit and Cash Component as defined by the Fund for that respective Business Day. Thus, MANXT50ETF Units will be allotted / redeemed at a price determined on the basis of previous day's NAV. Additionally, the difference in the value of portfolio and cost of purchase/sale of Portfolio Deposit on the Exchange for creation/ redemption of MANXT50ETF Units including the Cash Component and transaction handling charges, if any, will have to be borne by the Authorized Participant/Large Investor.</p> <p>In case of Redemption directly with Mutual Fund in exceptional circumstances by investors other than Authorized Participants:</p> <p>The Cut-off time for receipt of valid application for Redemptions directly with the Fund in exceptional circumstances is 3.00 p.m. Valid applications received by the fund upto the cut-off time will be processed on the basis of the closing NAV of the day of receipt of request and for valid applications received after cut-off time, the closing NAV of the next Business Day shall be applicable.</p> <p>Settlement of Purchase/Sale of Units of the Scheme on NSE/ BSE</p> <p>Buying/Selling of Units of the Scheme on NSE/ BSE is just</p>

	<p>like buying/selling any other normal listed security. If an investor has bought Units, an investor has to pay the purchase amount to the broker/sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the Stock Exchange(s). If an investor has sold Units, an investor has to deliver the Units to the broker/sub-broker before the securities pay- in day of the settlement cycle on the Stock Exchange(s). The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the Stock Exchange(s). The Stock Exchange(s) regulations stipulate that the trading member should pay the money or Units to the investor within 24 hours of the pay-out.</p> <p>If an investor has bought Units, he should give standing instructions for ‘Delivery-In’ to his /her/its DP for accepting Units in his/her/its beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her/its DP to his/ her/its trading member. The trading member will transfer the Units directly to his/her/ its beneficiary account on receipt of the same from NSE’s/ BSE’s Clearing Corporation.</p> <p>An investor who has sold Units should instruct his/her/its Depository Participant (DP) to give ‘Delivery Out’ instructions to transfer the Units from his/her/its beneficiary account to the Pool Account of his/her/its trading member through whom he/she/it have sold the Units. The details of the Pool A/C (CM-BP-ID) of his/her trading member to which the Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.</p>
<p>Where can the applications for Purchase/ redemption be submitted?</p>	<p>The application forms for subscriptions/redemptions (applicable for Authorized Participants/Large Investors) should be submitted at/may be sent by mail to, any of the ISCs/Official Points of Acceptance of the AMC.</p> <p>For details on updated list of ISCs/Official Points of Acceptance, investors can call the investor line of the AMC at “1800 2090 777”. D COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

NAV of Units under the Options there under can be calculated as shown below:

$$\text{NAV} = \frac{\text{(Market or Fair Value of Scheme's investments + Current assets including Accrued Income - Current Liabilities and provisions including accrued expenses)}}{\text{No. of Units outstanding under the Scheme/Option.}}$$

The NAV, the sale and repurchase prices of the Units will be calculated and announced at the close of each working day.

Computation of NAV will be done after taking into account dividends paid, if any, and the distribution tax thereon, if applicable.

The valuation of the Schemes' assets and calculation of the Schemes' NAVs shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

IV FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sale and distribution fees paid, marketing and advertising, registrar expenses, printing and stationery, bank charges etc. NFO expenses shall be borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that upto 1.00% of the daily net assets of the Scheme will be charged to the scheme as expenses. As per the Regulations, the maximum recurring expenses including investment management and advisory fee that can be charged to the Scheme shall be subject to a percentage limit of daily net assets as in the table below:

The recurring expenses of operating the Scheme on an annual basis, which shall be charged to the Scheme, are estimated to be as follows (each as a percentage per annum of the daily net assets)

Particulars	% p.a. of daily net assets
Investment Management & Advisory Fee	Upto 1.00%
Trustee fee	
Audit fees	
Custodian fees	
RTA Fees	
Marketing & Selling expense incl. agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and dividend redemption cheques and warrants	
Costs of statutory Advertisements	
Cost towards investor education & awareness (at least 2 bps)	
Brokerage & transaction cost over and above 12 bps and 5 bps for cash market transactions and derivative transaction respectively @@	
GST on expenses other than investment and advisory fees	
GST on brokerage and transaction cost	
Other Expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6) (b)	Upto 1.00%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

*Other expenses: Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

For the actual current expenses being charged, the investor should refer to the website of the Mutual Fund.

@@ Brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment shall not exceed 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. These estimates have been made in good

faith as per the information available to the AMC and the above expenses (including investment management and advisory fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations, as amended from time to time.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate, sponsor, trustee or any other entity through any route.

In addition to the limits as specified in Regulation 52(6) of SEBI (Mutual Funds) Regulations 1996 ['SEBI Regulations'] or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the scheme namely:-

Additional expenses for gross new inflows from specified cities:

- (a) expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI from time to time are at least -
- (i) 30 per cent of gross new inflows in the scheme, or;
 - (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the Scheme shall be charged on proportionate basis.

Provided further that, expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the Scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Currently, SEBI has specified that the above additional expenses may be charged for inflows from beyond 'Top 30 cities.' The top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography – Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

Provided further that, additional TER can be charged based on inflows only from retail investors from B30 cities in terms of SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018 read with SEBI/HO/IMD/DF2/CIR/P/2019/42 dated March 25, 2019.

'Retail investors' are defined as individual investors with an inflow of an amount upto Rs 2,00,000/- per transaction.

This sub clause (a) shall be applicable for inflows received during the NFO period.

- (b) GST payable on investment and advisory service fees ('AMC fees') charged by Mirae Asset Investment Managers (India) Private Limited ('Mirae Asset AMC');

Within the Total Expense Limit chargeable to the Scheme, following will be charged to the Scheme:

- (a) GST on other than investment and advisory fees, if any, (including on brokerage and transaction costs on execution of trades) shall be borne by the Scheme;
- (b) Investor education and awareness initiative fees of at least 2 basis points on daily net assets of respective Scheme.

Any expenditure in excess of the SEBI regulatory limits shall be borne by the AMC or the Sponsor.

The current expense ratios will be updated on the AMC website <https://miraeassetmf.co.in/downloads/regulatory> at least 3 working days prior to the effective date of the change.

Further, the notice of change in base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A) (b) and 52(6A)(c) of SEBI (Mutual Funds) Regulations, 1996) in comparison to previous base TER charged to the scheme will be communicated to investors of the scheme through notice via email or SMS at least three working days prior to effecting such change.

However, any decrease in TER due to decrease in applicable limits as prescribed in Regulation 52 (6) (i.e. due to increase in daily net assets of the scheme) would not require issuance of any prior notice to the investors. Further, such decrease in TER will be immediately communicated to investors of the scheme through email or SMS and uploaded on the AMC website.

The above change in the base TER in comparison to previous base TER charged to the scheme shall be intimated to the Board of Directors of AMC along with the rationale recorded in writing.

The changes in TER shall also be placed before the Trustees on quarterly basis along with rationale for such changes.

Illustration of impact of expense ratio on scheme's returns

Particulars		NAV
Opening NAV per unit	A	10.000
Gross Scheme Returns @ 8.75%	B	0.875
Expense Ratio @ 1.50 % p.a. (including distribution expenses) charged during the year	C = (A x 1.50%)	0.150
Closing NAV per unit	D = A + B - C	10.725
Net 1 Year Return	D/A - 1	7.25%

The above calculation is provided to illustrate the impact of expenses on the scheme returns and should not be construed as indicative Expense Ratio, yield or return.

TER for the Segregated Portfolio

- a) AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b) The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c) The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d) The costs related to segregated portfolio shall in no case be charged to the main portfolio.

TRANSACTION CHARGES:

SEBI with the intent to enable investment by people with small saving potential and to increase reach of Mutual Fund products in urban areas and in smaller towns, wherein the role of the distributor is vital, has allowed AMCs vide its circular no. Cir/IMD/DF/13/2011 dated August 22, 2011 to deduct

transaction charges for subscription of Rs. 10,000/- and above. The said transaction charges will be paid to the distributors of the Mutual Fund products (based on the type of product).

In accordance with the said circular, AMC / Mutual Fund will deduct the transaction charges from the subscription amount and pay to the distributors (based on the type of product and those who have opted to receive the transaction charges) as shown in the table below. Thereafter, the balance of the subscription amount shall be invested.

(i) Transaction charges shall be deducted for Applications for purchase/ subscription received by distributor/ agent as under:

Investor Type	Transaction Charges
First Time Mutual Fund Investor	Transaction charge of Rs.150/- for subscription of Rs.10,000 and above will be deducted from the subscription amount and paid to the distributor/agent of the first time investor. The balance of the subscription amount shall be invested.
Investor other than First Time Mutual Fund Investor	Transaction charge of Rs. 100/- per subscription of Rs, 10,000 and above will be deducted from the subscription amount and paid to the distributor/ agent of the investor. The balance of the subscription amount shall be invested.

(ii) **Transaction charges shall not be deducted for:**

- Purchases /subscriptions for an amount less than Rs. 10,000/-; and
- Transactions other than purchases/ subscriptions relating to new inflows such as Switches, etc.
- Any purchase/subscription made directly with the Fund (i.e. not through any distributor/ agent).
- Transactions carried out through the stock exchange platforms.

C LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time.

Investors are advised to contact any of the ISCs or the AMC by calling the investor line of the AMC at "1800 2090 777" to know the current applicable load structure prior to investing. Investors can also visit the website at www.miraeassetmf.co.in for complete details.

Entry Load: Not Applicable

Exit Load:

- For Creation Unit Size: No Exit load will be levied on redemptions made by Authorized Participants / Large Investors directly with the Fund in Creation Unit Size.
- For other than Creation Unit Size: Not Applicable - The Units of MANXT50ETF in other than Creation Unit Size cannot ordinarily be directly redeemed with the Fund. These Units can be redeemed (sold) on a continuous basis on the Exchange(s) where it is listed during the trading hours on all trading days.

Investors other than Authorised Participants can redeem units directly with the Fund for less than Creation Unit size at Applicable NAV based prices of units without any exit load if:

1. The closing traded price of the units of the Scheme is at a discount of more than 3% to the day end NAV for 30 consecutive trading days; or
2. Discount of bid price to day end NAV over a period of 7 consecutive trading days is greater than 3%, or
3. There are no quotes or trades available on the Stock Exchange(s) for 3 consecutive trading days, or
4. Total bid size on the exchange is less than half of Creation Units size daily, averaged over a period of 7 consecutive trading days.

Such instances shall be tracked by the AMC on an ongoing basis and in case if any of the above mentioned scenario arises, the same shall be disclosed on the website of the Mutual Fund.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

The Mutual Fund may charge the load within the stipulated limit of 7% and without any discrimination to any specific group. The Repurchase Price however, will not be lower than 93% of the NAV, and the Sale Price will not be higher than 107% of the NAV, provided that the difference between the Repurchase price and Sale price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time which is presently 7% calculated on the Sale Price.

All Loads are intended to enable the AMC to recover expenses incurred for promotion or distribution and sales of the Units of the Scheme. The Fund/AMC shall retain the load, in the Scheme in a separate account and use it to cover the cost of raising/redeeming units on a continuous basis by way of providing redemption/distribution related services to the Fund relating to the sale, promotion, advertising and marketing of the units of the Scheme and costs associated with liquidating the Fund's investment securities, including payments for postage and also payments to brokers for their services in connection with the redemption/distribution of the units. Surplus of load, if any, charged over planned marketing and distribution expenses will be credited to the scheme, whenever felt appropriate by the AMC.

The Trustee reserves the right to modify/alter the load structure and may decide to charge an exit load on the Units with prospective effect, subject to the maximum limits as prescribed under the SEBI Regulations. At the time of changing the load structure, the AMC shall take the following steps:

- A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
- Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all the Mirae Asset ISCs' and distributors' offices.
- The notice-cum-addendum detailing the changes shall be attached to SIDs and Key Information Memoranda. The addendum will be circulated to all the distributors so that the same can be attached to all SIDs and Key Information Memoranda already in stock.
- The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- Any other measures which the mutual funds may feel necessary.

The AMC may change the load from time to time and in case of an exit/repurchase load this may be linked to the period of holding. It may be noted that any such change in the load structure shall be applicable on prospective investment only. The exit load (net off GST, if any, payable in respect of the same) shall be credited to the Scheme of the Fund.

The distributors should disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor.
